COMPANY PROFILE

Himalayan Everest Insurance Limited (HEI) is a leading non-life insurance company in Nepal, formed through the strategic merger of Himalayan General Insurance Company Limited (established in 1993) and Everest Insurance Company Limited (established in 1994). The merger, completed in 2022, combined two experienced insurers with strong market presence, operational expertise, and underwriting capacity marking the first-ever merger in Nepal's insurance industry, creating a more resilient and competitive institution.

The Company maintains a strong and balanced capital structure, with a paid-up capital of NPR 2.50 billion. Promoters hold 51.10% ownership, while the remaining 48.90% is held by the public, reflecting a healthy blend of promoter commitment and public participation and reinforcing confidence in the Company's long-term stability.

During the reporting period, HEI recorded gross written premium of NPR 4.28 billion, while net written premium amounted to NPR 1.76 billion, demonstrating solid underwriting performance and effective risk retention strategies. Total assets stood at NPR 10.18 billion, supported by a well-diversified investment portfolio valued at NPR 5.24 billion. Gross claims paid during the period amounted to NPR 1.96 billion, reflecting the Company's commitment to timely and transparent settlement of policyholder obligations. The solvency margin remained strong at 438.10%, significantly exceeding the regulatory requirement of 130%.

The Company's underwriting portfolio is well diversified across major non-life insurance segments with Motor insurance accounting 30% of the total portfolio, followed by miscellaneous insurance at 23%, property insurance at 22%, and engineering insurance at 20%. This balanced business mix enables HEI to manage concentration risks effectively while supporting sustainable premium growth. Himalayan Everest Insurance Limited has one of the largest operational footprints in Nepal's insurance industry, with 90 offices operating nationwide. As of Ashad end, 2082 BS, the Company employed 531 skilled and dedicated personnel engaged in underwriting, claims management, customer service, and operational control. The governance framework of HEI is anchored by an experienced Board of Directors and a professional management team. The Company is chaired by Mr. Mahendra Krishna Shrestha, with Ms. Anju Shrestha serving as Chief Executive Officer. The six-member Board is supported by key committees, including the Audit Committee, HR Committee, Claims and Reinsurance Committee, Investment Committee, Risk Management Committee, IT Committee, ORSA Committee, and AML Committee. Through strong governance, prudent financial management, a diversified portfolio, and a robust solvency position, Himalayan Everest Insurance Limited remains well positioned to support Nepal's growing insurance needs while delivering sustainable value to policyholders, shareholders, and the broader economy.

COMPANY'S VISION, MISSION & OBJECTIVES

VISION

The most innovative
and Trusted Partner

MISSION

To become the leading non-
life insurance company in
Nepal, recognized for our
operational excellence and
exceptional profitability

OBJECTIVES

The overall objective of Himalayan Everest Insurance Limited is to provide financial protection against unforeseen risks and losses, ensuring security and peace of mind for individuals, businesses, and communities. This is achieved by offering a diverse range of insurance products, ensuring fair claim settlements, maintaining financial stability, and contributing to the socio-economic wellbeing through corporate social responsibility.

CORE VALUES

Customer First

The overall objective of Himalayan Everest Insurance Limited is to provide financial protection against unforeseen risks and losses, ensuring security and peace of mind for individuals, businesses, and communities. This is achieved by offering a diverse range of insurance products, ensuring fair claim settlements, maintaining financial stability, and contributing to the socio-economic wellbeing through corporate social responsibility.

Partnership

We believe progress happens through strong, collaborative relationships. By working closely with agents, brokers, employees, reinsurers, and customers, we create shared value and sustainable growth. Our partnership mindset helps us respond effectively to diverse needs and market dynamics.

Empathy

Insurance is about supporting people when they face uncertainty or hardship. We listen with understanding, communicate with respect, and act with care. Empathy guides our approach to customer service and claims support, enabling us to respond sensitively and effectively.

Trustworthy

We conduct our business with integrity, transparency, and consistency. Our commitment to ethical practices and responsible decision-making enables us to build long-lasting confidence among customers, partners, and regulators. We strive to be an insurer that people can depend on without hesitation.

Ownership

We embrace accountability at every level of the organization. Each team member is empowered to take initiative, uphold standards, and deliver results with a sense of responsibility. Ownership strengthens our culture, drives operational excellence, and ensures reliable service delivery.

Growth Mindset

We foster a culture of continuous learning, innovation, and adaptability. By embracing new ideas, technologies, and ways of working, we ensure that HEI remains forward-looking and competitive. A growth mindset enables us to improve our capabilities, enhance service quality, and meet evolving customer needs.

CODE OF CONDUCT

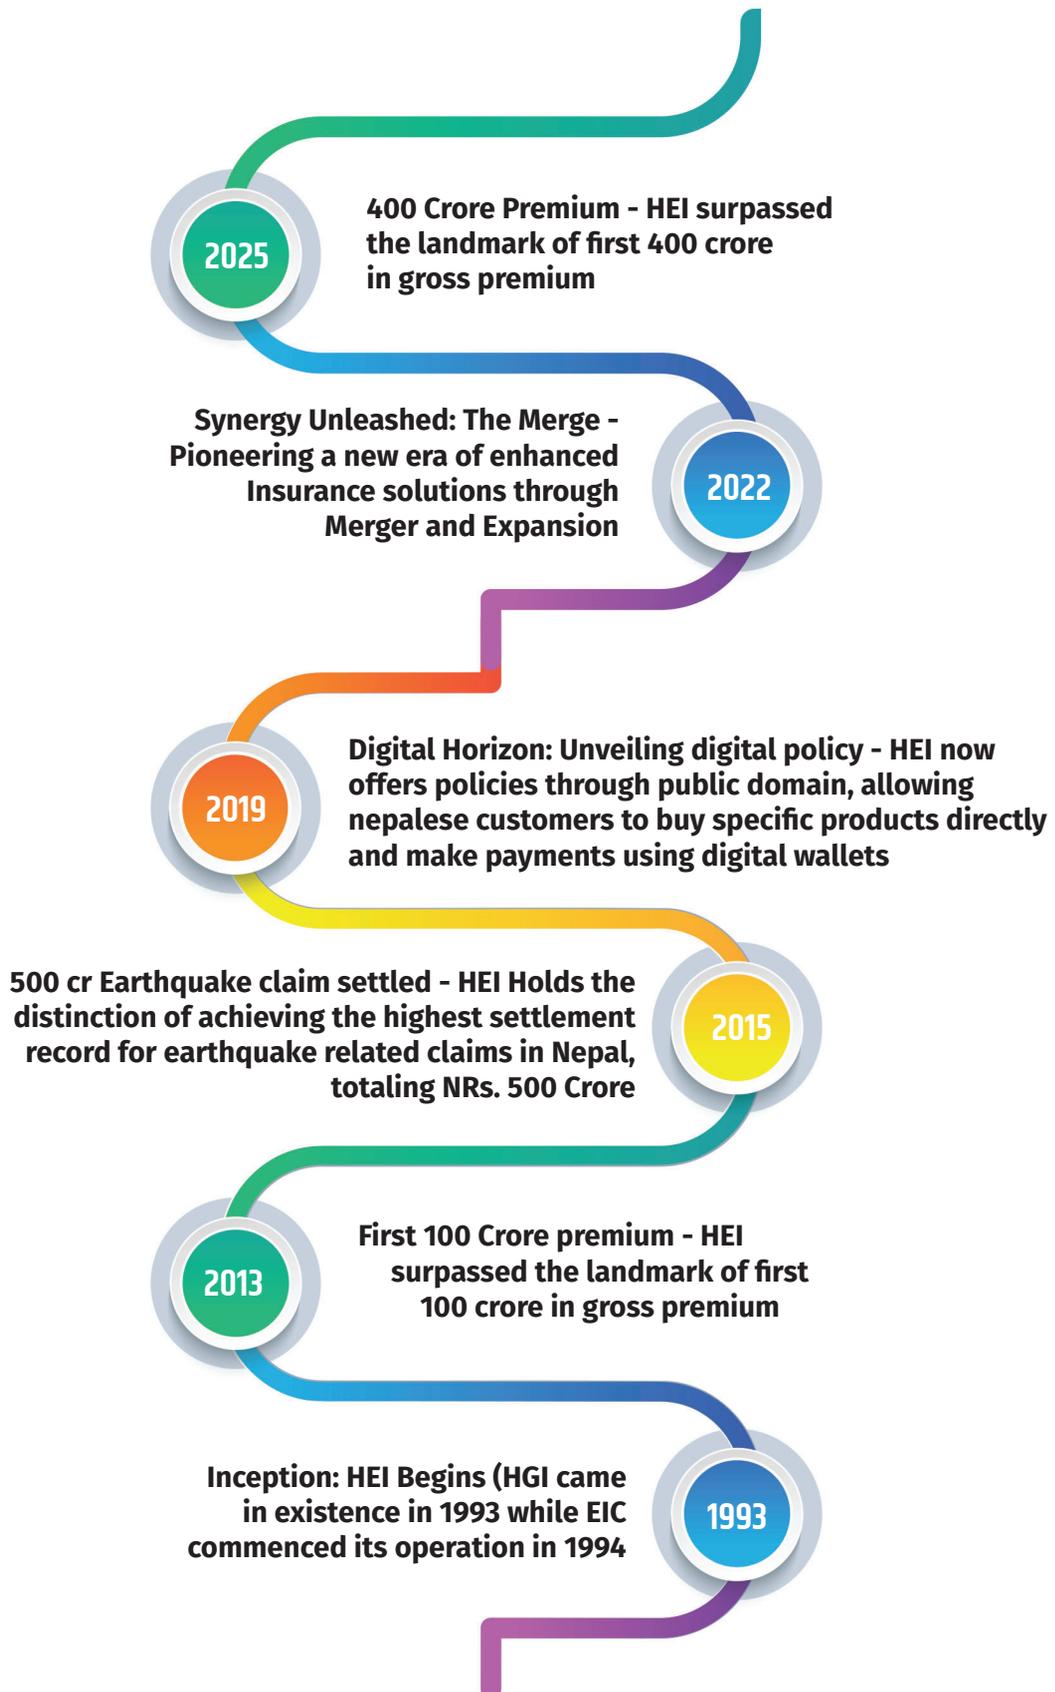

- **Regulatory Compliance**
We strictly adhere to all legal and regulatory requirements governing the insurance industry.
- **Fair and Transparent Practices**
We conduct our business with fairness, transparency, and accountability.
- **Confidentiality**
We safeguard sensitive customer and company information and prevent unauthorized disclosures.
- **Professionalism**
We maintain high standards of professional behavior in all dealings with clients, partners, and regulators.
- **Customer Protection**
We ensure fair treatment of policyholders, quick claim settlements, and ethical sales practices.

ETHICAL PRINCIPLES

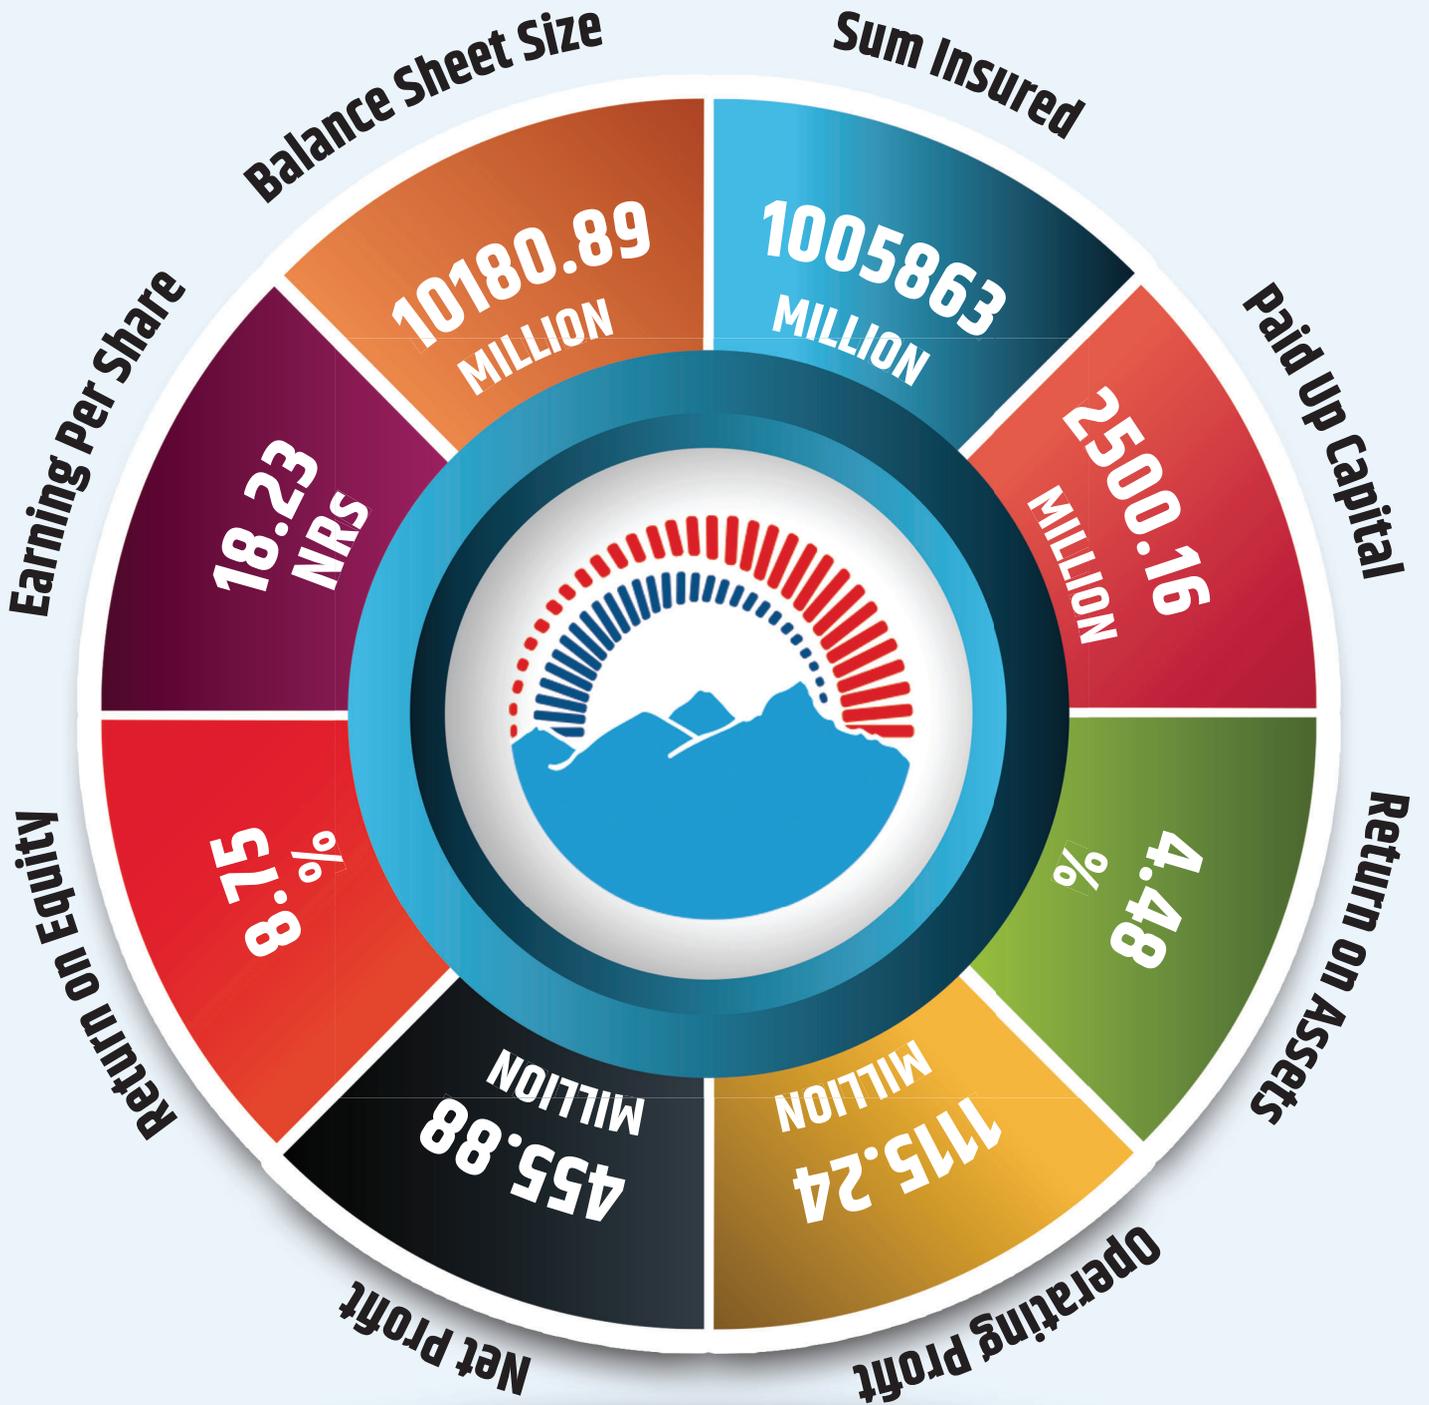

- **Honesty & Fairness**
We ensure honest communication and fair treatment of all stakeholders.
- **Social Responsibility**
We contribute to the welfare of society through ethical business practices and community engagement.
- **Respect for Diversity & Inclusion**
We maintain fairness in risk assessment and timely claims settlement.
- **Responsible Underwriting & Claims Handling**
We maintain fairness in risk assessment and timely claims settlement.
- **Commitment to Stakeholders**
We create value for customers, employees, investors, and society through ethical decision-making.

HEI MILESTONES

FINANCIAL HIGHLIGHTS

NON FINANCIAL HIGHLIGHTS

Our focus remains firmly on the long term, strengthening the foundations of the business through sound governance, operational discipline, and service excellence.

Chairman's Message

Dear Shareholders, Distinguished Guests, and Esteemed Colleagues,

On behalf of the Board of Directors of Himalayan Everest Insurance Limited (HEI), I am privileged to welcome you to the 32nd Annual General Meeting of the Company.

It has been a significant and demanding year for our company. Under the capable leadership of our CEO, Anju Shrestha, and with the unwavering support and guidance of the Board of Directors, we have achieved steady progress while remaining focused on long-term value creation.

The year under review unfolded against a challenging economic backdrop. Kathmandu, along with several other regions across the country, was struck by one of the most devastating floods in recent history, resulting in significant loss of life and widespread damage to property. We all witnessed, with deep concern, the rising water levels and heard numerous heartbreaking stories of suffering and hardship. During such times, the true purpose of insurance is most clearly tested.

It is during such unfortunate times that the true value of insurance also becomes evident. At Himalayan Everest Insurance, we stood by our clients in their time of need, settling flood-related claims amounting to Rs 443.39 million during the year, reaffirming our commitment to supporting our policyholders when they need us the most.

I am also pleased to share that during the financial year, we successfully moved into our new Head Office building. This new facility is a tangible reflection of the Company's growth and stability and our commitment to a modern, efficient, and collaborative working environment that will support our continued innovation, collaboration, and service excellence in the years to come.

Looking back at the year, as Chairman of Himalayan Everest Insurance, what gives the Board and me the greatest sense of pride is the clarity of direction

achieved across the organisation, led by Ms. Anju Shrestha, with close alignment between the Board and senior management, in shaping a clear and aligned vision for the long-term future of the Company.

Our focus remains firmly on the long term, strengthening the foundations of the business through sound governance, operational discipline, and service excellence.

Our aspirations are clear: to be among the most trusted and respected insurers in Nepal; to lead by example, setting new standards in professionalism, service, and corporate responsibility.

Before I conclude, I would note that the early part of the current financial year witnessed significant social and operational disruptions. From an insurance perspective, the losses arising from the September 2025 events represented one of the largest insured loss events recorded in Nepal to date. The scale, volume, and complexity of claims placed exceptional operational and financial demands on the insurance industry, once again highlighting the critical role of insurance in safeguarding individuals and businesses against unforeseen and unexpected risks.

In closing, I would like to extend my sincere gratitude to our valued shareholders for their continued trust and support, to the Board of Directors for their guidance, and to the entire team at Himalayan Everest Insurance for their dedication and hard work.

With strong foundations in place and a clear strategic direction, I am confident that Himalayan Everest Insurance is well positioned to navigate challenges, seize opportunities, and create enduring value for all stakeholders.

Thank you.

MAHENDRA KRISHNA SHRESTHA
Chairman

CEO's Perspective

Dear Esteemed Shareholders,

It is my privilege to address you as we reflect on our performance and progress for the financial year 2081/82. This year has been one of focus, learning, and purposeful advancement – all underpinned by a clear and aligned vision for the future of our Company.

The year under review was shaped by a combination of external challenges and a deliberate internal reflection. We chose not to merely react, but to pause, evaluate and take measured steps towards long term transformation. During this period, we have deepened our commitment to our vision, mission and core values and have been making conscious and consistent efforts to ensure that our decision-making processes, at every level of the organization are aligned and guided by these principles.

With the collective efforts of our 531 dedicated team members, the Company recorded a Gross Premium Income of Rs. 428 crores during the year, crossing the Rs. 400 crore milestone for the first time in our history. This achievement represents a significant step forward in our growth journey. While the non-life insurance industry grew at approximately 8% during the year, we achieved a growth rate of 13%, further strengthening our competitive position in the market. Such progress is never the result of individual effort alone; it is driven by strong collaboration, shared accountability, and a deep sense of ownership across the organization. To ensure sustainable and balanced growth, we continue to advance our visit across all provinces. Our provincial leadership teams now play a critical role in translating corporate strategy into effective local execution - strengthening customer relationships, responding to regional market dynamics, and ensuring consistent service standards nationwide. Their leadership serves as a vital bridge between our long - term vision and on the ground execution, reinforcing the Company's national level strength.

Operational transformation has been a defining theme of the year. Throughout the year,

we undertook a deliberate review of our core processes, key performance metrics, turnaround times, and organizational practices. Our focus was on change – not for its own sake - but to build a more disciplined, efficient, and consistently high standard of service delivery. Equally important, this process required us to challenge long-held assumptions about how we operate - questioning established ways of working, reassessing what truly adds value, and being willing to rethink processes that no longer serve our strategic objectives.

All these efforts have provided us with a deeper understanding of our business and reinforced our confidence in the strategic direction we have chosen to pursue. Through rigorous data integration and disciplined analysis of customer behavior, claims patterns, and regional dynamics, we are steadily transitioning from intuition-led decision-making to insight-driven strategies.

While the year delivered several positive outcomes, it was also marked by certain external headwinds. In particular, the sustained downward trend in interest rates in Nepal continued to impact our bottom line. As a result, our average investment return declined from 6.8% in the previous year to 4.0% during the year under review. We acknowledge this economic trend and have already implemented a strategy to mitigate its impact through prudent asset allocation and enhanced investment governance. We also established focused teams to monitor portfolio profitability and revive underperforming portfolios, while reinforcing underwriting discipline. Collectively, these initiatives have strengthened our enterprise-wide risk management practices, fully aligned with regulatory expectations and global best practices. Guided by our risk team, we have made

significant progress in our Own Risk and Solvency Assessment (ORSA) initiatives, further strengthening the Company's overall risk resilience framework.

Notably, Himalayan Everest Insurance Limited demonstrated strong claims management capability during a major flood event involving total claims of approximately NPR 60 Crore, of which NPR 46 Crore was settled reflecting its financial strength and commitment to policyholders.

Our long-term vision is centered on building a resilient, well-capitalized, and trusted insurance institution with a strong nationwide presence. Despite persistent challenges in the investment environment, the company sustained stable financial performance, driven by steady growth in gross written premium and uncompromising expense discipline. These outcomes clearly demonstrate our commitment to sustainable, long-term value creation over short-term gains. We have significantly strengthened internal supervision through enhanced structured portfolio reviews and the establishment of a dedicated portfolio analysis unit, providing deeper visibility into performance trends, risk concentrations, and emerging threats. This disciplined approach ensures that investment decisions consistently safeguard policyholder security while maximizing long-term shareholder value.

Our vision comes to life through our people, and as such, people and culture remain central to our transformation agenda. We are actively building a learning-oriented organization through the introduction of a structured Learning Management System (LMS), enabling continuous skill development, leadership growth, and technical upskilling. At the same time, enhanced internal communication, constant communication of our vision and knowledge-sharing platforms are

strengthening alignment across the organization.

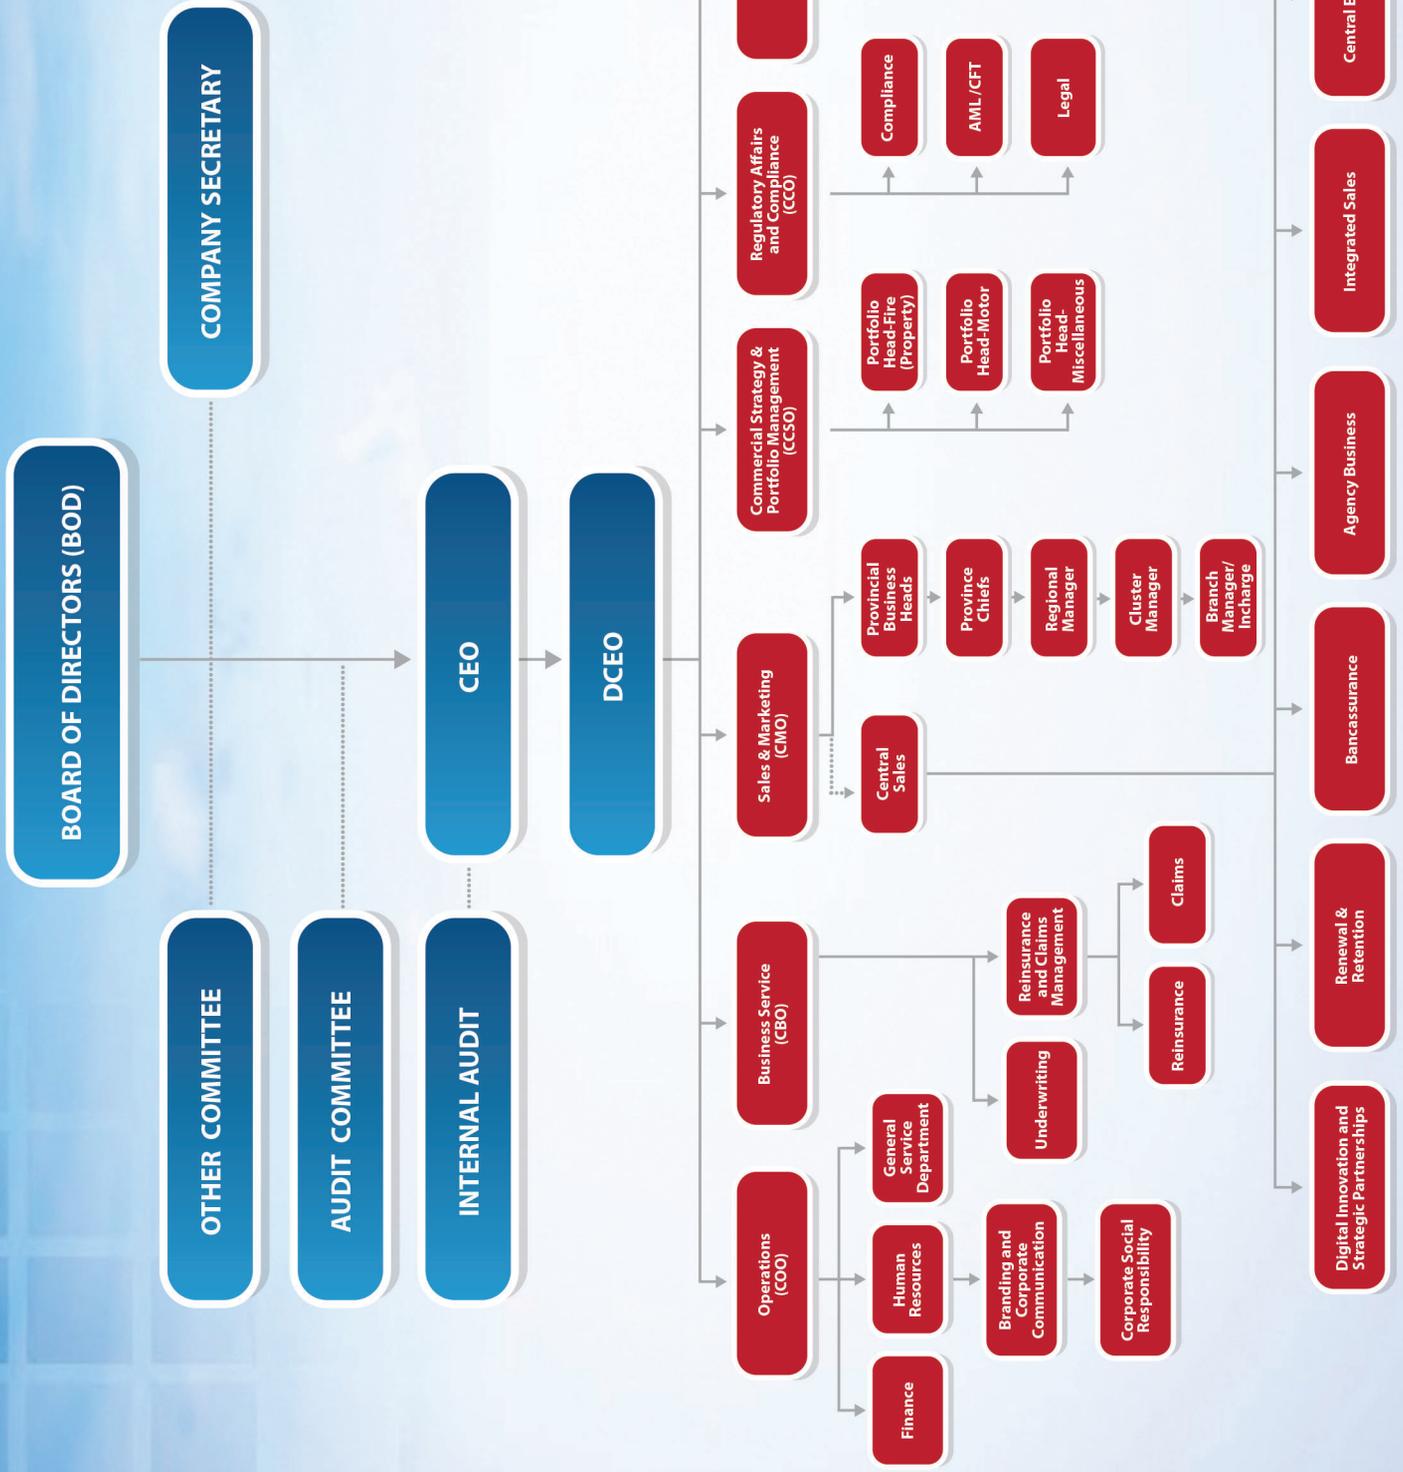

Beyond operational and financial outcomes, we remained firmly committed to environmental, social, and governance (ESG) principles. Through our corporate social responsibility initiatives, we actively contributed to society by organizing blood donation program, health check-up programs, insurance literacy program and supporting the education of visually impaired students. On the environmental front, we advanced our ESG agenda by introducing a plastic-free initiative at our head office, reinforcing our commitment to sustainable and responsible business practices.

Looking ahead, we remain confident in our direction. While economic and market uncertainties persist, Himalayan Everest Insurance is firmly positioned on the pillars of sound governance, operational excellence, people development, prudent investment management, and customer trust. We will continue to execute our strategy with discipline and purpose, creating sustainable value for all stakeholders.

In closing, I would like to express my sincere gratitude to our shareholders for their continued confidence, to our Board of Directors for their guidance ensuring disciplined execution of our strategy and to our employees across all provinces for their dedication and professionalism. Together, we will continue to build a stronger, more resilient, and future-ready Himalayan Everest Insurance.

Thank you.

CORPORATE GOVERNANCE

Corporate governance at HEI is represented by the system of rules, practices, and processes by which the company is directed and controlled. It involves balancing the interests of the company's stakeholders, such as shareholders, management, customers, suppliers, financiers, government, and the community. The primary goal of corporate governance is to ensure the long-term success of the company while considering the interests of all stakeholders.

Board of Directors

The board is responsible for overseeing the company's management and representing the interests of shareholders. The board's responsibilities include strategic decision-making, risk management, and ensuring that the company operates ethically.

Effective corporate governance is crucial for the sustainability and success of a company. It helps build trust with investors, customers, employees, and the broader community, contributing to long-term value creation.

Corporate Governance Framework

The corporate governance framework outlines the structure, processes, and rules that govern how HEI operates and is controlled. It provides a set of guidelines and principles to ensure that the company's management and decision-making processes are aligned with the interests of its stakeholders.

1. Board of Directors

The Board of Directors (BOD) is a crucial component of a company's corporate governance structure. The board is responsible for overseeing the management of the company and representing the interests of its shareholders. Board of Directors of Himalayan Everest Insurance Limited comprises of the following:

Particular	Position
Mr. Mahendra Krishna Shrestha	Chairman
Mr. Vijit Krishna Shrestha	Director
Mr. Ajaya Ratna Sthapit	Director
Mr. Hem Raj Thapa	Director
Mrs. Avilasha Panth Sharma	Director
Mr. Bijay Kumar Pant	Independent Director

Board Meeting

The agenda is prepared by the company secretary in collaboration with the chairperson and executive team. The agenda outlines the topics to be discussed and any supporting materials to be distributed to directors in advance.

Directors are notified of the meeting well in advance, usually with the distribution of the agenda and relevant documents.

The BOD usually meets at least once a month to discuss and approve the claim above the delegated limit, review the company's monthly and quarterly performance and financial results, consider business strategies, review internal control, compliance related matters.

The BOD sets annual performance objectives and strategies to monitor the actions and results of the management to ensure effective risk management and governance practices

Number of BOD Meetings

The following table shows the details of the Board of Directors meetings taking place during the fiscal year 2081/82.

Meeting Allowance to Directors

The Committee Members are provided with the meeting fees for attending meetings. The meeting fee of NRs 10,000 inclusive of Tax Deducted at Source (TDS) is being paid to the coordinator of the committee.

2. Insurer’s Business Model

HEI emerged through the merger of former Himalayan General Insurance Company Limited (HGI) and Everest Insurance Limited (EIC) on 1st Shrawan 2079 (17 July 2022). HGI was operating for 29 years and EIC was in operation for 28 years prior to the merger. Within three years, as the merged company, HEI has realized synergies through expanded distribution and deeper market penetration leading to increase in business volume. HEI has emerged as a strong player in Nepal’s non-life insurance sector, ranking fourth in terms of gross written premium and total equity and third in terms of profitability.

HEI is a conventional non-life insurer in Nepal with the ambition of becoming one of the top three non-life insurers in the industry by fiscal year 2027-28. The company’s business model is anchored on 5 strategic objectives, as shown in the graph below:

Target Customer

At HEI, we live by the principle of Customer First, because “Your Security, Our Concern”. We serve a diverse customer base of individuals, families, SMEs, corporates, government entities, and NGOs/INGOs by delivering solutions tailored to their unique needs. Every product and service is built to ensure trust, simplicity, and accessibility.

- Cash Value Cancellations

Product offering

While our core strengths lie in innovative and affordable insurance products and fair and prompt claims service with transparency, we also recognize the importance of sustainability and ESG principles and are working towards their integration into our product offerings as well.

Distribution

Products are distributed through HEI’s customer portal, agents, branches across provinces. HEI partners with banks, fintech, corporate houses, and other collaborators to expand reach and strengthen capabilities.

Revenue, investment and cost

Currently, our revenue is generated significantly from insurance premiums, complemented by reinsurance commissions. While investment income already forms a part of our revenue stream, we are intentionally seeking to enhance its active contribution.

The investment portfolio is largely conservative with heavy allocation to fixed deposits and is intended to be diversified into targeted portfolios by increasing exposure to listed and unlisted equity investments for growth.

The cost structure is driven by claims and reinsurance, along with investments in people, technology, and network expansion.

Operations

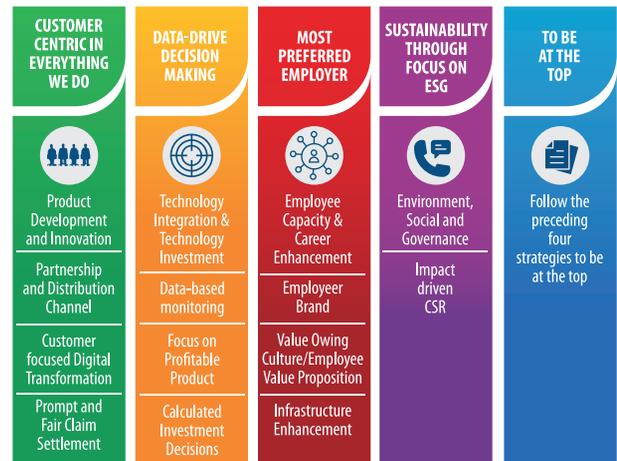

Core activities of HEI are underwriting risks, claims management, reinsurance, investments and continuous product innovation, all of which is intended to be operationally effective through data-driven decisions and efficient through process-driven automation. These are supported by key resources such as a skilled human resources, strong capital base, digital infrastructure, and brand reputation.

Employees

The internal organizational structure reflects a mix of professionals and newer entrants from diversified industries. While this supports balance and continuity, it also requires consistent cultural alignment to embrace innovation and regulatory transformation. We aim to foster a more motivated workforce and prioritize employee development. HEI is committed to consistent employer quality enhancement and building trust.

The 5 strategic objectives are supported by various strategic initiatives as shown in the table below:

STRATEGIC OBJECTIVES
FROM FY 2081-82 TO 2084-85

HIMALAYAN EVEREST INSURANCE LIMITED

Through this integrated model, HEI is positioning itself as a customer-focused, digitally enabled, and socially responsible insurer laying the foundation for sustainable growth and market leadership in Nepal’s non-life insurance sector. ORSA plays a critical role in ensuring that our capital and risk profile remain aligned with these strategic goals and future challenges.

Insurer’s Resources, Usages, Sustainability and Value Creation:

Key Resources and Utilization

Himalayan Everest Insurance Limited leverages a balanced combination of human, financial, technological, and intangible resources to deliver reliable insurance solutions, manage risks prudently, and ensure long-term financial stability. The effective deployment of these resources enables the Company to meet policyholder obligations, comply with regulatory requirements, and support sustainable business growth.

The key resources of the Company are outlined below:

1. Human Capital and Knowledge Resources

Human capital is a critical driver of Himalayan Everest Insurance Limited’s operational effectiveness and service quality. The Company employs competent professionals across core functional areas including underwriting, claims management, reinsurance, finance, risk management, information technology, compliance, and customer support. These professionals play a vital

role in evaluating risks, pricing insurance products, managing claims efficiently, and maintaining customer confidence.

The Company also benefits from specialized expertise available through external stakeholders such as insurance agents, brokers, loss surveyors, engineers, actuaries, and legal advisors. Their professional judgment and technical knowledge enhance underwriting discipline, claims accuracy, and risk mitigation practices.

Knowledge-based resources—such as underwriting manuals, risk evaluation frameworks, claims handling procedures, actuarial assumptions, internal policies, and accumulated market experience—form an important intellectual asset. These resources support consistency in decision-making, improve operational controls, and contribute to competitive positioning.

Human and knowledge resources are primarily utilized in:

- Marketing and distribution of insurance products
- Risk evaluation, underwriting, and pricing
- Claims assessment, settlement, and recovery
- Reinsurance placement and risk retention management
- Financial planning, accounting, and reporting
- Regulatory compliance and governance functions
- Customer service and relationship management
- Strategic planning and organizational development

2. Financial Resources

Sound financial resources are essential to the Company's ability to underwrite risks, honor claims, and maintain solvency. Himalayan Everest Insurance Limited's financial resources comprise shareholders' equity, premium income from various lines of non-life insurance, investment earnings, accumulated reserves, and structured reinsurance arrangements.

Premium income represents the primary operating revenue, while investment of funds in approved financial instruments supports income stability and capital growth. Retained earnings and statutory reserves strengthen the Company's financial position and enhance its capacity to absorb losses and expand underwriting operations.

Reinsurance programs are an integral part of financial resource management, enabling the Company to transfer part of its risk exposure, protect against large or catastrophic losses, and optimize capital utilization. Adequate technical and statutory reserves are maintained in line with regulatory directives

to meet future claims obligations and unforeseen contingencies.

Financial resources are mainly applied towards:

- Payment of insurance claims and benefits
- Underwriting, Reinsurance and risk absorption
- Operational and administrative expenditures
- Compliance with regulatory and solvency requirements
- Investment and business expansion initiatives
- Technology enhancement and digital innovation
- Training and development of employees

3. Physical, Technological, and Digital Infrastructure

Himalayan Everest Insurance Limited operates through an established physical and digital infrastructure designed to support efficient service delivery and internal operations. The Company maintains branch offices and service points across Nepal, ensuring accessibility of insurance products and services to a broad customer base.

The Company has implemented integrated core insurance systems covering policy administration, underwriting, claims processing, finance, and management reporting. Digital platforms, including web-based portals and customer-facing applications, facilitate policy issuance, premium payments, and claims tracking, enhancing convenience and transparency.

Continuous investment in information technology and process automation has contributed to improved turnaround time, reduced operational costs, better data management, and enhanced service quality.

These resources support:

- Policy servicing and customer interaction
- Claims processing and settlement
- Internal coordination and operational control
- Data management, security, and reporting

4. Brand, Relationships and Market presence

The Company's brand and market standing represent important intangible resources. Built over time through consistent service delivery, prudent financial management, timely claim servicing, and regulatory compliance, the Himalayan Everest Insurance Limited brand strengthens customer trust and stakeholder confidence. Long-standing relationships with customers, reinsurers, intermediaries, and business partners further support business continuity and growth.

Sustainable Competitive Advantage

Himalayan Everest Insurance Limited has established a sustainable competitive advantage through disciplined risk management, customer-focused service delivery, prudent governance, and progressive adoption of technology. The Company’s long-term success is underpinned by the following core strengths:

• Risk Management Expertise

Risk management remains a cornerstone of Himalayan Everest Insurance’s competitive positioning. The Company follows a strong underwriting discipline supported by clearly defined risk appetite, robust policy guidelines, and continuous portfolio monitoring.

Effective portfolio diversification across lines of business and geographical segments helps mitigate concentration risk and enhance earnings stability. The Company maintains well-structured reinsurance arrangements with reputed domestic and international reinsurers, ensuring adequate protection against catastrophic and large losses while safeguarding solvency and capital adequacy. This comprehensive risk management framework enables the Company to withstand adverse loss events and maintain financial resilience in a volatile risk environment.

• Innovation and Technology

Himalayan Everest Insurance continues to strengthen its operational efficiency through the progressive adoption of digital solutions and automation. Technology-enabled underwriting and claims processing have streamlined workflows, reduced turnaround time, and enhanced accuracy in decision-making.

The use of self-developed in-house digital platforms for policy administration, customer servicing, and internal reporting has improved transparency and data availability across the organization. Data-driven insights support better risk assessment, pricing, and claims management, enabling the Company to respond effectively to evolving market dynamics and customer expectations.

• Customer-Centric Approach

The Company places strong emphasis on understanding customer needs and delivering tailored insurance solutions for both individual and corporate clients. Focus on service quality, accessibility, and prompt claims settlement has strengthened customer trust and long-term relationships.

Multi-channel customer engagement, including branch networks and digital touchpoints, ensures ease of

access and consistent service delivery. By prioritizing fairness, transparency, and responsiveness throughout the policy lifecycle, Himalayan Everest Insurance enhances customer satisfaction and retention, which remains a key driver of sustainable growth.

• Regulatory Compliance and Governance

Himalayan Everest Insurance upholds high standards of regulatory compliance, corporate governance, and ethical business conduct. The Company operates in full alignment with the directives and guidelines issued by the Nepal Insurance Authority and other relevant regulators.

Strong governance structures, effective board oversight, and well-defined internal control systems ensure accountability, risk oversight, and transparency in decision-making. This commitment to sound governance practices not only protects stakeholder interests but also reinforces the Company’s credibility, reputation, and long-term sustainability.

Value Creation

Himalayan Everest Insurance Limited creates sustainable value for its stakeholders by fulfilling its core purpose of risk protection, financial stability, responsible governance, and socio-economic contribution. The Company’s value creation approach balances financial performance with long-term stakeholder trust and national development.

**POLICYHOLDERS:

MORE THAN 200 MILLION TAX PAID**

• Policyholders

Policyholders are the primary stakeholders of the Company. Himalayan Everest Insurance creates value for policyholders by providing comprehensive risk coverage, financial security, and peace of mind.

During the year, the Company paid **gross claims amounting to NPR 1.958 billion**, enabling individuals, businesses, and institutions to recover from insured losses in a timely and transparent manner. Efficient claims settlement, fair underwriting practices, and customer-focused service delivery ensure that policyholders are protected against unforeseen financial burdens and can continue their personal and business activities with confidence.

• Investors and Shareholders

The Company creates value for shareholders through sustainable profitability, prudent capital management, and consistent dividend distribution. During the year, dividends amounting to **NPR 218 million** were distributed to shareholders. The Company proposed dividend of **NPR 200 million** for the current year, reflecting the Company's strong financial performance and commitment to rewarding investor confidence.

By maintaining sound underwriting discipline, effective risk management, and stable earnings, Himalayan Everest Insurance supports capital preservation and long-term value appreciation for its shareholders.

• Employees

Employees are central to the Company's operational excellence and long-term success. Himalayan Everest Insurance invested approximately **NPR 420 million** in employee-related expenses, including **NPR 5.64 million dedicated to training and capacity-building programs**.

As of the year-end, the Company employed **531 employees**, fostering a stable and skilled workforce. Continuous professional development, paid leave benefits, and a supportive work environment enhance employee engagement, productivity, and retention. By investing in its people, the Company ensures service quality, institutional knowledge, and sustainable organizational growth.

• Community and Society

The Company actively contributes to community development and social well-being through structured Corporate Social Responsibility (CSR) initiatives. During the year, **NPR 65.57 million** was allocated toward community-focused CSR programs.

These initiatives support social inclusion, awareness, health, education, and environmental responsibility, strengthening the Company's relationship with communities and reinforcing its role as a responsible corporate citizen.

• Regulator

Himalayan Everest Insurance creates value for regulatory bodies through full compliance with regulatory frameworks, transparent reporting, and ethical business conduct. During the year, the Company paid **gross regulatory service fees amounting to NPR 32 million** in accordance with the provisions of the Insurance Act and directives of the Nepal Insurance Authority.

Such compliance contributes to market discipline, policyholder protection, and overall stability of the insurance sector.

• Related Stakeholders – Reinsurers

Reinsurers are key strategic partners in the Company's risk management framework. During the year, Himalayan Everest Insurance shared risks amounting to **NPR 2.53 billion** with domestic and international reinsurers. This risk-sharing mechanism enhances underwriting capacity, protects capital against large and catastrophic losses, and strengthens confidence among reinsurers through disciplined portfolio management and timely settlement practices.

• Nation and Economy

Himalayan Everest Insurance plays a vital role in Nepal's economic development by promoting risk mitigation, employment generation, and financial stability. The Company contributes to the national economy through **direct and indirect tax payments**, creation of employment opportunities for **over 500 employees**, and risk-sharing support for large infrastructure and commercial projects.

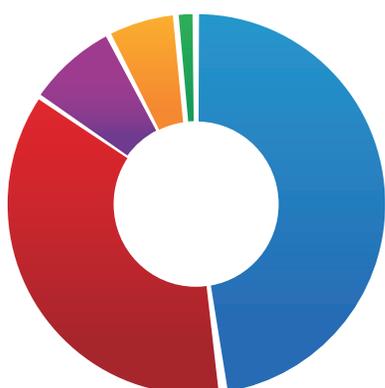

By providing insurance coverage to businesses and institutions, the Company enables continuity of operations, supports entrepreneurship, and indirectly benefits numerous business houses and economic sectors across the country.

Major Sources of Capital

Himalayan Everest Insurance Limited (HEI) maintains a well-structured capital framework and strategically utilizes its resources to support underwriting capacity, absorb unexpected losses, and ensure compliance with regulatory solvency requirements. These efforts enable HEI to sustain growth, manage risk prudently, and create long-term value for policyholders, shareholders, and other stakeholders.

HEI's capital base is structured to support underwriting capacity, absorb unforeseen losses, and meet regulatory solvency requirements. The primary sources of capital are:

Equity Capital

	<i>in millions</i>
Share Capital	2500.16
Special Reserves	1913.19
Catastrophe Reserves	82.20
Retained Earnings	301.56
Other Equity	414.27
Total	5211.37

Equity forms the core financial foundation of the Company. As of Ashad End, 2082 HEI's equity consists of:

- **Paid-up Capital:** NPR 2.50 billion
- **Special Reserve:** NPR 1.91 billion (50% of the net profit transferred till the special reserve reaches 2.5 billion)
- **Catastrophic Reserve:** NPR 82.195 million (10% of remaining profit after apportionment to Special reserve transferred)

Equity forms the core financial foundation of the Company. As of Ashad End, 2082 HEI's equity consists of:

- **Paid-up Capital:** NPR 2.50 billion
- **Special Reserve:** NPR 1.91 billion (50% of the net profit transferred till the special reserve reaches 2.5 billion)
- **Catastrophic Reserve:** NPR 82.195 million (10% of remaining profit after apportionment to Special reserve transferred)
- **Retained Earnings:** NPR 301.56 million
- **Other Equity:** NPR 414 million (including CSR Reserves, Revaluation Reserve, Fair Value Reserves, Actuarial Reserves, Deferred Tax Reserves and Training Reserve)

This strong equity base ensures risk-bearing capacity, supports solvency margins, and enables the Company to pursue sustainable business growth.

Premium Income

Premiums collected from policyholders provide the principal operating funds. These funds are utilized to settle claims, maintain reserves, cover operational costs, and generate investment income, thereby supporting both financial stability and business expansion.

Investment Income

HEI invests in a diversified portfolio including debentures, equity instruments, and mutual fund schemes, with a total investment size of NPR 5.242 billion. Investment returns contribute to profitability, reinforce solvency, and enhance the Company's ability to fund future growth initiatives.

Reinsurance Recoveries

Through reinsurance arrangements, HEI transfers part of its risk exposure to reinsurers. This mitigates the impact

of large or catastrophic claims, improves capital efficiency, and complements reserve management to maintain a resilient financial position.

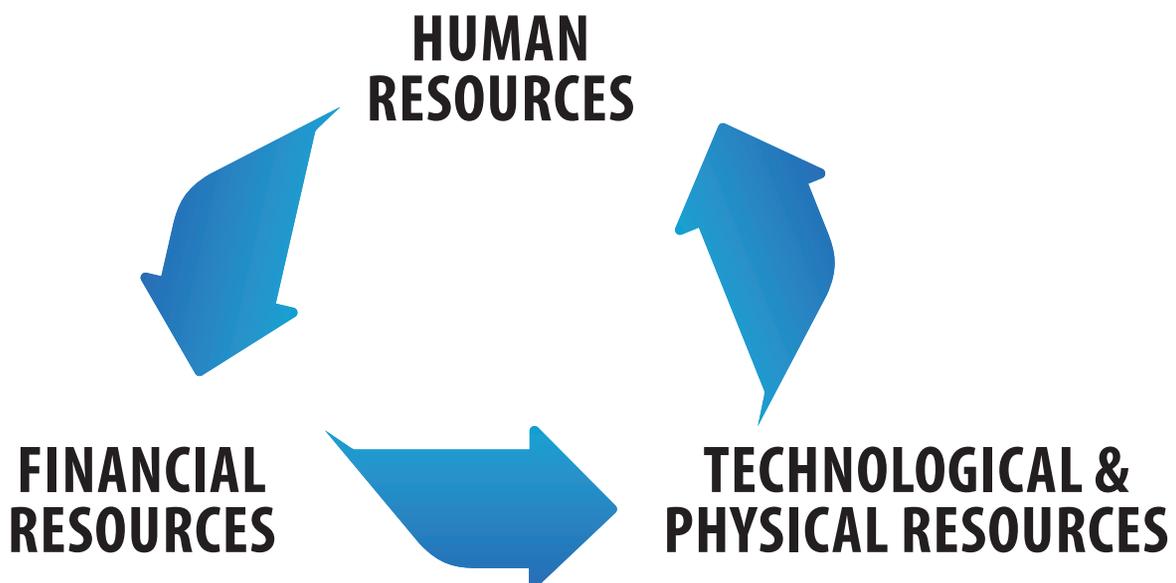

Interconnectedness of Capital Sources

The capital sources of Himalayan Everest Insurance Limited—paid-up equity, reserves, retained earnings, other equity, and reinsurance—are inherently interconnected, collectively supporting the Company’s financial stability and growth. Paid-up capital forms the foundational layer, ensuring regulatory compliance and absorbing initial losses. Reserves and retained earnings act as buffers for future claims, reducing reliance on external funding and supporting sustainable operations. Reinsurance complements these internal capital sources by transferring portions of risk to reinsurers, mitigating the impact of large or catastrophic claims and allowing internal capital to be deployed more efficiently. Investment income further enhances available capital, providing additional funds for growth and operational needs. The interplay among these sources enables HEI to maintain solvency, optimize resource allocation, and make strategic decisions on dividend distribution, investment, and underwriting, thereby strengthening the overall resilience of the Company’s capital framework.

Resource Utilization and Relationship with Capital Plan

HEI carefully manages and allocates its human, financial, technological, and physical resources to support operational excellence, risk management, and sustainable growth.

(Diagram on resources – Pictorial depiction)

Human Resources

Human capital is central to the Company’s performance. Key initiatives include:

- Retaining and hiring skilled professionals across underwriting, claims, risk assessment, actuarial, finance and customer service functions.
- Continuous training and development programs to ensure employees stay current with regulatory requirements, industry trends, and technology advancements.
- Promoting an inclusive and supportive work environment to foster collaboration, creativity, and productivity.

Financial Resources

HEI’s financial management focuses on sustainable growth and risk mitigation:

- Strategic allocation of premium income, reserves, investment returns, and reinsurance recoveries to support underwriting, claims settlement, operations, and long-term investments.
- Diversifying investments to optimize returns while maintaining compliance with regulatory guidelines.
- Strengthening financial risk management to protect capital and maintain solvency.

Technological and Physical Resources

Investment in technology and infrastructure enhances operational efficiency and customer experience:

- Expanding and upgrading branch offices and corporate facilities to improve accessibility and service delivery
- Implementing digital platforms for policy administration, claims processing, and customer engagement.
- Enhancing cybersecurity and data analytics capabilities to protect information and support data-driven decision-making.

Product Development and Innovation

HEI is committed to designing innovative insurance solutions to meet evolving market needs:

- Developing tailored products for individual, corporate, and specialized sector clients.
- Introducing products addressing environmental and climate-related risks, and promoting sustainability.
- Offering innovative health and wellness insurance solutions accessible to both urban and rural populations.

At Himalayan Everest Insurance Limited, the relationship between resource utilization, strategic initiatives, and the capital plan is guided by a framework of deliberate alignment. The Company ensures that capital allocations are targeted toward initiatives that advance long-term objectives and support sustainable growth. This alignment is maintained through:

- **Integrating resource deployment with strategic programs** to create coherence and maximize the impact of capital investments.
- **Defining measurable performance indicators** to assess the effectiveness of capital deployment and its contribution to organizational goals.
- **Regularly reviewing and adjusting capital projects and resource allocation** to ensure that initiatives remain on track and aligned with evolving business priorities.

Enterprise wise Function:

Himalayan Everest Insurance Limited operates through a set of specialized departments, each with clearly defined responsibilities to support business operations, risk management, innovation, and stakeholder satisfaction. Each department contributes uniquely to the Company's enterprise objectives:

Key Performance Indicators

S. No	Particulars	Indicators	FY 2081/82	FY 2080/81	Growth (%)
1.	No of Policies Issued	Nos.	280,429	250,126	12.12%
2.	Gross Premium Income	Rs"000"	4,286,327	3,761,995	13.94%
3.	Net Premium Income	Rs"000"	1,756,086	1,406,462	24.86%
4.	Reinsurance Commission Income	Rs"000"	490,689	417,008	17.67%
5.	No of Claims Paid	Nos.	11,900	9,190	29.49%
6.	Gross Claims Paid	Rs"000"	1,958,921	1,474,412	32.86%
7.	Net Claims Paid	Rs"000"	1,075,365	717,750	49.82%
8.	Outstanding Claim	Nos.	8,444	7,898	6.91%
9.	Outstanding Claim (Gross)	Rs"000"	1,894,440	1,442,534	31.33%
10.	Outstanding Claim (Net)	Rs"000"	328,891	265,010	24.10%
11.	Employee Expenses	Rs"000"	354,377	336,229	5.40%
12.	Other Expenses	Rs"000"	296,403	221,749	33.67%
13.	Income from Investment	Rs"000"	219,224	344,043	-36.28%
14.	Net Profit (as per NFRS)	Rs"000"	455,881	502,464	-9.27%

During FY 2081/82, Himalayan Everest Insurance achieved significant growth across key operational and financial metrics. The company issued 280,429 policies, reflecting a 12.12% increase over the previous year, while gross premium income rose to Rs. 4,286,327 thousand, representing a 13.94% growth. Net premium income recorded an even higher growth of 24.86%, reaching Rs. 1,756,086 thousand, supported by an increase in reinsurance commission income of 17.67%. Claims activity saw a corresponding rise, with 11,900 claims paid, a 29.49% increase, and gross claims paid totaling Rs. 1,958,921 thousand, up 32.86%. Net claims paid grew significantly by 49.82%, reflecting higher risk exposure and settlement of major claims. Outstanding claims, both in number and value, increased moderately, indicating ongoing claims management. Operating expenses, including employee and other expenses, rose by 5.40% and 33.67%, respectively, reflecting business expansion and operational investments. Investment income declined by 36.28%, partly impacting profitability, with net profit as per NFRS standing at Rs. 455,881 thousand, a slight decrease of 9.27% compared to the prior year. Overall, the KPIs demonstrate strong business growth, enhanced underwriting activity, and effective claims management, balanced with prudent expense and risk oversight.

Strategic Plan & Development

Himalayan Everest Insurance Limited's strategic roadmap is anchored in Vision 2030, which articulates the Company's commitment to sustainable and profitable growth, digital transformation, robust governance, and a consistently customer-centric operating model. This long-term vision provides a clear strategic direction while ensuring resilience in an increasingly competitive and regulated insurance landscape.

To translate Vision 2030 into actionable outcomes, the Company has adopted a phased strategic approach, structured across short-, medium-, and long-term horizons. This approach enables Himalayan Everest Insurance Limited to systematically strengthen its market position, optimize operational capabilities, and proactively respond to evolving industry dynamics, regulatory developments, and stakeholder expectations.

Each phase of the roadmap is supported by defined strategic priorities, measurable performance indicators, and periodic review mechanisms to ensure alignment with the Company's overall risk appetite, capital position, and long-term value creation objectives.

Short-Term Strategic Priorities

In the near term, the Company focuses on strengthening core operations and service quality by:

1. Market Expansion and Penetration

- Expand market reach through targeted, data-driven marketing initiatives to identify high-potential customer segments.
- Strengthen distribution channels, including branch networks, agency partners, and digital platforms, to increase accessibility and convenience.
- Focus on underserved segments, including SMEs, rural communities, and emerging urban markets, to improve insurance penetration.
- Leverage customer analytics to optimize product offerings and promotional campaigns for higher engagement and conversion rates.

2. Claims Management and Customer Confidence

- Ensure fair, transparent, and prompt claims settlement to enhance policyholder trust and satisfaction.
- Optimize claims operations by standardizing workflows and empowering branch and provincial offices with clearly defined authority.
- Implement technology solutions, including digital claims portals and automated processing, to reduce turnaround times and improve accuracy.
- Maintain consistent communication with customers regarding claim status to reinforce transparency and confidence.

3. Customer Service Excellence

- Improve service standards through focused training programs for all customer-facing staff.
- Refine internal processes and workflows to increase operational efficiency and responsiveness.
- Integrate technology-enabled solutions such as CRM systems, chatbots, and digital support platforms to

enhance customer experience.

- Regularly monitor and evaluate customer feedback to drive continuous improvement in service delivery.

4. Compliant and Transparent Operations

- Strengthen internal governance, risk management, and compliance frameworks in line with Insurance Board directives.
- Achieve full compliance with NFRS 17 and ORSA requirements within prescribed timelines.
- Develop and maintain standard operating procedures, policies, and action plans to ensure consistent regulatory adherence.
- Continuously monitor operational and financial risks to safeguard solvency, stakeholder interests, and long-term sustainability.

Medium-Term Strategic Priorities

1. Product Innovation and Diversification

- Introduce innovative and specialized insurance products to meet emerging risks, including cyber insurance, tailored health solutions, and other niche offerings.
- Develop green and ESG-focused insurance products that encourage sustainable behavior and align with corporate social responsibility objectives.
- Continuously review and optimize existing product portfolios to ensure competitiveness, profitability, and alignment with evolving customer needs.

2. Strategic Partnerships and Distribution Expansion

- Establish strategic collaborations with banks, fintech companies, mobile network providers, and other financial institutions to enhance distribution reach.
- Strengthen agency and intermediary networks, providing tools and incentives to improve sales performance and customer engagement.
- Explore partnerships for co-branded or bundled insurance offerings to tap into new customer segments.

3. Market Penetration in Underserved Areas

- Expand access to insurance in rural, semi-urban, and underserved regions through branch expansion, digital platforms, and alternative delivery models.
- Leverage mobile and online platforms to increase convenience and accessibility for customers with limited physical access to branches.
- Implement targeted awareness and education campaigns to drive insurance literacy and adoption in untapped markets.

4. Customer Retention and Market Share Growth

- Enhance customer retention programs, loyalty initiatives, and personalized services to strengthen long-term relationships.
- Use data-driven insights to optimize marketing strategies, improve cross-selling, and increase overall market presence.
- Monitor market trends and competitor activity to identify opportunities for growth and differentiation.

5. Financial Optimization and Risk Management

- Optimize pricing strategies and underwriting frameworks to maximize profitability while maintaining competitive products.
- Strengthen reinsurance arrangements to improve risk-sharing, safeguard solvency, and maintain financial stability.
- Continuously assess investment strategies and capital allocation to ensure sustainable returns aligned with the Company's risk appetite.

Long-Term Strategic Priorities

Aligned with Vision 2030, Himalayan Everest Insurance Limited aims to become a market leader in the non-life

insurance sector while delivering sustainable growth, operational excellence, and superior customer experience. The Company's long-term strategic priorities include:

1. Market Leadership and Brand Strengthening

- Achieve a leading position in the non-life insurance market through excellence in underwriting, claims management, customer service, and corporate governance.
- Strengthen brand equity and trust by consistently delivering high-quality services, ethical practices, and innovative insurance solutions.
- Enhance customer loyalty through personalized services, retention programs, and impactful CSR initiatives.

2. Advanced Digital Transformation

- Build end-to-end digital capabilities for online policy issuance, servicing, and claims management.
- Fully integrate automation, artificial intelligence, and data analytics to streamline operations, improve efficiency, and deliver a superior customer experience.
- Develop predictive tools and digital platforms to enhance underwriting accuracy, claims processing, and risk assessment.

3. Risk Management and Organizational Resilience

- Strengthen enterprise risk management frameworks to manage emerging risks, including cyber threats, climate-related exposures, and operational risks.
- Implement robust mitigation strategies to ensure financial stability and operational continuity during economic fluctuations or catastrophic events.
- Continuously enhance governance, compliance, and solvency management practices to safeguard stakeholders' interests.

4. Product and Market Innovation

- Lead the industry in insurance product innovation by developing solutions that address evolving customer needs, emerging risks, and sustainable development goals.
- Explore opportunities to expand services to new customer segments, including corporate, SME, and rural markets, and eventually international or diaspora markets.
- Establish research and innovation capabilities to gain insights into customer behavior, emerging risks, and market trends.

5. Investment and Financial Growth

- Diversify the investment portfolio to target high-growth sectors such as infrastructure, renewable energy, and technology.
- Optimize capital allocation strategies to maximize returns while maintaining solvency and aligning with the Company's long-term risk appetite.
- Leverage financial strength to support sustainable growth, product expansion, and strategic partnerships.

Allocation of Resources to Strategic Priorities

1. Human Resources

Strategic Focus	Resource Allocation	Purpose / Outcome
Digital Transformation	Recruit IT specialists, data analysts, and digital product managers	Enhance digital platforms, automation, and analytics capabilities
Claims Management & Customer Service	Strengthen claims and customer service teams; provide ongoing training	Reduce turnaround times, improve service quality, and enhance customer trust
Risk Management & Compliance	Recruit risk officers, actuarial staff, and compliance specialists	Strengthen enterprise risk framework, solvency monitoring, and regulatory compliance
Product Development & Market Expansion	Employ product managers, business development officers, and market researchers	Design new insurance products, expand market reach, and strengthen partnerships

Leadership & Organizational Development	Conduct leadership programs, professional development, and succession planning	Build internal capabilities and future leadership pipeline
---	--	--

2. Financial Resources

Strategic Focus	Resource Allocation	Purpose / Outcome
Product Innovation & Market Expansion	Budget for new product development, market research, and promotional campaigns	Increase market share and insurance penetration
Digital Platforms & Automation	Allocate funds for IT infrastructure, core system upgrades, and digital tools	Support seamless online policy issuance, claims processing, and customer interaction
Reinsurance & Risk Financing	Capital allocation for optimal reinsurance arrangements	Protect solvency, optimize risk-sharing, and ensure financial stability
Investment & Capital Management	Strategic investments in high-growth sectors (infrastructure, renewable energy, technology)	Enhance profitability, diversify portfolio, and support long-term growth
CSR & Brand Building	Funding for CSR initiatives and brand campaigns	Strengthen brand equity and customer loyalty

3. Technological Resources

Strategic Focus	Resource Allocation	Purpose / Outcome
Digital Transformation	Cloud platforms, mobile apps, AI-based systems, CRM, and analytics tools	Enable end-to-end digital operations and customer engagement
Claims Management	Automated claims processing systems, mobile inspection tools	Reduce settlement time, enhance transparency and accuracy
Risk Management	Enterprise risk management software, cybersecurity tools	Monitor and mitigate operational, financial, and cyber risks
Data & Analytics	Business intelligence platforms, predictive modeling tools	Support targeted marketing, underwriting decisions, and product innovation

4. Operational / Infrastructure Resources

Strategic Focus	Resource Allocation	Purpose / Outcome
Market Expansion	Branch offices in rural/semi-urban areas, digital kiosks	Increase accessibility and insurance penetration
Service Delivery & Customer Experience	Call centers, CRM systems, online support portals	Enhance service quality, responsiveness, and satisfaction
Product Development & Innovation	Research labs, innovation centers	Support continuous product development and market insights
Governance & Compliance	Policy documentation, SOP development, audit infrastructure	Strengthen operational governance and regulatory compliance

Strategy for Insurance Development, Insurance Products and Services:

1. Insurance Development Strategy

Himalayan Everest Insurance (HEI) aims to expand insurance penetration across Nepal by combining market-driven innovation with digital transformation and customer-centric outreach.

Key initiatives:

- **Branch Network Expansion:** Establish additional branches in underserved rural areas to improve accessibility and financial inclusion.

- **Digital Platforms:** Launch a user-friendly online portal and mobile app to enable policy purchase, premium payment, and claims submission without visiting a physical branch.
- **Microinsurance Solutions:** Provide affordable insurance plans targeting low-income populations, including farmers and daily wage workers.
- **Insurance Literacy Campaigns:** Conduct community programs, workshops, and school/college initiatives to educate the public on the value of life, health, and property insurance.
- **Strategic Partnerships:** Collaborate with banks, fintech platforms, and healthcare providers to expand distribution channels and offer integrated solutions.
- **Bancassurance & Fintech Integration:** Enable seamless distribution of insurance products through banks and digital payment platforms such as eSewa and Khalti.

2. Insurance Product Strategy

HEI develops diversified, market-aligned products to address customer needs, emerging risks, and sustainability considerations.

Key initiatives:

- **Market Research:** Continuously assess customer needs, industry trends, and global best practices to inform product design.
- **Tailored Policies:** Offer customizable coverage for motor, health, property, travel, and emerging risks, allowing clients to select specific benefits.
- **Data-Driven Pricing:** Use analytics for risk-based premium setting, including driver behavior for motor insurance and climate data for agricultural policies.
- **Sustainable Underwriting:** Align non-tariff insurance rates with local environmental conditions and historical performance.
- **Emerging Risks Coverage:** Introduce products for cyber risks, mental health, and other contemporary threats.
- **Green Insurance:** Promote environmentally friendly behavior with products such as electric vehicle insurance and green building coverage.
- **Inclusive Insurance:** Provide microinsurance and disaster protection solutions to underserved communities and high-risk areas

3. Insurance Service Strategy

HEI prioritizes seamless service delivery, operational efficiency, and high customer satisfaction through technology adoption and staff development.

Key initiatives:

- **AI-Powered Customer Support:** Deploy chatbots and virtual assistants to handle queries and guide clients through claims processes.
- **Automated Policy Issuance:** Allow instant issuance of policies via mobile or web platforms
- **Simplified Claims Procedures:** Streamline documentation and approvals using digital channels
- **Rapid Claims Settlement:** Process minor claims (e.g., small auto repairs) within 24 hours using automated workflows.
- **Mobile App & 24/7 Support:** Enable round-the-clock management of policies, claims, and premium payments
- **Training & Development:** Continuous staff training and encouragement for professional qualifications (e.g., Fellowship in Insurance).
- **CRM & Data Analytics:** Utilize CRM systems to manage client relationships, track preferences, and anticipate customer needs.

Sustainability Strategies and Objectives:

Himalayan Everest Insurance (HEI) places sustainability at the core of its long-term strategy, integrating Environmental, Social, and Governance (ESG) principles into all aspects of operations to ensure resilience, responsible growth, and stakeholder value creation.

1. Environmental Responsibility

HEI is committed to minimizing environmental impact and promoting eco-friendly practices:

- Implement paperless operations and green office practices to reduce resource consumption.

- Adopt environmentally responsible processes in underwriting, claims, and investment operations.
- Develop and promote eco-friendly insurance products that encourage sustainable behavior.
- Explore opportunities to support clients and communities in adopting low-carbon and energy-efficient solutions

2. Social Commitment

HEI emphasizes financial inclusion, customer education, and employee well-being:

- Expand access to insurance services in underserved and rural communities.
- Conduct insurance literacy campaigns to improve awareness of financial protection and risk management.
- Prioritize employee health, safety, and professional development through training programs and continuous learning opportunities.
- Foster an inclusive and diverse workplace that encourages equal participation and empowerment.

3. Governance and Ethics

HEI ensures transparency, compliance, and robust risk management throughout its operations:

- Strengthen adherence to national regulations and evolving industry best practices.
- Implement ethical business practices across underwriting, investment, and claims processes.
- Enhance risk management frameworks to address emerging risks, including climate-related and cyber threats.
- Ensure accountability and integrity in reporting, governance, and stakeholder communications.

Overall objective to achieve the Integrated Outcome

By embedding ESG principles into its operations, HEI aims to:

- Achieve sustainable and responsible growth.
- Strengthen stakeholder trust and long-term value creation.
- Support environmental stewardship, social equity, and economic resilience.

Future Business Prospects:

The non-life insurance industry in Nepal continues to demonstrate strong long-term potential. While economic challenges, regulatory changes, and global disruptions such as the COVID-19 pandemic have influenced growth, the sector is steadily recovering. Notable, the Gen-Z movement in September, 2024 has further emphasized the importance of Insurance. Increasing awareness of risk management, infrastructure development, and the emergence of digital technologies provide new avenues for expansion. Himalayan Everest Insurance (HEI) is well-positioned to capitalize on these trends, leveraging innovation, operational excellence, and a customer-centric approach to secure sustainable growth.

1. Sustained Growth in Premiums

HEI expects a gradual but steady increase in premium collections over the coming years, driven by economic stabilization, expanding middle-class income, and heightened awareness of the importance of insurance. Targeted marketing, strategic product offerings, and an improved distribution network will further accelerate growth.

2. Product Innovation and Diversification

To meet evolving customer needs, HEI will continue to innovate and diversify its product portfolio. Key initiatives include:

- New Product Development: Introducing insurance solutions tailored to emerging risks in sectors such as healthcare, construction, hydropower, and automobiles.
- Customized Offerings: Creating specialized policies for niche markets, including rural, SME, and climate-related parametric risk coverage.
- Sustainability Integration: Embedding Environmental, Social, and Governance (ESG) principles into product design to address emerging social and environmental risks.

3. Digital Transformation

Digitalization remains a core pillar of HEI's growth strategy. Technology will enhance efficiency, reduce operational costs, and improve customer engagement. Planned initiatives include:

- Digital Platforms: Expanding web portals, mobile applications, and AI-driven tools for policy issuance, claims processing, and customer service.
- Data-Driven Insights: Leveraging data analytics to offer personalized products, streamline underwriting, and enhance risk management.
- Operational Efficiency: Automating key processes to improve turnaround times and minimize errors.

4. Customer-Centric Approach

HEI will strengthen its focus on building lasting customer relationships. By understanding customer preferences, offering tailored solutions, and improving service quality, the company aims to enhance satisfaction and loyalty.

Key measures include:

- Simplified claims procedures and prompt settlements.
- Value-added services, including risk advisory, wellness programs, and financial literacy initiatives.
- Loyalty programs and customized engagement campaigns.

5. Geographic Expansion and Accessibility

Expanding HEI's reach across Nepal is a priority, particularly in underserved and remote areas. The strategy includes:

- Establishing additional branch offices and leveraging mobile and digital platforms for broader coverage.
- Developing localized insurance products that cater to the unique risks and requirements of different communities.
- Collaborating with local partners to improve awareness and uptake of insurance services.

6. Strategic Partnerships and Alliances

HEI will actively pursue partnerships to enhance its product offerings, distribution, and service capabilities. Potential alliances include:

- Financial Institutions: Banks and microfinance institutions for bancassurance and cross-selling opportunities.
- Telecom and Technology Firms: Leveraging digital platforms to reach tech-savvy customers.
- International Insurers: Gaining access to global best practices, innovative products, and reinsurance solutions.

7. Regulatory Alignment and Support

HEI is committed to fully complying with regulatory guidelines while leveraging policy initiatives to strengthen business prospects. This includes:

- Adhering to Nepal Insurance Authority regulations, including digital insurance policies and solvency requirements.
- Supporting government programs that promote financial inclusion and insurance literacy.
- Utilizing incentives and tax benefits to enhance affordability and penetration of insurance products.

8. Emphasis on Awareness and Education

Increasing customer awareness about the benefits of insurance remains critical. HEI will continue to engage communities through:

- Insurance literacy campaigns and workshops targeting students, businesses, and underserved communities.
- Digital content and social media initiatives to educate customers about risk management and insurance benefits.
- Collaborations with NGOs, government agencies, and other stakeholders to build trust and promote informed decision-making.

Effect on External Environment:

The Company operates within a dynamic external environment shaped by economic conditions, regulatory reforms, technological advancements, and social trends. Factors such as inflation, interest rate movements, and government spending influence insurance demand and investment returns.

Regulatory developments, including Risk-Based Capital and enhanced solvency requirements, increase compliance costs but also strengthen sector resilience. Technological innovation continues to improve efficiency and service delivery, while introducing new risks such as cybersecurity threats, which the Company actively addresses through robust controls and risk management frameworks.

External Factor	Effect on HEI	Positive Impact	Negative Impact	Recent Example / Notes
Economic Conditions	Economic growth, inflation, and income levels affect insurance demand and affordability.	Robust economy and rising incomes increase demand for insurance.	Economic downturns and high inflation reduce disposable income, lowering insurance uptake.	Post-COVID-19 recovery and banking crises reduced growth in insurance demand
Interest Rates	Determine investment returns, impacting profitability.	Higher interest rates improve returns on fixed deposits.	Lower interest rates reduce investment income, affecting profits.	Regulatory provision requires ≥50% investment in fixed deposits.
Regulatory Framework	Regulations and compliance shape operations and costs.	Favorable policies, tax incentives, and simplified compliance encourage growth.	Increased reporting, accounting, or coverage obligations raise operational costs.	NIA Digital Insurance Guidelines 2024 enable online policy issuance.
Socio-Political Environment	Political stability, government policies, and governance quality affect investor confidence and operations.	Stable policies and financial inclusion initiatives support expansion, especially in rural areas.	Political instability, strikes, or frequent policy changes can disrupt operations and reduce trust.	Gen Z Movement (Sept 2024): Raised awareness, also increased Claims
Technological Advancements	Digitalization transforms operations, customer engagement, and risk management.	AI-driven underwriting, mobile apps, and online platforms improve efficiency, reduce costs, and enhance customer experience.	Rapid technological changes require significant investment; falling behind may result in loss of market share.	Investment in cybersecurity is necessary to maintain trust.
Natural Calamities / Environmental Factors	Earthquakes, floods, and landslides directly impact claims and risk exposure.	Awareness of environmental risks drives demand for disaster and parametric insurance products.	Frequent disasters increase claims payouts and affect profitability.	Nepal is highly prone to earthquakes and floods; parametric insurance products can address this.
Competitive Environment	Market competition affects pricing, service quality, and market share.	Healthy competition encourages innovation, better service, and technology adoption.	Intense competition may lead to price wars, lowering profit margins.	Competitors' digital platforms push HEI to enhance its offerings.
Global Environment	Global economic trends, foreign investment, and partnerships affect capital and innovation.	Collaborations with international insurers bring expertise and innovative products.	Global recessions or geopolitical tensions may reduce foreign investments and increase costs.	Example: Russia-Ukraine conflict impacts global inflation and operating costs.
Legal Environment	Changes in consumer protection, taxation, and insurance laws affect operations.	Stronger consumer protection builds trust and encourages policy uptake.	Increased legal liabilities or mandatory coverage may raise costs.	Enhanced claim settlement laws improve reputation for reliability.

4. Corporate Social Responsibility:

Company's Initiatives for Staff Welfare:

The Company recognizes that a skilled, motivated, and engaged workforce is fundamental to achieving the company's vision, mission and objectives. During the year, the Company invested in staff welfare through structured training programs, capacity building initiatives, leadership development, and employee engagement activities. The company has implemented health and accidental insurance in addition to the benefits from enrollment from Social Security Fund.

Both in-house and external training programs were conducted to enhance technical expertise and industry knowledge. Leadership development initiatives were designed to strengthen managerial capabilities and build future leaders. Employee engagement activities fostered collaboration, teamwork, and a positive organizational culture, contributing to improved productivity and operational effectiveness. The company has also started formal recognition programs to acknowledge the hard work and dedication of its long-serving employees. These recognition programs motivate employees to strive for excellence and foster a culture of appreciation.

Employee Engagement

Himalayan Everest Insurance Limited recognizes employee engagement as a key driver of organizational performance. During the year, the Company implemented several engagement initiatives to promote open communication, teamwork, and a positive work culture. Regular interactions, feedback mechanisms, and employee-focused activities helped foster a motivated workforce and strengthened alignment with the Company's values and goals.

HEI Annual Picnic.

Training and Development

The Company continued to prioritize employee capacity building through structured training and development programs throughout FY 2081/82. Various internal and external training sessions were conducted to enhance technical knowledge, professional skills, regulatory compliance, and leadership capabilities. These initiatives were aimed at strengthening employee competence, improving service quality, and supporting the Company's long-term strategic objectives.

AWARDS 2025

Best Women CEO

In Strategic Leadership General Insurance

Ms. Anju Shrestha
CEO, Himalayan Everest Insurance Limited

Awards and Achievements

During FY 2081/82, Himalayan Everest Insurance Limited received recognition for its performance, service quality, and operational excellence from various institutions and stakeholders. These awards reflect the Company’s strong market presence, commitment to customer satisfaction, and adherence to sound governance and professional standards.

Insurance Asia Awards 2025: Domestic General Insurer of the year, New Insurance Product of the year.

Best Presented Annual Report: Merit Award General Insurance.

Reward and Recognition Program

To encourage high performance and acknowledge employee contributions, the Company continued its Reward and Recognition Program during FY 2081/82. Employees demonstrating outstanding performance, dedication, and adherence to organizational values were recognized through structured appreciation mechanisms. This program reinforced a performance-oriented culture and motivated employees to strive for excellence.

Company's Contribution in National Economy:

1. Tax Compliance:

The Company contributes to Nepal's economy through consistent and transparent tax compliance. By fulfilling its tax obligations promptly, it supports public revenue generation, which enables the government to fund infrastructure, healthcare, education, and other essential public services.

2. Investment in Infrastructure, Hospitals, and Hydroelectricity:

The Company actively invests in critical sectors such as infrastructure, hospitals, and hydroelectric projects. These investments not only foster economic growth but also support the development of essential services, enhance energy security, and improve public access to healthcare and modern infrastructure.

3. Risk Mitigation through Insurance Products:

Through comprehensive insurance solutions, the Company facilitates risk transfer and safeguards investments in large-scale development projects. By mitigating financial and operational risks, it enhances project bankability and ensures the stability and continuity of critical infrastructure, construction, and commercial initiatives.

4. Employment Creation:

The Company plays a significant role in employment generation, both directly and indirectly. By expanding its operations, opening new branches, and supporting development projects, it creates jobs, promotes skill development, and contributes to overall economic stability.

5. Corporate Social Responsibility (CSR):

The Company implements CSR initiatives focused on insurance literacy, community welfare, and support for underserved and vulnerable groups. These initiatives, complemented by digital outreach and branch expansion, strengthen financial inclusion, enhance social resilience, and reflect the Company's commitment to sustainable and inclusive economic growth.

Company's action to achieve sustainability and contribution to Sustainable Global Economy:

Himalayan Everest Insurance (HEI) recognizes sustainability as an essential contributor to long-term resilience, competitiveness, and stakeholder trust. Guided by our strategic initiative "Sustainability through focus on ESG", FY 2082/83 marks the beginning of our structured efforts to embed environmental, social, and governance (ESG) considerations into our operations. Initial activities focused on responsible waste management and cleaning initiatives, laying the foundation for deeper ESG integration in the years ahead. For an insurance company operating in a climate-vulnerable geography, ESG considerations, and particularly climate risk, are directly linked to underwriting outcomes, investment performance, solvency, and long-term shareholder value.

FY 2082/83 therefore serves as HEI's baseline year for structured ESG integration, against which future progress will be measured.

1. Governance

Board Oversight

The Board provides overall direction on ESG matters by monitoring quarterly progress and ensuring alignment with strategic objectives. While ESG currently remains an emerging focus area and climate and sustainability topics are discussed quarterly to support gradual integration into core decision making.

Management's Role

ESG implementation is led by the Chief Executive Officer and supported by the Sustainability Unit under the Risk Management Department. The Head of Risk Management, together with an ESG Officer, coordinates day-to-day activities. Climate risk has been identified as one of HEI's nine key risks and is integrated into both the **Risk Management framework and the Own Risk and Solvency Assessment (ORSA)**.

2. Strategy

2.1 ESG Initiative: "Sustainability Through ESG"

HEI has adopted a phased approach to ESG, beginning with practical, high impact steps across the Environmental,

Social, and Governance pillars. Key initiatives included:

- Responsible waste management with Doko Recyclers
- Reduction of paper use through process optimization
- Increased green cover by promoting internal greenery and office environment improvements
- Promotion of responsible and ethical workplace behavior

These form the foundation for long-term sustainability integration. Given HEI's current scale and operational footprint, the Company prioritized internal operational efficiency and governance strengthening as the most immediate and controllable entry points for ESG integration.

2.2 Climate Related Risks & Opportunities

Physical Risks:

HEI is exposed to climate-related hazards such as floods, wildfires, GLOFs (Glacier Lake Outburst Floods), landslides, and storms, which may increase claim frequency and severity.

Transition Risks:

Emerging ESG regulations, shifting market expectations, technological transitions, and changes in investment landscapes may influence business practices and risk profiles.

Opportunities:

Climate transition opens avenues for innovation through green insurance products, sustainability-focused investments, and digitalization that reduces resource consumption.

An increase in the frequency and severity of climate-related events may exert upward pressure on claims ratios, reinsurance costs, and capital requirements, reinforcing the importance of early climate risk integration.

2.3 Time Horizons

HEI has adopted standard climate-assessment time frames:

- **Short-term: 1–3 years**
- **Medium-term: 3–10 years**
- **Long-term: 10–30 years**

HEI assesses climate-related risks and opportunities across multiple time horizons to reflect both immediate operational considerations and longer-term strategic and solvency impacts. These time horizons guide the sequencing of ESG integration under the Company's phased approach.

Short-term (1–3 years | "Now")

Focuses on immediate operational and regulatory considerations, including governance strengthening, baseline data collection, early risk identification, and the integration of climate risk into existing risk management and ORSA processes.

Medium-term (3–10 years | "Next")

Emphasizes the gradual incorporation of climate considerations into core insurance activities, such as underwriting, reinsurance strategy, product development, and investment decision-making, as well as enhanced metrics, targets, and scenario analysis.

Long-term (10–30 years | "Later")

Considers structural changes driven by climate transition and physical risks, including shifts in risk exposure, capital requirements, business models, and market dynamics, to support long-term resilience, solvency, and value creation.

These time horizons enable HEI to balance near-term practicality with long-term strategic planning, ensuring that sustainability considerations are integrated progressively and in line with the Company's evolving ESG maturity.

2.4 Business Impact

ESG considerations are beginning to influence HEI's key functions: ESG considerations are at an early stage of integration into HEI's core business functions.

- **Investments:** Integrated ESG considerations, including hydropower and sustainable hospitality projects ESG factors are considered in selected investment decisions, with current exposure to hydropower and environmentally responsible hospitality projects.
- **Underwriting, Reinsurance & Product Development:** No ESG-based adjustments yet, but future opportunities exist ESG-based adjustments have not yet been implemented, however, management is evaluating potential future applications, particularly in relation to climate risk and product design.

3. Risk Management

3.1 Identification

ESG and climate risks are identified through the risk management framework using a bottom-up approach involving all business units. Climate risks are recorded in departmental risk registers.

3.2 Assessment & Monitoring

A dedicated Climate Risk Policy is planned, which will outline climate risk limits, methodologies, and monitoring processes. Climate risks are already considered within the ORSA framework, demonstrating early integration into solvency planning. The inclusion of climate risk within the ORSA framework ensures that emerging ESG risks are evaluated not only from an operational perspective, but also in terms of capital adequacy and long-term solvency.

3.3 Mitigation

Initial mitigation actions include:

- **Green office practices**
- **Waste reduction through recycling partners**
- **Gradual minimization of paper-based processes**

More advanced initiatives such as climate-sensitive underwriting and scenario modelling will be developed as the ESG program matures in the later stages.

4. Metrics & Targets

4.1 Environmental Metrics

Current measurements and initiatives include:

- Electricity from NEA (majority hydropower)
- ~20% solar energy contribution at head office through installed solar panels in co-ordination with Gham Power
- Waste recycling through Doko Recyclers

Areas for development:

- Carbon emissions (Scope 1, 2, 3) – mechanisms to be built
- Paper consumption tracking

4.2 Social Metrics

HEI monitors:

- Employee diversity: Females represent 38.82% of our employees.
- Training: At least one training committed per employee

4.3 Governance Metrics

Currently tracked:

- Compliance performance
- Risk management indicators through tracking approved risk limits determined by the Board

In progress:

- Whistleblower Policy

5. Insurance-Specific Sustainability Focus

5.1 Sustainable Underwriting

No ESG-linked underwriting practices are in place yet. ESG-based underwriting practices have not yet been implemented, but are under evaluation. HEI plans to explore:

- Climate-resilient products
- Incentives for sustainable practices
- Integration of climate parameters in underwriting

5.2 Sustainable Investments

Existing sustainable investments include:

- Hydropower projects
- Environmentally responsible hospitality ventures

5.3 Community Support

Community initiatives tied directly to climate or environmental resilience are not yet established but represent areas for future development.

While ESG-linked underwriting and community resilience initiatives are not yet operationalized, management views these as medium-term strategic levers aligned with Nepal's climate risk profile and the evolving insurance market.

HEI Initiatives for ESG-MOU Signed with DOKO Recyclers.

6. General Disclosures

6.1 Stakeholder Engagement

Primary stakeholders include policyholders, claimants, employees, regulators, shareholders, business partners, and local communities. ESG-focused engagement processes are being developed.

6.2 Policies & Codes

Existing:

- Responsible Investment Policy

Planned:

- Code of Conduct
- Whistleblower Policy

Annual CSR Engagement:

During the year, Himalayan Everest Insurance Limited actively contributed to social development, health, education, and community awareness across Nepal. Key initiatives included traffic awareness programs in Butwal and Birtamode, health camps in Bardibas, Rautahat, and Dhanusha, and support for ambulance procurement at Manmohan Memorial Medical College and Teaching Hospital in Kathmandu. Educational support included libraries, digital literacy programs for visually impaired students, school infrastructure repairs, and distribution of essential goods to underserved schools.

The Company also supported community awareness and fundraising activities, such as musical events, temple consecration ceremonies, literacy and environmental programs, and blood donation camps in collaboration with local NGOs and foundations. Practical interventions, including the handover of alcohol testers to traffic police and provision of USG machines to primary health posts, further demonstrate HEI's commitment to community safety and health infrastructure.

During the year, a total of NPR 6,595,080 from CSR reserves was deployed to these activities, reinforcing the Company's dedication to social inclusion, community welfare, education, health awareness, and sustainable development across Nepal.

OUR COMMITMENTS TOWARDS SOCIETY

Every fiscal year one percent of net profit is set as budget in CSR fund of the company which is utilized across the provinces of nation under various headings.

S.No	Forms of Spending	Contribution (NPR)
1.	Art and Literature	500,000.00
2.	Insurance Awareness	906,000.00
3.	Health	4,078,780.00
4.	Education	800,000.00
5.	Fundraising Event	260,300.00
6.	Other Activity	50,000.00
	Total	6,595,080.00

Our Initiatives for Education, Inclusion & Skill Development Program

Himalayan Everest Insurance Limited conducted MOU with Sarwodaya, NGO working with education, skill development, and social inclusion of Visually Impaired Students.

Soft Skills Training & Assistive Support for Visually Impaired Students

As part of this initiative, the first phase of the Soft Skills Training Program was successfully conducted as a one-day training for 20 visually impaired students from Classes 1 to 10 at Namuna Machhindra Secondary School, Lagankhel, Lalitpur. The session was highly productive, with active participation from the students, who benefitted from interactive activities designed to enhance communication, confidence, and interpersonal skills.

Distribution of talking watch to Visually Impaired Students

In continuation of the initiative and on the occasion of International Day of Persons with Disabilities, 75 talking watches were distributed to students at Shree Amarsingh Model Secondary School, Ramghat-12, Pokhara, enabling greater independence and improved time management in their daily academic activities. The program also included motivational interactions by Mr. Saugat Wagle and Mr. Gautam Pokhrel, distinguished alumni of the school.

As December 3 is also observed as the International Day of Persons with Disabilities, we believe this event carries further significance. We expect that the use of talking watches will support the students in managing their study time more effectively.

FLY HIGH LAND SAFE STAY INSURED

Trust HEI to keep your sky journey
smooth, secured, and unstoppable.

5. Corporate Governance & Compliance:

Compliance Mechanism & Reporting:

Himalayan Everest Insurance Limited is committed to upholding the highest standards of corporate governance and regulatory compliance. The Company strictly adheres to the Insurance Act 2079, Insurance Regulations, the Companies Act, the Securities Exchange Act, the Labor Act, and all directives and circulars issued by the Nepal Insurance Authority (NIA).

To ensure robust compliance, a dedicated Compliance Team continuously monitors regulatory developments, evaluates internal adherence, and provides guidance to align operations with statutory requirements. The Board of Directors actively oversees governance practices, continuously monitors organizational compliance, and takes follow-up actions to ensure adherence to policies and regulatory frameworks. This proactive approach strengthens internal controls, mitigates risks, and promotes ethical business practices throughout the organization.

As part of its compliance framework, the Company submits quarterly compliance reports to the Nepal Insurance Authority, ensuring timely and accurate fulfillment of all regulatory obligations. These reports provide a comprehensive view of adherence to legal provisions, governance standards, and internal control mechanisms.

By integrating compliance into its corporate culture and governance structure, Himalayan Everest Insurance Limited reinforces accountability, transparency, and sustainability, thereby fostering trust among regulators, stakeholders, and the broader financial ecosystem.

Report on Corporate Governance as per Corporate Governance directive, 2080

2	Gross Premium Income	Rs"000"	4,286,327	3,761,995	13.94%
3	Net Premium Income	Rs"000"	1,756,086	1,406,462	24.86%
4	Reinsurance Commission Income	Rs"000"	490,689	417,008	17.67%
5	No of Claims Paid	Nos.	11,900	9,190	29.49%
6	Gross Claims Paid	Rs"000"	1,958,921	1,474,412	32.86%
7	Net Claims Paid	Rs"000"	1,075,365	717,750	49.82%
8	Outstanding Claim	Nos.	8,444	7,898	6.91%
9	Outstanding Claim (Gross)	Rs"000"	1,894,440	1,442,534	31.33%
10	Outstanding Claim (Net)	Rs"000"	328,891	265,010	24.10%
10	Employee Expenses	Rs"000"	354,377	336,229	5.40%
11	Other Expenses	Rs"000"	296,403	221,749	33.67%
12	Income from Investment	Rs"000"	219,224	344,043	-36.28%
13	Net Profit (as per NFRS)	Rs"000"	455,881	502,464	-9.27%

a. Solvency Margin:

Solvency ratio is the measurement of the company's ability to meet its operational obligations and short term and long-term liabilities. As per solvency margin directive issued by Nepal Insurance Authority, the solvency ratio of the company should be more than 130%. The Solvency margin of the company stands at 438.1%, which stands well above the prescribed minimum as on Ashad End 2082.

2. Review of Previous Year's Performance 2081/82 (Financial Year 2024-25):

The company's market share in Financial Year 2081/82 among general insurance companies in terms of gross premium was 9.33 %. The company recorded a Gross Direct Premium of Rs. 4.29 billion (4 Arba 29 Crore) in FY 2081/82 as compared to Rs. 3.76 billion (3 Arba 76 Crore) in FY 2080/81.

The major premium contributor for 2081/82 was the motor portfolio. This portfolio contributed 29.73% of our gross

premium. Specifically, Fire, Motor, Marine, Engineering, Micro, Aviation, Agriculture and Miscellaneous portfolios contributed 21.75%, 29.73%, 3.01%, 20.31%, 0.000014%, 1.16%, 0.81% and 23.23% respectively in FY 2081/82.

Gross Premium Income:

Portfolio	FY 2081/82	Weightage	FY 2080/81	Weightage	FY 2079/80	Weightage
Fire	932,398,693	21.75%	680,356,188	18.08%	538,706,116	15.96%
Motor	1,274,211,397	29.73%	957,192,953	25.44%	933,706,904	27.65%
Marine	129,160,493	3.01%	82,056,489	2.18%	66,672,876	1.97%
Engineering	870,422,089	20.31%	735,957,195	19.56%	531,195,936	15.73%
Micro	600	0.000014%	600	0.00002%	2,400	0.0001%
Aviation	49,813,125	1.16%	329,303,834	8.75%	354,605,187	10.50%
Agriculture	34,814,969	0.81%	38,494,365	1.02%	90,360,564	2.68%
Miscellaneous	995,505,140	23.23%	938,632,945	24.95%	861,096,975	25.50%
Total	4,286,326,506	100.00%	3,761,994,569	100.00%	3,376,346,958	100%

Gross Claim Settlement:

Gross Claim Settlement during FY 2081/82 was Rs 1 Arba 96 Crore as compared to Rs 1 Arba 47 Crore in FY 2080/81. With the continued support from our reinsurance partners, we are able to consistently settle claims promptly, which is at the core of our promise to our customers.

Portfolio	FY 2081/82	Weightage	FY 2080/81	Weightage	FY 2079/80	Weightage
Fire	560,341,481	28.60%	170,139,206	11.54%	139,089,942	5.52%
Motor	632,205,213	32.27%	470,138,918	31.89%	481,130,629	19.09%
Marine	25,704,516	1.31%	33,332,168	2.26%	40,186,253	1.59%

Total	1,958,921,202	100%	1,474,412,237	100%	2,520,707,724	100%

Re-insurance:

The Company has maintained comprehensive reinsurance treaty arrangements with a diversified panel of reputed domestic, regional, and international reinsurance companies. These arrangements include participation from established reinsurers across South Asia, the Middle East, Africa, Europe, and other international markets, ensuring adequate capacity, technical expertise, and risk dispersion. The diversified nature of the reinsurance panel enhances the Company's resilience against large and catastrophic losses and strengthens its ability to underwrite a broad range of insurance portfolios in line with regulatory and prudential requirements.

12	Odyssey Reinsurance	A+	A.M. Best

3. Impact of National and International Events on the Company's Business:

The impact of national and international events on the Company's business remains significant, influencing its operating environment and performance. Such events include economic fluctuations, political developments, social and demographic shifts, technological changes, and environmental factors, all of which require continuous assessment and adaptive strategies. National and global economic conditions—such as inflationary pressures, liquidity constraints, currency volatility, and broader macroeconomic uncertainty—have directly affected investment returns during the year.

In addition, the Gen-Z movement that occurred in September in Nepal, largely driven by youth participation, led to increased claims during the year, particularly arising from property damage and business disruptions. On the positive side, this movement has played a constructive role in enhancing public understanding of the importance of insurance as a financial protection tool, supporting broader insurance penetration and long-term market development.

Despite these challenges, the Company has continued to strengthen its market presence. Overall market penetration has increased, reaching new customer segments as well as expanding coverage to previously underserved geographic areas. In line with the country's federal structure, the establishment of provincial offices across all seven provinces has enhanced accessibility, operational efficiency, and the delivery of insurance services nationwide, positioning the Company for sustainable growth amid a dynamic external environment.

Special note on Climatic Risk

Climate risk has become a critical consideration for businesses worldwide as the planet experiences unprecedented changes. This type of risk is multifaceted, encompassing both physical risks from the changing climate and transition risks associated with the shift towards a low-carbon economy. In the year 2081/82, claims incurred due to Climatic risk, particularly Flood of Ashwin, 2081, is shown in the table below:

S.N	Particulars	Gross Claim Paid	Net Claim Paid
1.	Fire Portfolio	320,757,570	169,919,414
2.	Engineering Portfolio	64,129,390	6,685,770
3.	Motor Portfolio	58,374,225	48,286,854
4.	Marine Portfolio	125,602	8,792
	Total	443,386,788	224,900,830

4. Achievements Since the Last Fiscal Year till Preparation of the Annual Report and Future Plans:

The comparative premium underwritten during the Fiscal Year 2082/83 is tabulated below:

S. No	Particulars	FY 2082/83 (up to Mangsir)	FY 2080/81 (up to Mangsir)	Increase
1.	Gross Premium Income	2,007,021,389	1,393,995,862	43.98%

Future Plan:

The Company is pursuing a clear and purposeful strategy to expand its nationwide presence, while making focused investments to drive technological transformation and operational excellence. The successful merger has been a defining milestone, enabling us to establish a truly national footprint and providing an opportunity to reassess our strengths, capabilities, and long-term market potential. Building on this foundation, we are positioning the Company to capture emerging opportunities, strengthen our market leadership, and create sustainable value for all stakeholders.

Guided by a clear and unwavering Vision 2030, we remain committed to transforming the Company into a resilient, innovative, and future-ready institution. With the continued trust and support of our stakeholders, we are confident in our ability to achieve our strategic ambitions and shape a stronger, more inclusive future for the organization.

5. Industrial and Business Relations:

As a socially responsible organization, the Company has diligently ensured that all disclosures and information required under the applicable Acts, Rules, and Regulations have been submitted, published, and communicated

transparently. Throughout the year 2081/82, we have actively engaged with our stakeholders through multiple channels, reinforcing trust and accountability at every level.

We are deeply committed to nurturing a culture of collaboration and excellence within and across our teams, recognizing that strong internal relationships are the cornerstone of our future growth and long-term success. In pursuit of this vision, we continue to attract and develop talent whose values resonate with our mission, and we invest in comprehensive training and capacity-building programs to empower our people to reach their full potential. By fostering innovation, teamwork, and continuous learning, we are equipping the Company to achieve its ambitious goals and create sustainable value for all stakeholders.

6. Changes in the Board of Directors and Senior Management:

There have not been any changes in composition of the Board of Directors during the review period 2081/82. The following are the details of the existing Board of Directors.

S. No	Incoming Director	Date of Appointment
1.	Mr. Mahendra Krishna Shrestha	2079/12/29
2.	Mr. Ajay Ratna Sthapit	2079/12/29
3.	Mr. Vijit Krishna Shrestha	2079/12/29
4.	Mr. Hem Raj Thapa	2079/12/29
5.	Mrs. Avilasha Panth Sharma	2080/02/10
6.	Mr. Bijay Kumar Pant	2080/01/06

Ms. Anju Shrestha assumed charge as the Chief Executive Officer (CEO) of the Company with effect from 18th Ashwin 2081. Prior to this, she served as the Officiating CEO from 13th Ashad 2081 to 17th Ashwin 2081.

7. Major Factors affecting Business:

- a) Post Pandemic Effect.
- b) Gen-Z Movement
- c) Flood and Catastrophic Events
- d) Changes in Acts & Regulatory Directives
- e) Political Instability
- f) Rapid Advancements in Technology
- g) Limited Reinsurance Market
- h) Inflation, Currency Fluctuations.
- i) Lower Interest Rate Environment

8. Dividend:

We have proposed Cash Dividend 8% of Rs. 20,00,12,592 (Including tax on cash dividend) from the distributable profit of the company.

9. Appointment/ Re- appointment of Auditor:

The meeting of the Audit committee has recommended M/s N. Amatya & Co. as its Statutory auditor for FY 2082/83. The total fee of Nrs. 8,20,000 (Excluding VAT) – [Audit Fee (including Tax Audit) 7,70,000 (Excluding Vat) and Fee for Long Form Audit Report Nrs. 50,000 (excluding VAT)] has been proposed to Statutory Auditor for Statutory Audit & Tax Audit.

10. Share Capital:

The following table shows the company's paid-up share capital As on Ashad End of FY 2081/82.

S.No	Particular	Paid Up Capital (Nrs)
1	Himalayan Everest Insurance Limited	2,50,01,57,400

Nepal Insurance Authority has prescribed minimum paid of capital of Rs 250 Crore for Non-Life Insurance Company.

11. Conclusion:

We extend our deepest gratitude to the Government of Nepal, Nepal Insurance Authority, Office of Company Registrar, Nepal Rastra Bank, Securities Board of Nepal, Nepal Stock Exchange Limited, CDS and Clearing Limited, Inland Revenue Department, NMB Capital Ltd, Stockbrokers, Commercial and Development Banks, Finance Companies, our valued clients, and all well-wishers who have supported us, directly or indirectly, in the growth and success of our company. We also sincerely acknowledge the steadfast commitment of our agents and surveyors, whose efforts continue to strengthen our operations.

The dedication and professionalism demonstrated by all employees during the period are highly commendable. Their commitment to excellence and service remains the driving force behind our achievements.

We express our heartfelt thanks to our shareholders and AGM attendees for your valuable presence, insightful participation, and continued trust in our company. Your support inspires us to reach greater heights.

As we look toward the future, aligned with Vision 2030, we remain committed to expanding our nationwide presence, embracing technological transformation, and delivering innovative insurance solutions. With collective effort and unwavering dedication, we are poised to strengthen our market leadership and create lasting value for all stakeholders.

Thank You,

Ajaya Ratna Sthapit,
Director

Mahendra Krishna Shrestha
Chairman
Date: 2082/09/13

Provisions related to section 109 (4) Companies Act, 2063 (first amendments, 2074):

a. Details of Forfeited Shares:

The company has not forfeited any shares till the reporting date.

b. Disclosure of transaction with Subsidiary/ Associates:

The Company has no subsidiaries or associates as of the reporting date. The investment previously classified as an associate in Nepal Infrastructure Investment Fund Limited has been derecognized as an associate in the current year, as the Company's holding as of the reporting date stands at 17.46%.

c. Information provided by the Principal Shareholders in the last fiscal year:

No such information was provided during the reporting period.

d. Disclosure on the share transaction & ownership by the Board Members and Employees of the Company in the last fiscal year:

None

e. Disclosure of information on involvement of any Board Member or their Close Relatives having personal interest on any agreement done by the company during the last fiscal year:

None

f. Disclosure on Shares buy back of the company:

None.

g. Internal Control System, Risk Management system & its effectiveness:

The internal control system of the Company is designed to achieve the following key organizational objectives:

- a) Operational Effectiveness and Efficiency
- b) Reliable Financial Reporting
- c) Compliance with Laws, Regulations, and Policies

At the organizational level, the Company has established an Internal Audit Committee, chaired by public director Mr. Ajaya Ratna Sthapit. An independent Chartered Accountant firm, M/s G.P. Rajbahak & Co, has been appointed as the Company's Internal Auditor.

The internal audit reports issued by the auditor are presented to the Audit Committee for review and discussion. Comments and recommendations from both the Internal Auditor and the Audit Committee are implemented on an ongoing basis. The Company strongly believes that the effective implementation of these recommendations enhances the overall strength and efficiency of the internal control system.

The Company has been adhering to the Corporate Governance Directive, 2080, issued by the Insurance Authority, which has significantly contributed to strengthening internal controls and promoting good governance practices. In addition, the Company has established a Risk Management Committee to ensure effective identification, assessment, and management of both internal and external risks. The following is the composition of Risk Management Committee:

S.No	Name	Designation
1	Mr. Bijay Kumar Pant	Coordinator
2	Mr. Hem Raj Thapa	Member
3	Ms. Nasala Shakya	Member Secretary

The Risk Management committee is headed by Independent Director Mr. Bijay Kumar Pant.

h. Disclosure on the total Management expenses on last fiscal year:

The company has spent Rs. 296,402,987 (Twenty-Nine Crore Sixty Four Lakh Two Thousand Nine Hundred Eighty Seven Rupees) as total management expenses in FY 2081/82.

i. Details of members of the Audit committee, their remuneration, allowances and facilities, action taken, and any recommendations made by the committee:

During the review period, the Company constituted a three-member Audit Committee, chaired by a Public Director. The composition of the Committee is as follows:

S.No	Name	Designation
1	Mr. Ajaya Ratna Sthapit	Chairperson
2	Mr. Hem Raj Thapa	Member
3	Mr. Bijay Kumar Pant	Member

The meeting fee for each audit committee meeting has been fixed at Rs.10,000 (Ten Thousand) inclusive of Tax.

The actions made by the audit committee are as follows,

1. Review of Statutory Audit Report and recommendation to management for the improvements, as required.
2. Review of Internal Audit Report and recommend management for the improvements, as required.
3. Review the financial statements prior to submission to the Board, ensuring accuracy, completeness, and compliance with applicable accounting standards.
4. Recommend the appointment of Statutory Auditor to the AGM.
5. Review of the Internal Control System of the company and provide suggestions for improvement.

j. Disclosure on amount receivable from Directors, Managing Directors, CEO, Company's Principal Shareholders or any firm, company or any other organization associated with such individuals or their close relatives:

None.

k. Disclosures on Salary, Allowances and facilities provided to the Directors, Managing Directors, CEO:

Details of Meeting Allowance Paid to Directors:

Particulars	Amount (Rs)
Board/Committee Meeting Allowance	51,30,757

Detail of Salary Allowances and Facilities Provided to CEO of Himalayan Everest Insurance Limited:

S.N	Particulars	Detail	Tenure	Amount	Other Facilities
1.	Salary & Allowances	Ms. Anju Shrestha	13th Ashad 2081 – till 17th Ashwin (as officiating CEO) and Ashwin 18th 2081 – till Ashad End, 2082 as CEO	1,01,36,745	Vehicle with Driver, Fuel, Insurance, Telephone, & Statutory Bonus & Other as per Terms of Contract

l. Remaining Dividend amount to be claimed by shareholders:

- The remaining dividend of Rs. 3,51,99,966 has been booked as payable and shown in Annexure 24, Other Financial Liabilities.

m. Disclosure on purchase and sale of property as per clause 141:

None.

n. Disclosure on transactions between associated companies as per clause 175:

None.

o. Any other details to be disclosed in the report as per the company's act and existing laws:

The company has a market share of 9.33% (Approx) in the General Insurance Industry.

p. Disclosure on the provision of the directive 86 as per Companies Directives. 2072:

The company has been abiding by the provision made in the Company's Directives 2072.

q. Other issues:

None.

MAJOR POLICIES AND PRACTICES

Terms of Reference (TOR) for Board and Committees	Defines the roles, responsibilities, authority, composition, and accountability of the Board and its Committees to ensure effective corporate governance and regulatory oversight.
Underwriting Manual	Provides standardized principles, procedures, authority limits, and risk acceptance criteria to ensure consistent, prudent, and compliant underwriting across all lines of business.
Claims Manual	Establishes uniform procedures for claim registration, assessment, approval, settlement, and reporting to ensure fair, timely, transparent, and controlled claim management.
Reinsurance Manual	Defines the framework for reinsurance placement, retention limits, treaty and facultative arrangements, and counterparty management to optimize risk transfer and protect solvency.
Financial Administrative Bylaws	Prescribes rules governing financial management, accounting, budgeting, internal controls, payments, and reporting to ensure financial discipline, transparency, and regulatory compliance.
Investment Policy	Sets out principles, asset allocation limits, risk parameters, approval processes, and monitoring mechanisms for managing investment activities in a prudent and compliant manner.
Procurement Bylaws	Establishes transparent and accountable procedures for procurement of goods and services, including vendor selection, approval authority, and documentation to ensure value for money and integrity.
Human Resource Bylaws	Defines policies relating to recruitment, performance management, remuneration, training, conduct, and discipline to ensure effective workforce governance and organizational integrity.
Agricultural Insurance Manual	Provides underwriting, claims, pricing, and operational guidelines specific to agricultural insurance products to ensure technical consistency and alignment with regulatory directives.
AML/CFT Policy	Establishes measures for prevention, detection, monitoring, and reporting of money laundering and terrorist financing risks in compliance with prevailing laws and regulatory requirements.
IT Policy and Guidelines	Defines governance, security, access control, system development, data protection, and continuity standards to ensure reliability, confidentiality, and integrity of information systems.
Risk Management Framework	Provides a structured approach for identifying, assessing, mitigating, monitoring, and reporting risks to support sound decision-making, capital adequacy, and regulatory compliance.
Monitoring and Supervision Framework	Establishes mechanisms for ongoing oversight, internal monitoring, compliance tracking, and performance evaluation to ensure effective implementation of policies and regulatory adherence.
Marketing Guidelines	Prescribes ethical, transparent, and compliant marketing and sales practices, including product disclosure, promotional activities, and intermediary conduct, to protect policyholders and the Company's reputation.
Employee Health and Safety Policy	Establishes standards and responsibilities to ensure a safe, healthy, and compliant workplace, including occupational safety, emergency preparedness, and employee well-being.

6. Risk Management Framework & Internal Control:

Himalayan Everest Insurance (HEI) has implemented a comprehensive and forward-looking Risk Management Framework designed to ensure that risks arising from business activities are effectively identified, assessed, managed, monitored, and reported across the company. The framework aligns with the Nepal Insurance Authority's Risk Management Guidelines, Risk-Based Capital Directive, and ORSA Directive, ensuring strong governance and regulatory compliance.

During FY 2081/82, Himalayan Everest Insurance Limited made significant progress in strengthening its enterprise risk management capabilities. The Company successfully implemented a comprehensive Risk Management Framework (RMF) aligned with regulatory expectations and best practices, including the development and institutionalization of Board-approved Risk Appetite Statements covering nine material risk categories. ORSA preparedness was further enhanced through structured data collection processes and targeted training sessions across key functions. To support systematic risk identification and monitoring, a SharePoint-based risk register prototype was developed. The Risk Management function also played a key role in supporting post-merger transition risk management, conducted a Board-requested analysis on hydro portfolio concentration risk, and actively coordinated with senior management in the formulation of the Company's strategic plan, ensuring risk considerations were embedded in strategic decision-making.

हिमालयन एभरेष्ट
इन्स्योरेन्स लिमिटेड

तपाईंको सपना हाम्रो सुरक्षाको योजना!

1. Governance & Oversight

HEI's framework is anchored in a clear governance structure where:

- The Board of Directors approves all risk policies and ensures alignment with HEI's strategic objectives and solvency goals.
- The Board Risk Management Committee oversees implementation and annually reviews the framework and policies.
- The Head of Risk Management owns the framework and ensures its ongoing effectiveness.
- Business Units act as first-line risk owners, responsible for identifying, managing, and reporting risks in their areas.

2. Risk Management Principles

HEI's approach is based on five core principles:

1. Three Lines of Defense structure with clear accountability.
2. A Board-driven Risk Appetite Statement tailored to HEI's business model.
3. A robust risk management cycle covering identification, assessment, mitigation, monitoring, and reporting.
4. Mandatory risk consideration in all major decisions.
5. Promotion of a strong risk culture, including capacity-building and awareness.

3. Risk Appetite

HEI defines its Risk Appetite both in aggregate and for each material risk category, prioritizing:

- Strong underwriting discipline
- Balanced retention and reinsurance
- Portfolio diversification
- Capital preservation and solvency strength

4. Core Risk Categories

HEI employs a comprehensive risk taxonomy consistent with regulatory guidelines. The major categories include:

- Insurance Risk (pricing, selection, reserving, catastrophe exposure)
- Market Risk (interest rate, equity, currency, ALM/liquidity)
- Credit Risk (counterparty, invested assets, concentration)
- Operational Risk (people, process, systems, external events)
- Strategic Risk (business model, competition, macro factors)
- Compliance & Legal Risk
- Conduct Risk
- Money Laundering & Terrorism Financing Risk
- Climate Risk (physical, transition, liability impacts)

5. Risk Policy Framework

HEI maintains separate risk policies for each material risk, approved by the Board.

The Risk Management Department:

- Maintains and reviews policies annually
- Monitors compliance

Business Units:

- Report breaches or incidents

6. Risk Management Cycle

The framework applies a structured cycle covering:

- a) Risk Identification – bottom-up and top-down approaches, including emerging risks.
- b) Risk Assessment & Analysis – qualitative and quantitative methods.
- c) Risk Treatment – mitigation, transfer, avoidance, or acceptance.
- d) Risk Monitoring – BU-level monitoring with oversight from Risk Management & Internal Audit.
- e) Risk Reporting – quarterly reporting to Senior Management, RMC, and the Board.

7. Integration with ORSA

The framework forms the foundation of HEI's ORSA process providing a forward-looking view on risks and solvency aligned with business strategy.

8. Risk Culture

HEI promotes a responsible and informed risk culture, expecting every employee to understand the risks inherent in their

work.

- Risk is embedded in BU performance evaluations.
- Training and capability-building strengthens risk competencies.

Climate Risk Related Disclosure

Physical Risks:

HEI is exposed to climate-related hazards such as floods, wildfires, GLOFs (Glacier Lake Outburst Floods), landslides, and storms, which may increase claim frequency and severity.

Transition Risks:

Emerging ESG regulations, shifting market expectations, technological transitions, and changes in investment landscapes may influence business practices and risk profiles.

Opportunities:

Climate transition opens avenues for innovation through green insurance products, sustainability-focused investments, and digitalization that reduces resource consumption.

An increase in the frequency and severity of climate-related events may exert upward pressure on claims ratios, reinsurance costs, and capital requirements, reinforcing the importance of early climate risk integration.

Time Horizons

HEI has adopted standard climate-assessment time frames:

- **Short-term:** 1–3 years
- **Medium-term:** 3–10 years
- **Long-term:** 10–30 years

HEI assesses climate-related risks and opportunities across multiple time horizons to reflect both immediate operational considerations and longer-term strategic and solvency impacts. These time horizons guide the sequencing of ESG integration under the Company's phased approach.

Short-term (1–3 years | “Now”)

Focuses on immediate operational and regulatory considerations, including governance strengthening, baseline data collection, early risk identification, and the integration of climate risk into existing risk management and ORSA processes.

Medium-term (3–10 years | “Next”)

Emphasizes the gradual incorporation of climate considerations into core insurance activities, such as underwriting, reinsurance strategy, product development, and investment decision-making, as well as enhanced metrics, targets, and scenario analysis.

Long-term (10–30 years | “Later”)

Considers structural changes driven by climate transition and physical risks, including shifts in risk exposure, capital requirements, business models, and market dynamics, to support long-term resilience, solvency, and value creation.

These time horizons enable HEI to balance near-term practicality with long-term strategic planning, ensuring that sustainability considerations are integrated progressively and in line with the Company's evolving ESG maturity.

Adequacy of Reinsurance Coverage Including Catastrophic Risk

The Reinsurance Management Framework (RMF) of Himalayan Everest Insurance (HEI) establishes the governance, oversight, and strategic mechanisms through which the company structures and manages its reinsurance arrangements. The framework is designed to safeguard the company's risk appetite, capital strength, and financial stability while ensuring compliance with directives from the Nepal Insurance Authority (NIA). HEI's reinsurance program aims to optimize risk transfer, stabilize earnings, and enhance underwriting capacity across all lines of business.

Reinsurance Strategy

The Company's reinsurance strategy is designed to:

- Transfer major risks, stabilize profits, and strengthen solvency.
- Support portfolio growth, product expansion, and underwriting capacity.
- Fully align with corporate goals and regulatory requirements.

- Define target retention levels by line of business.
- Utilize proportional and non-proportional treaties to address predictable, high-severity, and catastrophic risks.
- Be reviewed annually or upon material changes in risk profile.

Types of Reinsurance Used:

- **Proportional Reinsurance:** Quota Share and Surplus treaties to share predictable risks.
- **Non-Proportional Reinsurance:** Excess of Loss treaties for high-severity events, including catastrophic and large-loss protection.
- **Facultative Reinsurance:** For large, unusual, or high-value risks not covered under treaty arrangements.

Reinsurance Assessment & Placement

The Company follows a structured process to ensure appropriate reinsurance coverage:

1. **Risk Identification:** Using historical loss data, exposure analysis, and portfolio review.
2. **Retention Determination:** Guided by risk appetite, capital, solvency, and historical claims.
3. **Reinsurer Selection:** Based on creditworthiness, rating, capacity, claims performance, terms, and regulatory compliance.
4. **Pricing & Negotiation:** Establish premiums and terms using exposure metrics, loss trends, portfolio growth, and market intelligence.
5. **Contract Documentation:** Clearly defined, enforceable, and timely finalized, with all coverage, exclusions, and claims procedures detailed.
6. **Regulatory Compliance:** Submission to NIA for approval where required.

Governance

The governance of HEI's reinsurance program is anchored in a robust oversight framework to ensure alignment with corporate objectives, risk appetite, and regulatory requirements. The Board is responsible for defining the overall reinsurance strategy and monitoring its implementation through the CEO and senior management. Continuous oversight is exercised on treaty performance, reinsurer solvency, and exposure levels to ensure risks remain within approved limits. Reinsurance considerations are integrated into the company's Own Risk and Solvency Assessment (ORSA) to support capital planning and solvency management. In addition, the internal audit function periodically reviews reinsurance operations, controls, and compliance, ensuring that all activities are accurate, transparent, and in line with established policies and regulatory standards.

Catastrophic Reinsurance

HEI maintains a robust catastrophic reinsurance program designed to limit exposure to extreme losses and safeguard the company's financial stability. The program provides comprehensive coverage across all major portfolios, including property, engineering, motor, marine, cattle, and miscellaneous lines. Catastrophic reinsurance protects against natural disasters such as earthquakes, floods, fires, and other low-frequency, high-severity events, with clearly defined limits and retention levels. The coverage is calibrated to ensure that the company's maximum retention per event remains within prudent risk appetite, thereby reducing earnings volatility and supporting solvency while providing assurance of financial resilience during catastrophic scenarios.

Key features include:

- **Scope:** Covers all major portfolios, including Property, Marine, Motor, Engineering, Cattle, and Miscellaneous Insurance.
- **Perils Covered:** Natural disasters such as earthquakes, floods, fire, and other catastrophic events.
- **Objective:** Provides spillover protection beyond proportional treaty limits, stabilizing financial performance during high-severity events.
- The company's catastrophic program represents one of the most comprehensive reinsurance arrangements among Nepalese insurers.

The company has reinsurance treaty with the following reinsurance companies:

S. No	Name of reinsurers	Rating	Agency
1	General Insurance Corporation of India, India	B++ Good	A.M. Best
2	Oman Re	B+	A.M. Best
3	Kenya Reinsurance Corporation Ltd., Nairobi, Kenya	B (Fair)	A.M. Best
4	Asian Reinsurance Company Limited	B+ (Good)	A.M. Best
5	Cica Reinsurance, India	B+	A.M. Best
6	GIC Bhutan Reinsurance Company Limited	A	A.M. Best
7	The New India Assurance Company Limited	B++	A.M. Best
8	Abu Dhabi National Insurance Company	A (Excellent)	A.M. Best
9	Nepal Re	-	-
10	Himalayan Re	B+	A.M. Best
11	Sirius International	A-	A.M. Best
12	Odyssey Reinsurance	A+	A.M. Best

Framework of Internal Control System and its effectiveness

Himalayan Everest Insurance (HEI) is committed to maintaining a robust Internal Control System as a cornerstone of its governance and operational excellence. The internal control system provides a structured framework to ensure the reliability and accuracy of financial and operational information, safeguard the Company's assets, and promote compliance with applicable laws, regulations, and internal policies. By embedding effective controls across all levels of the organization, HEI seeks to enhance operational efficiency, mitigate risks, and foster transparency, accountability, and stakeholder confidence in its business practices.

Components of Internal Control

Component	Description	Key Elements at HEI
Control Environment	Establishes organizational culture and ethical standards.	<ul style="list-style-type: none"> Board & management oversight Code of conduct & ethics Defined organizational structure Employee competence & accountability
Risk Assessment	Identification, analysis, and management of risks affecting operations and objectives.	<ul style="list-style-type: none"> Operational, underwriting, claims, and financial risks Regular enterprise-wide risk assessment Periodic risk reporting to management & board Authorization & approval limits for transactions
Control Activities	Policies, procedures, and actions to mitigate identified risks.	<ul style="list-style-type: none"> Segregation of duties Reconciliations and verification IT system access controls Internal reporting systems
Information & Communication	Ensures timely, accurate, and transparent information flow.	<ul style="list-style-type: none"> Regular management meetings Whistleblower & grievance mechanisms Communication with regulators and stakeholders
Monitoring Activities	Continuous and periodic assessment of internal control system effectiveness.	<ul style="list-style-type: none"> Internal audit and self-assessment Management review of key risk indicators External audit and regulatory feedback Timely corrective action for control deficiencies

3. Key Policies and Controls

Himalayan Everest Insurance (HEI) is committed to maintaining a robust Internal Control System as a cornerstone of its governance and operational excellence. The internal control system provides a structured framework to ensure the reliability and accuracy of financial and operational information, safeguard the Company's assets, and promote compliance with applicable laws, regulations, and internal policies. By embedding effective controls across all levels of the organization, HEI seeks to enhance operational efficiency, mitigate risks, and foster transparency, accountability, and stakeholder confidence in its business practices.

1. Authorization & Approval:

- Transactions above defined thresholds require managerial or board approval.
- Segregation between initiation, approval, and recording of transactions.

2. Segregation of Duties:

- Critical functions such as cash handling, policy issuance, underwriting, and claims processing are segregated.

3. Asset Safeguarding:

- Physical and electronic security for cash, bank balances, investments, and IT infrastructure.

4. Financial & Accounting Controls:

- Standardized processes for ledger maintenance, reconciliations, and timely financial reporting.

5. Compliance & Regulatory Control:

- Adherence to Insurance Act, NRB directives, Financial Reporting Standards, and other statutory requirements.

6. IT & Data Security:

- Access rights review, cybersecurity measures, system backups, and disaster recovery protocols.

7. Operational Risk Controls:

- Underwriting guidelines, claims approval limits, and policy issuance checks to reduce operational risks.

4. Roles & Responsibilities

Role	Responsibility
Board of Director	Oversight of Internal Control System effectiveness, policy approval, risk management framework.
Senior Management	Implementation, monitoring, and continuous improvement of Internal Control System.
Internal Audit	Independent evaluation of control adequacy and reporting of deficiencies.
Department Heads	Compliance with controls within respective departments.
Employees	Adherence to policies and reporting of discrepancies or risks.

5. Monitoring & Reporting
1. Ongoing Monitoring:

- Daily/weekly reconciliation, exception reporting, and operational supervision.

2. Periodic Assessment:

- Internal audits, risk reviews, and departmental self-assessment reports.

3. Reporting:

- Internal audit findings to management and board.
- Regulatory compliance reporting to regulators.

Information Technology System and Control

The Information Technology (IT) Division of Himalayan Everest Insurance (HEI) serves as a strategic enabler of the Company's operations, governance, and digital transformation agenda. It is responsible for the development, management, security, and continuous improvement of enterprise information systems and IT infrastructure, ensuring technology supports operational efficiency, business growth, and stakeholder confidence.

A key focus of the Division is building internal technical capability, reducing reliance on external vendors, and establishing sustainable ownership of core business systems.

1. IT System Overview

HEI's IT infrastructure and enterprise applications form the backbone for operational efficiency, process automation, and customer service excellence. Key elements include:

- **Core System:** HEI's central system supports multiple business processes, now fully managed in-house by the IT Division, ensuring control over system maintenance, enhancements, deployments, and issue resolution.
- **IT Support & Service Management:** Introduction of a centralized IT ticketing system for structured incident handling, improved response time, and enhanced transparency.

- **Security & Operational Resilience:** Strengthened access controls, proactive monitoring, backup and recovery mechanisms, and continuity planning to ensure system reliability.

2. IT Governance and Control

The Division has strengthened governance, risk management, and operational control over IT systems through:

Governance Area	Key Measures
Access & Security Controls	Role-based access, secure authentication, and continuous monitoring of critical applications
Change & Release Management	Structured version control, module-wise deployments, and documented release procedures
Audit & Compliance	System-based audit trails and traceable operational processes
Process Standardization	Standard operating procedures, operational manuals, and comprehensive system documentation

3. System Development and Operational Management

Key achievements in FY 2024/25 include:

- **Strengthening Internal IT Capability:** Formation of specialized teams for software development, IT infrastructure, and support/service management.
- **Core System Ownership:** Transition from external vendor dependency to in-house system management, with full control over code and operational enhancements.
- **System Enhancements:** Over 110 successful system deployments, including functional improvements, performance tuning, and controlled module-wise upgrades.
- **Operational Efficiency:** Faster turnaround for business requirements and process automation, reducing costs and improving service delivery.

4. Security, Stability, and Risk Management

HEI's IT Division emphasizes secure and resilient operations through:

- Enhanced application access controls and cybersecurity mechanisms
- Improved backup, recovery, and business continuity arrangements
- Proactive monitoring and early issue resolution to ensure high system availability
- Lessons learned highlighting the importance of structured documentation, version control, and disciplined operational management

5. Strategic IT Initiatives

The IT Division aligns its initiatives with HEI's strategic objectives:

- Building sustainable internal IT capability
- Supporting digital transformation and long-term value creation
- Enhancing operational resilience and stakeholder confidence
- Reducing vendor dependency while improving scalability and stability

6. Key Challenges

- Managing a complex, large-scale core system
- Maintaining system stability during frequent deployments and transitions

7. Plans and Priorities for FY 2025/26

Initiative	Objective
Customer Portal Development	Self-service digital platform for improved customer experience and transparency
Sales Application (Sales App)	Digitally enable sales operations via mobile/web solutions
Claims Module Re-engineering	Process redesign to improve efficiency, control, and turnaround time
API & Workflow Enhancements	Better integration and interoperability with internal and external systems
Stakeholder Login Portal	Secure, role-based access for agents, partners, and other stakeholders
Core System Modernization	Continuous upgrades, automation, and cybersecurity enhancements

Through these initiatives, HEI's IT Division continues to focus on secure, efficient, and innovative technology solutions that support business growth, governance, and stakeholder satisfaction.

INFORMATION SYSTEM AUDIT REPORT

CYNICAL TECHNOLOGY PVT. LTD
KATHMANDU, NEPAL

CYNICAL
Revolutionizing And Empowering Cyber Security

Date:-30/11/2025

To,
Himalayan Everest Insurance Limited
Babarmahal, Kathmandu, Nepal

Subject: Submission of Information System Audit Report

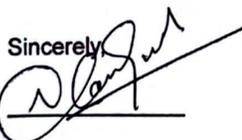

Dear Sir/Madam,

With reference to the Information System Audit engagement conducted between **Himalayan Everest Insurance Limited** and **Cynical Technology Pvt. Ltd.**, we are pleased to formally submit the Information System Audit Report outlining our detailed observations, assessments, and recommendations.

The audit was carried out in alignment with applicable regulatory requirements, recognized international standards, and industry best practices. The primary objective of this engagement was to evaluate the effectiveness of information security controls, governance mechanisms, and overall compliance posture of the organization.

We kindly request the management to review the findings and initiate appropriate corrective and preventive measures where necessary. Should you require any clarification or further assistance regarding the report, we remain at your disposal

Thank you for the opportunity to be of service.

Sincerely,

Naresh Lamgade

Financial Statements & Related Disclosures:

Statement of Responsibilities of Chief Financial Officer

The Chief Finance Officer (CFO) is responsible for ensuring the accuracy, transparency, and compliance of the company's annual financial statements with the prevailing Act Rules Regulations.

The key responsibilities include:

Preparation and Fair Presentation:

Ensuring that the annual financial statements are prepared in accordance with applicable accounting standards, laws, and regulatory requirements.

Presenting a true and fair view of the company's financial position, performance, and cash flows.

Ensuring transparency in financial disclosures.

Compliance with Regulatory Standards

Adhering to accounting principles (e.g., IFRS, GAAP) and relevant financial reporting laws.

Ensuring compliance with corporate governance policies and statutory reporting requirements.

Accuracy and Integrity of Financial Data

Ensuring that financial statements are free from material misstatement, whether due to fraud or error.

Reviewing and validating financial reports before submission to the Board of Directors and regulatory authorities.

Ethical and Professional Conduct

Ensuring financial reporting aligns with the company's strategic goals and long-term sustainability.

Through the above key responsibilities, Chief Finance Officer ensures that the company's financial statements accurately reflect its financial health and comply with the regulatory requirements set forth by the Nepal Insurance Authority.

Rajkumar Khadka

6. Claim Settlement:

The following are the details of claims settled and outstanding as on year ended 32nd Asar 2082.

Particulars	Number
Number of Claim Settled (FY 2081/82)	11,900
Number of Claim Outstanding (As on 32nd Asar 2082) (including 5,832 Covid Claim)	8,444

Time Frame to Settle the outstanding claim:

The company has the policy to settle the outstanding claim within 21 days after receipt of all the required documents.

7. Declaration on Compliance:

The financial statements have been prepared in all material aspects under Nepal Financial Reporting Standards (NFRS) laid down by the Accounting Standard Board (ASB), and comply with requirements of Insurance Act 2079, Insurance Regulation, 2081, Company Act, 2063, Security Exchange Act 2063 and applicable directives issued by Nepal Insurance Authority along with compliance and disclosures as per other applicable laws of Nepal.

8. Declaration on Accounting Policy:

The Accounting Policies have been consistently applied to all the years presented, unless otherwise specifically stated.

9. Declaration on True & Fair Presentation:

The financial statements of the company present fairly, in all material respects, the financial position of the company as on 32nd Asar 2082, and its financial performance for the year then ended.

10. Declaration on Safeguard of Assets & identification and mitigation against losses due to fraud, embezzlement, and irregularities:

The Board of Directors of the company has implemented adequate and appropriate provisions to safeguard the assets as well as for the identification and mitigation against losses due to fraud, embezzlement and irregularities.

11. Declaration on Going Concern:

The Board of Directors has assessed the Company's ability to continue as a going concern and are satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the Board of Directors is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as going concern and accordingly, the financial statements have been prepared on the basis of going concern.

12. Declaration on Internal Control:

Necessary mechanisms, rules and procedures are implemented in the company for the effective internal control system. The internal control system is commensurate with the size, nature & volume of the company's business.

13. The company has not conducted any transactions contrary to the Insurance Act, 2079, Insurance Regulation, 2081, Companies Act, 2063, related regulations and directions with any person, firm, company and its director or with any entity in which its director has interest.

14. Penalties Levied by Nepal Insurance Authority:

No penalty has been imposed by Nepal Insurance Authority during the FY 2081/82.

15. Other Disclosures:

None

**INDEPENDENT AUDITOR'S REPORT
TO THE SHAREHOLDERS OF
HIMALAYAN EVEREST INSURANCE LIMITED**

Report on the audit of the financial statements

Opinion

We have audited the financial statements of **Himalayan Everest Insurance Limited** (the Company), which comprise the statement of financial position as at Ashad 32, 2082 (July 16, 2025), and the statement of profit or loss, the statement of other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at Ashad 32, 2082 (July 16, 2025), and its financial performance and its cash flows for the year then ended in accordance with Nepal Financial Reporting Standards (NFRSs).

Basis for opinion

We conducted our audit in accordance with Nepal Standards on Auditing (NSAs). Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics for professional accountant issued by Institute of Chartered Accountants of Nepal (ICAN) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2063 and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAN's Code of Ethics for professional accountants. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the financial year ended on Ashad 32, 2082 (July 16, 2025). These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

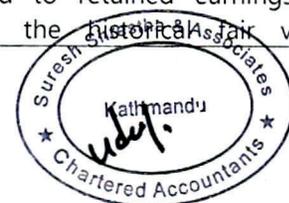

Key audit matters	How our audit addressed the key audit matter
<p>Investments (Refer Note 3.5 "Financial instruments, financial assets and financial liabilities" and Note 10 of the financial statements)</p> <p>The Company's investments represent substantial portion of the assets as at Ashad 32, 2082 which are valued in accordance with the accounting policy as framed in note 3.5 of the financial statements and in accordance with the framework as per the extent of the regulatory guidelines.</p> <p>Valuation of actively traded equity shares and mutual fund units are done as per the last traded price as on the reporting date in Nepal Stock Exchange (NEPSE). If such securities are not traded on the reporting date, they are valued as per the previous closest traded price.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ▪ Tested the design implementation and operating effectiveness of key controls over valuation process of investments. ▪ Assessed appropriateness of the valuation techniques with reference to NAS 39 – Financial Instruments: Recognition and Measurement read together with NFRS 9 – Financial Instruments along with the Company's own valuation policy. ▪ We have agreed a sample of year-end investment holdings to external valuations and custody sources to verify the valuation and existence of these investments.

Key audit matters	How our audit addressed the key audit matter
<p>Unlisted equity instruments and mutual fund units are measured at cost.</p> <p>All other securities including debt instruments have been measured at historical cost subject to amortization of premium paid, if any, over the residual period. The valuation of these investments is considered to be one of the areas which required attention and was one of the matters of significance in the financial statements.</p>	<ul style="list-style-type: none"> ▪ Understood the management's process for identifying the existence of impairment indicators in respect of the interests in equity instruments measured at fair value through Other comprehensive income. ▪ Obtained an understanding of price verification control, which is designed to review the appropriateness of valuation methodologies to derive model inputs. ▪ Based on our audit procedures performed, we concluded that the valuation of level 1 financial instruments is appropriate.
<p>Provision for outstanding claim <i>(Refer Note 3.14 "Benefits and claims"; Note 3.11 "Insurance contract liabilities"; Note 33 and Note 19 of the financial statements)</i></p>	
<p>Insurance claim is the major area of expense for the Company.</p> <p>The Company makes the complete provisions of the remaining amounts of the payment against the claim made by the Company before year-end and claims incurred but not reported (IBNR) is recognised as determined by the actuarial methods.</p> <p>Given the fact that the provision is required to be made in respect of outstanding claim and complexity of calculations, the same has been considered as Key Audit Matter in our audit of the financial statements of the Company.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ▪ Verified the operational mechanisms of the Company including the internal guidelines and standard operating procedures relating to claim processing, performed test of controls over claim settlement process and recording processes including analytical procedures on outstanding claims. ▪ Obtained clear understanding of the process and guidelines as per directives issued by the Insurance Authority for claim processing and compared their implementation and effectiveness in regard to internal operational guidelines relating to claim processing. ▪ Verified the claim paid and provision on sample basis along with evidence of payment, documentation as well as surveyor report and understanding the recording process in the books of account. ▪ In the case of IBNR, the amount of insurance contract liabilities has been estimated by the actuary appointed by the Company. The actuarial valuation of insurance contract liabilities in respect of IBNR and IBN(E)R claims as of Ashad 32, 2082 is as certified by the Company's appointed actuary. ▪ Verified the sufficiency and adequacy of related insurance contract liability based on report from the Company appointed actuary with the liabilities recognised in the financial statements. ▪ Examined the appropriateness and validity of key assumptions and information provided by the Company to the Company appointed actuary for valuation of insurance contract liabilities.

Key audit matters	How our audit addressed the key audit matter
<p>Revenue Recognition (Premium Income) <i>(Refer Note 3.13 "Revenue recognition" and Note 25 of the financial statements)</i></p>	
<p>Premium income comprises a major part of revenue which is recorded on issue of policy as prescribed by the Insurance Authority.</p> <p>Unearned premium income of previous and current fiscal year is recorded / adjusted as estimated by the Company appointed actuary and as prescribed by the directives issued by the Insurance Authority.</p> <p>Unearned premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned premiums are calculated on a daily pro-rata basis. The proportion attributable to subsequent periods is deferred as a provision for unearned premiums.</p> <p>Since the management considers revenue as key measure of evaluation of performance, there is a risk of revenue being recorded before control is transferred and is not recognised in the correct period.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ▪ Obtained and read the Company's revenue accounting policy on revenue recognition in accordance with the requirements of relevant standards. ▪ Understood and tested the design, implementation and operating effectiveness of key controls over premium collection and its recognition. ▪ Obtained clear understanding of the process of issuing the policies as per directives issued by the Insurance Authority and understood the process of booking such premium as income. ▪ Tested on a sample basis unallocated premium to ensure that there were no policies where risk assumed were prior to recognition of revenue and corresponding to collection of premiums. ▪ Verified on a sample basis the policies and other related documents including premium calculations therein as per regulatory requirements and internal policies of the Company along with premium / cash receipt with special attention to the timestamp thereto so as to ascertain the correctness of period of revenue recognition. ▪ Verified on a sample basis, the premium ceded to the reinsurers as per Reinsurance agreement / treaty with the reinsurers. ▪ Verified unearned premium income as assessed by the Company appointed actuary in the actuarial valuation report. ▪ Based on our audit procedures performed, we concluded that the premium income recognition is appropriate.
<p>Gain on disposal of FVOCI Instrument <i>(Refer Note 31 and statement of changes in equity of the financial statements)</i></p>	
<p>A financial asset is measured at FVOCI, if it is held with an objective to collect contractual cash flows and selling such financial asset and the contractual cash flows are solely payments of principal and interest on the principal outstanding. It is subsequently measured at fair value with fair value movements recognised in the other comprehensive income (OCI), except for the recognitions of impairment gains or losses, interest revenue and foreign exchange gain or</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> ▪ Obtained and read the Company's accounting policy on recognition of gain on disposal of FVOCI instruments in accordance with the requirements of NAS 39 – Financial Instruments: Recognition and Measurement read together with NFRS 9 – Financial Instruments. ▪ Checked the accuracy of the amount that has been recognised to retained earnings by analyzing both the historical and fair value

Key audit matters	How our audit addressed the key audit matter
<p>losses; interest revenue and foreign exchange gains and losses are recognised in profit or loss.</p> <p>The fair value gains or losses of FVOCI instruments are not recycled to profit or loss. Rather the gains or losses are reclassified to retained earnings upon actual disposal of the FVOCI instrument.</p> <p>Since fair value are not recycled to profit and loss upon actual disposal and is reclassified to retained earnings through statement of changes in equity, it poses certain challenges in evaluating the appropriateness and accuracy of the Company's judgement on the amount to be reclassified to retained earnings.</p> <p>As of the current fiscal year ended on Ashadh 32, 2082, the Company have recognised loss of Rs. 2,905,235 to the retained earnings for disposal of FVOCI instruments. The same has been considered as key audit matter in our audit of the financial statements of the Company.</p>	<p>adjustment to other comprehensive income (OCI) and the current disposal value of the FVOCI instruments.</p> <ul style="list-style-type: none"> ▪ Ascertained that the transaction costs related to the FVOCI instruments are charged to the same FVOCI instruments and not charged off in profit or loss. ▪ Verified the withholding capital gain taxes therein, wherever applicable, have been deposited with the regulatory authority. ▪ Evaluated the management's methodologies and the Company's internal procedures relating to accounting records of such FVOCI instruments. ▪ Verified from external sources and relevant documents including that from the custody sources that the disposal and subsequent transfer of FVOCI equity instruments are recorded in the correct reporting period. ▪ Based on our audit procedures performed, we concluded that the recognition of gain on disposal of FVOCI investments is appropriate.

Information other than the financial statements and auditor's report thereon

The management of the Company is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained during the course of audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement therein, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the financial statements

The management of the Company is responsible for the preparation and fair presentation of the financial statements in accordance with NFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with NSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with NSAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

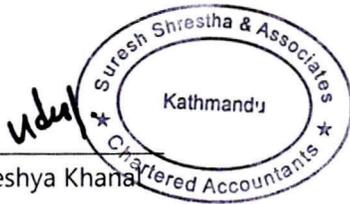

We report that:

- a. We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- b. In our opinion, proper books of account as required by law have been kept by the Company, so far as appears from our examination of those books.
- c. The enclosed statement of financial position, statement of profit or loss, statement of other comprehensive income and statement of cash flows have been prepared in conformity with provision of the Company Act, 2063 and format as prescribed by Nepal Insurance Authority and the same are in agreement with the books of account maintained by the Company.
- d. In our opinion and to the best of our information and according to the explanations given to us, the board or any member thereof or any employee of the Company has not acted against the

provision of law relating the accounts nor caused loss or damage to the Company or misappropriated the funds of the Company.

- e. To the best of our knowledge, the Company has maintained insurance fund and other mandatory reserves as prescribed by the directive issued by Nepal Insurance Authority.
- f. We did not obtain any information indicating engagement of the Company in activities other than insurance business as approved/licensed by Nepal Insurance Authority.
- g. We did not obtain any information indicating the Company's activities which are prejudicial to the interest of the insured.
- h. The Company has complied with the directive issue by Nepal Insurance Authority.
- i. We did not obtain any information indicating issuance of insurance policies other than as approved by Nepal Insurance Authority.
- j. It appears that all the financial and other information which is required to be reported/informed to the shareholders as per the prevalent laws has been provided to the shareholders.
- k. To the best of our knowledge, the Company is capable of bearing its long-term liabilities from its assets.
- l. The internal control system implemented by the Company was found to be effective.

HIMALAYAN EVEREST INSURANCE LIMITED

Notes forming Part of Financial Statements

For Period 16th July, 2024 - 16th July, 2025 (For the Year Ended Ashad 2082)

1. Company overview

Himalayan Everest Insurance Company Limited (hereinafter referred to as “the Company”) is a public limited liability company incorporated as per the laws of Nepal. The Company obtained the license (License number 04/050) from Nepal Insurance Authority on Shrawan 6, 2050 and got approval from the Authority to carry on business from Shrawan 13, 2050 under Insurance Act 2079. The Company started its commercial operation from Mangsir 16, 2050.

The registered office of the Company and the principal place of business is HEI House, Babar Mahal, Kathmandu, Nepal. The Company’s share is listed in Nepal Stock Exchange.

The Company is engaged in the business of underwriting non-life insurance through its branches and network of agents. There were no significant changes in the nature of principal activities in the company during the financial year.

The Company does not have any holding company and neither have any interest in subsidiaries. It has investment in Nepal Infrastructure Investment Fund Limited with significant stakes and accounted the same as investment in companies.

The company merged with Everest Insurance Limited and commenced joint operation in the name of the merged entity, Himalayan Everest Insurance Limited from Shrawan 1, 2079 (July 17, 2022).

2. Basis of preparation of financial statements

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Reporting period and approval of financial statement

a. Reporting dates

The company follows the Nepalese financial year based on the Nepalese calendar starting from first day of Shrawan of each year (mid-July) to the last day of Ashad (mid-July) of the next year.

b. Approval of financial statements

This financial statement was approved for issue by the Company’s board of directors on 11th Poush 2082 (26th December, 2025).

2.2 Statement of compliance

These financial statements, which comprise the statement of financial position, statement of profit or loss, statement of other comprehensive income, statement of changes in equity, statement of cash flows, and notes along with the relevant presentation requirements thereto have been prepared in all material aspects under Nepal Financial Reporting Standards (NFRS) laid down by the Accounting Standard Board (ASB), and comply with requirements of Company Act, 2063 of Nepal and applicable directives issued by Nepal Insurance Authority and required disclosures as per Securities Board Nepal. The Company adopted NFRS from Shrawan 1, 2074 (July 16, 2017). The format used in the preparation and presentation of the financial statements and disclosures made therein also complies with the specified formats prescribed in the directives of Nepal Insurance Authority.

The Financial Statements have been prepared on a going concern basis. The term NFRS, includes all the standards and the related interpretations which are consistently used.

2.3 Basis of measurement

These financial statements are prepared under the historical cost convention, except for certain assets and liabilities measured as follows as follows:

- a. Investment in equity instruments and units of mutual funds are measured at fair value.
- b. Liability for defined benefit obligations is recognized at the present value of the defined benefit obligation as determined by the actuary.
- c. Insurance contract liabilities are actuarially determined values under the Actuarial Valuation Directive issued by Nepal Insurance Authority.

Historical cost is generally the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, or 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs used for fair value measurement in its entirety, which are described as follows:

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 - Inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 - Inputs are unobservable inputs for the asset or liability.

The Company presents its statement of financial position broadly in the order of liquidity.

2.4 Use of estimates and judgements

The preparation of financial statements in conformity with NFRS requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period; they are recognized in the period of the revision and future periods if the revision affects both current and future periods.

The followings are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Critical accounting estimates / judgements	Disclosure note
Unexpired risk reserve (URR)	Note 3.11(a)
Provision for gross outstanding claims (OCR)	Note 3.11(b)
Provision for incurred but not reported claims (IBNR)	Note 3.11(c)
Margin over best estimate	Note 3.11(d)
Earthquake reserve	Note 3.11(e)
Employee benefits	Note 3.12(a), (b) and (c)
Useful lives of property, plant and equipment	Note 3.1(d)
Useful lives of intangible assets	Note 3.2(b)(v)

c. Insurance contract liabilities

For insurance contracts, estimates have to be made both for the expected ultimate cost of claims reported at the date of statement of financial position and for the expected ultimate cost of claims incurred, but not yet reported (IBNR). It can take significant period of time before the ultimate claims cost can be established with certainty. The main assumption underlying estimating the amounts of outstanding claims is the past claims development experience.

d. Defined benefit obligation

The defined benefit obligation liability of the Company is based on the actuarial valuations carried out by an independent actuary. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases and mortality rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is very sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

e. Useful lives of property, plant and equipment and intangible assets

As described in the significant accounting policies, the Company reviews the estimated useful lives of property, plant and equipment and intangible assets at the end of each reporting period.

2.5 Functional and presentation currency

The financial statements are presented in Nepalese Rupees (Rs.), which is the functional and presentation currency of the Company. Amounts in the financial statements are rounded off to the nearest rupee.

2.6 Going concern

The board of directors have made assessment of the Company's ability to continue as going concern and are satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as going concern and accordingly, the financial statements continue to be prepared on the basis of going concern.

2.7 Changes in accounting policy

Accounting policies are the specific principles, bases, conventions, rules and practices applied by the Company in preparing and presenting financial statements. The Company changes its accounting policy only if the change is required by a standard or interpretation; or results in the financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the company's financial position, financial performance, or cash flows.

2.8 New standard issued but not yet effective

New standards and amendments to the existing standards and interpretations have been issued by ICAN with varying effective dates. Those become applicable from the financial year beginning from Shrawan 1, 2080 (July 17, 2023).

Standards issued but not yet effective up to the date of issuance of the financial statements are set out below. The Company will adopt these standards from their effective dates.

a. NFRS 17 – Insurance Contract

NFRS 17 and will replace NFRS 4 – Insurance Contract. Under the NFRS 17 model, insurance contract liabilities will be calculated as the present value of future insurance cash flows with a provision for risk. The discount rate will reflect current interest rates. NFRS 17 requires an entity to recognize profit as it delivers insurance services, rather than when it received premium and to provide information about insurance contract profit that an entity expects to recognize in the future period.

NFRS 17 becomes effective from financial year commencing from Shrawan 1, 2082 (July 16, 2025). The management of the Company is assessing the potential impact in its financial statements from the application of this standard.

2.9 Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position, only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or to realize the assets and settle the liabilities simultaneously. Income and expenses are not offset in the Statement of Profit or Loss unless required or permitted by Nepalese Financial Reporting Standards or Interpretation (issued by the International Financial Reporting Interpretations Committee (IFRIC) and Standard Interpretations Committee (SIC) and as specifically disclosed in the Significant Accounting Policies of the Company.

2.10 Presentation of financial statements

The assets and liabilities of the Company presented in the Statement of Financial Position are grouped by the nature and listed in an order that reflects their relative liquidity and maturity pattern.

2.11 Materiality and aggregation

Each material class of similar items is presented separately in the financial statements. Items of dissimilar nature or function are presented separately unless that are material.

3. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

3.1 Property, plant and equipment

a. Recognition of property, plant and equipment

The cost of an item of property, plant and equipment is recognized as assets if and only if:

- It is probable that future economic benefits associated with the item will flow the Company; and
- The cost of the item can be measured reliably.

b. Initial recognition

Property, plant and equipment are stated at historical cost less depreciation, and impairment loss, if any. Historical cost includes expenditure that is directly attributable to the acquisition of an item of property, plant and equipment.

c. Subsequent recognition

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

d. Depreciation method, estimated useful lives and residual value

Depreciation is calculated using the straight-line method over their useful lives. The estimated useful lives of property, plant and equipment is as follows:

Class of property, plant and equipment	Useful life
Building	60 years
Leasehold property	5 years
Furniture and fixtures	10 years
Computers	5 years
Office equipment	5 years
Other assets	10 years
Vehicles	10 years

Freehold land is not depreciated.

Residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted if appropriate.

e. Disposals and derecognition

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the property, plant and equipment and is recognized in the statement of profit or loss.

f. Impairment of property, plant and equipment

Property, plant and equipment are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

g. Capital work-in-progress

These are expenses of capital nature directly incurred in the construction of buildings, and system development which are to be capitalized. Capital work-in-progress are capitalized to relevant asset when it is available for use. Capital work-in-progress is stated at cost less accumulated impairment losses, if any.

3.2 Goodwill and intangible assets

a. Goodwill on business combination

i. Initial recognition

Goodwill on business combination is measured as the excess of the sum of the consideration transferred over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, the net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the excess is recognized immediately in the statement of profit or loss as a bargain purchase gain.

ii. Amortization and impairment

Goodwill is not amortized but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Company's cash-generating units expected to benefit from the synergies of the combination. If the recoverable amount of the cash-generating unit is less than the carrying amount of the unit, the impairment loss is allocated to reduce the carrying amount of any goodwill allocated to the unit. An impairment loss recognized for goodwill is not reversed in a subsequent period.

b. Other intangible assets

iii. Initial recognition

Intangible assets are recognized if it is probable that future economic benefits that are attributable to the asset will flow to the Company and the cost of the asset can be measured reliably. Intangible asset acquired separately are measured at cost. Cost includes expenditure that is directly attributable to the acquisition of an item of intangible assets. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

iv. Subsequent recognition

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in statement of profit or loss as incurred.

v. Amortization

The useful lives of intangible assets are assessed to be either finite or indefinite. An item of intangible asset is regarded as having an indefinite useful life when, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected generate net cash inflow for the Company.

The useful economic life of an intangible asset is considered finite where the right to such asset is limited to a specified period of time by contract or by the likelihood of technological obsolescence. Intangible assets with finite lives are amortized using the straight-line method to write down the cost over its estimated useful economic lives and is recognized in statement of profit or loss.

Class of intangible assets	Useful life
Enterprise Resource Planning Software	15 years
Other software	5 years

The amortization method, useful lives and residual values are reviewed at each financial year end and adjusted if appropriate.

vi. Derecognition

Intangible assets are derecognized upon disposal or when no future economic benefits are expected from their use. Any gain or loss arising on derecognition of the asset, is recognized in statement of profit or loss in the year the asset is derecognized.

vii. Impairment

The Company assesses at each reporting date whether there is any indication that intangible assets may be impaired. If any such indication exists, the recoverable amount of an asset is estimated to determine the extent of impairment, if any. An impairment loss is recognized in the statement of profit or loss to the extent, asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less cost of disposal and value in use. Value in use is based on the estimated future cash flows, discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specific to the assets.

Intangible assets with infinite useful life such as license are not amortized but are assessed for impairment in each reporting period or as and when there is indication of impairment. The assessment of infinite life is reviewed each reporting period to determine whether the infinite life continues to be supportable.

3.3 Investment properties

Property that is held for rental income or for capital appreciation or both, is classified as investment property. Investment properties are measured initially at cost, including related transaction cost. It is subsequently carried at cost less accumulated depreciation. Subsequent expenditure is capitalized to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

Land previously carried at historical cost, however, has been revalued and presented accordingly in the financial statement. buildings are depreciated over their estimated useful lives as mentioned above.

Investment properties are derecognized either when they have been disposed of, or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the statement of profit or loss in the year of retirement or disposal.

Transfers are made to (or from) investment property only when there is a change in use. For a transfer from investment property, the Company accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

As on the date of the statement of financial position, the company does not have any investment properties.

3.4 Cash and cash equivalents

Cash and cash equivalents include cash on hand, balances with banks and financial institutions in current and short-term deposits that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

3.5 Financial instruments, financial assets and financial liabilities

Financial assets and financial liabilities are recognized when the Company becomes party to the contractual provisions of the relevant instrument and are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value on initial recognition of financial assets or financial liabilities.

a. Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortized cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are either recorded in statement of profit or loss or other comprehensive income.

The Company reclassifies financial assets when and only when its business model for managing those assets changes.

b. Financial assets

Financial assets include loans, advances, insurance receivables and cash and cash equivalents. Such assets are initially recognized at transaction price when the Company becomes party to contractual obligations. The transaction price includes transaction costs unless the asset is being measured at fair value through statement of profit or loss and other comprehensive income.

i. Subsequent measurement

Financial assets are subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both (a) the entity's business model for managing the financial assets and (b) the contractual cash flow characteristics of the financial asset.

Financial assets are classified as those:

• Measured at amortized cost

A financial asset is measured at amortized cost, if it is held solely for collection of cash flows arising from payments of principal and interest. Interest income in these financial assets is measured using the effective interest rate method.

Fixed deposits with banks and financial institutions, advances, insurance receivables and cash and cash equivalents are classified for measurement at amortized cost.

• Measured at fair value through other comprehensive income (FVOCI)

A financial asset is measured at FVOCI, if it is held with an objective to collect contractual cash flows and selling such financial asset and the contractual cash flows are solely payments of principal and interest on the principal outstanding. It is subsequently measured at fair value with fair value movements recognized in the other comprehensive income (OCI), except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other gains or losses. Interest income from these financial assets is included in investment income using the effective interest method.

However, in respect of particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, an irrevocable election at initial recognition may be made to present subsequent changes in fair value through other comprehensive income.

• Measured at fair value through profit or loss (FVPL)

Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in investment income.

ii. Derecognition of financial assets

Financial assets are derecognized when the right to receive cash flows from the assets has expired, or has been transferred, and the Company has transferred substantially all of the risks and rewards of ownership. Financial

assets are also derecognized upon write off. Any gain or loss arising on the disposal or retirement of an item of financial asset is determined as the difference between the sales proceeds and its carrying amount and is recognized in the statement of profit or loss.

iii. Impairment of financial assets

The Company assesses at each reporting date whether a financial asset (or a group of financial assets) held at amortized cost and financial assets that are measured at fair value through other comprehensive income are impaired based on evidence or information that is available without undue cost or effort. Loss allowances is recognized for all financial assets which are considered as doubtful of recovery. Losses arising from impairment are recognized in the statement of profit or loss.

c. Financial liabilities

Insurance payables, sundry creditors and other financial liabilities are initially recognized at the value of the respective contractual obligations.

i. Subsequent measurement

After initial recognition, financial liabilities are subsequently measured at amortized cost. Any discount or premium on redemption / settlement is recognized in the statement of profit or loss as finance cost over the life of the liability using the effective interest method and adjusted to the liability figure disclosed in the statement of financial position.

ii. Derecognition

Financial liabilities are derecognized when the liability is extinguished, that is, when the contractual obligation is discharged, cancelled or expired.

d. Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

3.6 Reinsurance assets

The Company cedes insurance risk in the normal course of business to recognize reinsurers through formal reinsurance arrangements. Reinsurance assets include balance due from reinsurer for unexpired premium reserve and for outstanding claim reserve. Amount recoverable from reinsurers are estimated in a manner consistent with the ratio of unexpired premium reserve to gross premiums that have been ceded and with the ratio of outstanding claim reserve recoverable from reinsurers in accordance with the related reinsurance contract.

Reinsurance assets is measured in gross in the statement of financial position unless a right to offset exists. Where the right to offset exists, these are measured at net basis.

Reinsurance assets are reviewed for impairment at each reporting date, or more frequently, when an indication of impairment arises during the reporting period. Impairment occurs, when there is objective evidence as a result of an event that occurred after initial recognition of reinsurance asset that the Company may not receive all outstanding amounts due under the terms of the contract and the event has a reliably measurable impact on the amount that the Company will receive from the reinsurers.

The impairment loss, if any, is recognized in the statement of profit or loss.

Reinsurance assets are derecognized when the contractual rights are extinguished or expire or when the contract is transferred to another party.

3.7 Current tax assets and current tax liabilities

Current tax assets of the company include the amount of advance income tax paid to the Inland Revenue

Department and tax deducted at source. Similarly, current tax liabilities include the tax provision made for the year.

Current tax assets and liabilities consist of amounts expected to be recovered from or paid to Inland Revenue Department in respect of the current year, using the tax rates and tax laws enacted or substantively enacted on the reporting date and any adjustment to tax payable in respect of prior years.

Current tax assets and current tax liabilities are shown in net in statement of financial position of the company as there exist condition to set off both assets and liabilities.

3.8 Other assets

Deferred fees and commission expenses

Fees and commission expenses incurred during the financial year arising from writing or renewing of insurance contracts are deferred and amortized over the period in which the related revenues are earned. All other costs are recognized as expenses when incurred.

3.9 Share capital

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability.

3.10 Reserve and funds

a. Share premium

It represents amount collected in excess of the face value of shares on auction of unsubscribed right shares. This amount may be utilized for issuing fully paid bonus shares to the ordinary shareholders.

b. Revaluation reserves

Represents unrealized gain on revaluation adjustment to carrying amount of assets and cannot be used for distribution.

c. Special reserve

Represents appropriation of 50% of net profit for the year as per Insurance Act, 2079. The fund maintained for one category cannot be utilized to bear the liabilities relating to other category of Insurance Business. During the year, the amount appropriated to the fund is based on the profit for the year as per the financial statement prepared under the regulator's directive.

d. Capital reserve

It represents funds used for contingencies or to offset capital losses. It is derived from the accumulated capital surplus of a company, created out of capital profit.

e. Catastrophe reserves

Represents appropriation of 10% of profit for the year remaining after appropriation to insurance fund, segregated for significant insurance claims that might have adverse impact on financial stability. This reserve is not available for distribution to the ordinary shareholders.

f. Corporate social responsibility reserve

Represents reserve established under regulatory requirement by apportioning 1% of profit for the year to be expended towards CSR initiatives.

g. Fair value reserves

Represents the cumulative gains (net of losses) arising on the revaluation of equity Instruments and units of mutual fund measured at FVOCI.

h. Actuarial reserves

Represents the cumulative gains / (losses) arising on actuary valuation of gratuity, a defined benefit plan resulting from experience adjustment (the effects of differences between the previous actuarial assumptions

and what has occurred; and the effects of changes in actuarial assumptions.)

i. Deferred tax reserve

Represents amount appropriated from retained earnings for an amount equal to deferred tax assets recognized.

j. Regulatory reserves

Represents excess amount of retained earnings and profit reported under financial statement prepared under NFRS compared to retained earnings and profit reported under GAAP. This amount has been appropriated to retained earnings after regulatory allocations stated by Insurer's Financial Statement Directives, 2080, during the previous reporting period.

3.11 Insurance contract liabilities

Insurance contract liabilities include outstanding claim reserve (OCR) including liability recognized for incurred but not reported (IBNR) claims and provision for unearned risk premiums (UPR). Insurance contract liabilities are derecognized when the obligation to pay a claim expires, is discharged or is cancelled.

a. Unearned risk reserve (URR)

Unearned risk reserve includes a provision for unearned premium and any additional provision for premium deficiency. Unearned risk premiums represent premiums received for risks that have not yet expired and is generally released over the term of the insurance contract and is recognized as earned premiums.

As required by NFRS 4 – Insurance Contracts, the Company performed liability adequacy test (LAT) with respect of URR on general insurance contracts with the assistance of an external actuary. Liability for URR is recognized based on liability assessed by Actuary.

b. Outstanding claim reserve (OCR)

Outstanding claim reserve is based on the estimated ultimate cost of all claims incurred but not settled at the reporting date, whether reported or not, together with related claim handling cost and reduction for the expected value of salvage and other recoveries. Delays are experienced in notification and settlement of certain types of claims; therefore, the ultimate actual cost of the claims cannot be ascertained with certainty as at the date of statement of financial position.

As required by NFRS 4 – Insurance Contracts, the Company performed liability adequacy test (LAT) with respect of OCR on general insurance contracts with the assistance of an external actuary. Liability for OCR is recognized based on liability assessed by Actuary.

c. Incurred but not reported (IBNR) claims

Incurred but not reported (IBNR) claims are actuarially computed as required by NFRS 4 – Insurance Contracts. Liability of IBNR is recognized based on liability assessed by Actuary.

d. Margin over best estimate

Margin over best estimate (MOBE) is actuarially calculated as required by the Risk Based Capital and Solvency Directive, 2078 to reflect the inherent uncertainty in cash flows related to incurred but not reported claims (IBNR) and is calculated to ensure a confidence level of not lower than 75%.

e. Earthquake reserve

Earthquake reserve is the accumulation of earthquake premiums and is calculated at 15% of accumulated earthquake premium. Any earthquake premium contributed to the EPR shall remain in the reserves, up to 150% of the highest gross premium amounts of the last 5 years.

f. Liability Adequacy

At each reporting date, the Company reviews its unexpired risk and a liability adequacy test is performed to determine whether there is any overall excess of expected claims and deferred acquisition costs over unearned premiums. The calculation uses current estimates of future contractual cash flows after taking account of the investment return expected to arise on assets relating to the relevant non-life insurance technical provisions. If these estimates show that the carrying amount of the unearned premiums is inadequate, the deficiency is

recognized in the statement of profit or loss by setting up a provision for liability.

3.12 Employee benefits

a. Short-term obligations

Expenses in respect of short-term benefits are recognized on the basis of amount paid or payable during which services are rendered by the employees. Liabilities for salary and allowances that are expected to be settled wholly within 12 months after the end of the financial year in which the employees render the related services are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

b. Post-employment obligations

i. Defined contribution plan

These are plans in which the Company pays pre-defined amounts to publicly administered funds as per local regulations and does not have any legal or informal obligation to pay additional sums. These comprise of contributions to the social security fund with the government on account of provident fund. The Company's payments to the defined contribution plans are recognized as employee benefit expenses when they are due.

ii. Defined benefit plan

The Company's defined benefit plans comprise of gratuity. The liability or asset recognized in the statement of financial position in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

Service costs and net interest expense or income is reflected in the statement of profit or loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. They are included in OCI reserve as actuarial reserve in the statement of changes in equity and in the statement of financial position. Gratuity is funded and these comprise of contributions to the social security fund with the government.

c. Long-term employee benefits

The liabilities for earned leaves are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. Leave Encashment has been computed using actuarial assumptions and these are measured at the present value of expected future payments to be made in respect of services provided by employees up to the end of the year using the projected unit credit method. The benefits are discounted using the market yields at the end of the year that have terms approximating to the terms of assumptions. This benefit is unfunded.

d. Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary retirement in exchange of these benefits. The Company recognizes termination benefits at the earlier of the following dates:

- when the Company can no longer withdraw the offer of those benefits; and
- when the entity recognizes costs for a restructuring that is within the scope of NAS 37 and involves the payment of termination benefits.

The termination benefits are measured based on the number of employees expected to accept the offer in case of voluntary retirement scheme.

3.13 Revenue recognition

a. Gross premiums

Gross premiums comprise the total premium received or receivable for the whole period of cover provided by insurance contract entered during the financial year. Gross premium is generally recognized upon inception of the insurance contract policy. Upon inception of the contract, premiums are recorded as and are earned primarily on a pro-rate basis over the term of the coverage of related insurance contract.

Unexpired risk reserve are those proportions of premiums written in a financial year that relate to periods of risks after the reporting date. Unexpired premiums are calculated on 365 days basis for all insurance contracts having an insurance coverage period of one year. However, in the case of marine cargo policies, having an insurance coverage period of less than one-year, unearned premiums are calculated on 365 days basis of the insurance contract and where the insurance coverage is for a period of more than one year or in the absence of data required, unearned premiums are calculated at 50% of the gross premiums.

The proportion attributable to subsequent periods is deferred as provision for unexpired risk reserve which is included under liabilities.

b. Premiums ceded to reinsurers

Gross reinsurance premiums on insurance contracts are recognized as an expense on the earlier of the date when the premiums are payable or when the policy becomes effective. Reinsurance premiums are based on the rates agreed with reinsurers.

Unearned reinsurance premiums are those proportions of premiums written in a year that relate to periods of risk after the reporting date. Unearned reinsurance premiums are deferred over the term of the underlying direct insurance policies for risks- attaching contracts and over the term of the reinsurance contract for losses occurring contracts.

Reinsurance premiums and claims on the face of the statement of profit or loss have been presented as negative items within premiums and net claims, respectively, because this is consistent with how the business is managed.

c. Fees and commission income

Fees and commission income earned during the financial year arising on premium ceded to reinsurers are recognized when the related service is performed in accordance with the insurance contract. The portion of fees and commission income for which the insurance contract is not expired is deferred and amortized over the period in which the related revenues are earned.

d. Investment income

i. Interest income

Interest income is recognized as it accrues, using the effective interest method.

ii. Dividend income

Dividend income from investments in equity instruments and from investment in units of mutual funds is recognized when the right to receive dividend is established.

e. Net realized gains and losses

Net realized gains and losses recorded in the statement of profit or loss include gains and losses on financial assets and properties. Gains and losses on the sale of investments are calculated as the difference between net sales proceeds and the original or amortized cost and are recorded on occurrence of the sale transaction.

3.14 Benefits and claims

a. Gross benefits and claims

Claims include all claims occurring during the financial year, whether reported or not together with claims handling costs that are directly related to the processing and settlement of claims, a reduction for the value of salvage and other recoveries, and any adjustments to claims outstanding from previous years. Claims outstanding are assessed by review of individual claim files and estimating changes in the ultimate cost of settling claims.

The provision in respect of claims incurred but not reported (IBNR) is actuarially determined based on the past experience and trends. The provisions for claims are fairly stated based on the information currently available, the ultimate liability will vary as a result of subsequent information and events which may result in adjustments to the amount reported. Such amounts are recorded and reflected in such subsequent periods.

b. Claims recovered from reinsurers

Claims recovered from reinsurers are recognized when the related gross insurance claim is recognized according

to the terms of the relevant insurance contract.

3.15 Product classification

Insurance contracts are those contracts when the Company has accepted significant insurance risk from the policyholders by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders. As a general guideline, the Company determines whether it has significant insurance risk by comparing benefits paid with benefits payable if the insured event did not occur. Insurance contracts can also transfer financial risk. The Company has following portfolios under which it operates its business:"

a. Fire portfolio

Fire insurance business means the business of affecting and carrying out contracts of insurance, otherwise than incidental to some other class of insurance business, against loss or damage to property due to fire, explosion, storm and other occurrences customarily included among the risks insured against in the fire insurance business.

b. Motor portfolio

Motor insurance business means the business of affecting and carrying out contracts of insurance against loss of, or damage to, or arising out of or in connection with the use of motor vehicles, inclusive of third-party risks but exclusive of transit risks.

c. Marine portfolio

Marine insurance business means the business of affecting and carrying out contracts of insurance against loss of consignment of goods during transit.

d. Engineering portfolio

Engineering insurance business means the insurance that provides economic safeguard to the risks faced by the ongoing construction project, installation project, and machines and equipment in project operation.

e. Micro portfolio

Micro Insurance protects against loss of or damage to crops or livestock. It has great potential to provide value to low-income farmers and their communities, both by protecting farmers when shocks occur and by encouraging greater investment in crops.

f. Aviation portfolio

Aviation Insurance provides coverage for hull losses as well as liability for passenger injuries, environmental and third-party damage caused by aircraft accidents.

g. Cattle and crop portfolio

Cattle and Crop Insurance provide insurance against loss of or damage to cattle and crops.

h. Miscellaneous portfolio

All the insurance business which does not fall in above categories fall under miscellaneous insurance business. Group personal accidents, medical insurances, professional indemnity insurance etc. fall under this category of business.

3.16 Borrowing cost

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in statement of profit or loss in the period in which they are incurred.

3.17 Cash flow statement

Cash Flows are reported using the direct method, whereby major classes of cash receipts and cash payments are disclosed as cash flows.

3.18 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as lessee

Right-of-Use (ROU) assets are recognized at inception of a contract or arrangement for significant lease components at cost less lease incentives, if any. ROU assets are subsequently measured at cost less accumulated amortization and impairment losses, if any. The cost of ROU assets includes the amount of lease liabilities recognized, initial direct cost incurred and lease payments made at or before the lease commencement date. ROU assets are generally amortized over the shorter of the lease term and estimated useful lives of the underlying assets on a straight-line basis. Lease term is determined based on consideration of facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Lease payments associated with short-term leases and low value leases are charged to the statement of profit and loss on a straight-line basis over the term of the relevant lease. The Company recognizes lease liabilities measured at the present value of lease payments to be made on the date of recognition of the lease. Such lease liabilities do not include variable lease payments (that do not depend on an index or a rate), which are recognized as expense in the periods in which they are incurred. Interest on lease liability is recognized using the effective interest method.

Lease liabilities are subsequently increased to reflect the accretion of interest and reduced for the lease payments made. The carrying amount of lease liabilities is also remeasured upon modification of lease arrangement or upon change in the assessment of the lease term. The effect of such remeasurements is adjusted to the value of the ROU assets.

3.19 Income tax

a. Current tax

Current tax in the statement of profit or loss is provided as the amount of tax payable in respect of taxable income for the period using tax rates and tax laws applicable during the period, together with any adjustment to tax payable in respect of previous years.

b. Deferred tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that the future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax relating to items recognized outside the statement of profit or loss is recognized outside statement of profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

3.20 Provisions, contingent liabilities and contingent assets

a. Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. The carrying amounts of provisions are reviewed at each date of statement of financial position and adjusted to reflect the current best estimate.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

b. Contingent Liabilities

Contingent liabilities are recognized only when there is a possible obligation arising from past events due to occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made. Obligations are assessed on an ongoing basis and only those having a largely probable outflow of resources are provided for.

c. Contingent Assets

Contingent assets where it is probable that future economic benefits will flow to the Company are not recognized but are disclosed in the financial statements.

3.21 Foreign currency transactions

Foreign currency transactions are translated into the functional currency using the exchange rates at the date of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognized in statement of profit or loss.

3.22 Dividend distribution

Dividends paid are recognized in the period in which the interim dividends are approved by the board of directors, or in respect of the final dividend when approved by shareholders.

3.23 Earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the company by the weighted average number of equity shares outstanding during the financial year.

For diluted earnings per share, the weighted average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares.

3.24 Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the management team of the Company comprising of the chief executive officer and various department heads.

The Company has identified the following line of insurance business as separate segment

- Fire
- Marine
- Motor
- Engineering
- Aviation
- Miscellaneous
- Agriculture and
- Micro

Segments are organized based on business which have similar economic characteristics as well as which exhibit similarities in nature of products and services offered the type and class of customer and distribution methods.

Segments includes total profit distribution of the Company to all its line of businesses. The premium income, reinsurance premium expenses, gross claims and claims recovered from reinsurers, outstanding claims, other direct expenses and income, fees and commission income, other operating and administrative expenses are allocated to each line of business.

“Unallocated corporate expenses” include revenue and expenses that relate to initiatives / costs attributable to the enterprise as a whole and are not attributable to specific segments.

(ii) Fair value of investment properties

Particulars	Current Year	Previous Year
Land	-	-
Building	-	-
Total	-	-

Notes on Cost :

The Company obtains independent valuations for its investment properties. The best evidence of fair value is current prices in an active market for similar properties. Where such information is not available, the Company consider information from a variety of sources including :

- i) current prices in an active market for properties of different nature or recent prices of similar properties in less active markets, adjusted to reflect those differences,
- ii) discounted cash flow projections based on reliable estimates of future cash flows,
- iii) capitalised income projections based upon a property's estimated net market income, and a capitalization rate derived from an analysis of market evidence.

The fair values of investment properties have been deteremined byThe main inputs used are the rental growth rates, expected vacancy rates, terminal yields and discount rates based on comparable transctions and industry data.

(iii) Disclosure on restriction on the realisability of investment properties:
(iv) Contractual obligations:

45. Fair Value Measurements
(i) Financial Instruments by Category & Hierarchy

This section explains the judgements and estimates made in determining the Fair Values of the Financial Instruments that are (a) recognised and measured at fair value and (b) measured at Amortised Cost and for which Fair Values are disclosed in the Financial Statements.

Fig. in NPR

Particulars	Level	Current Year			Previous Year		
		FVTPL	FVOCI	Amortised Cost	FVTPL	FVOCI	Authorised Cost
Investments							
i) Investment in Equity Instruments		-	-	-			
Investment in Equity (Quoted)	1	-	564,467,559	-	-	472,124,532	-
Investment in Equity (Unquoted)	3	-	568,656,761	-	-	284,560,000	-
ii) Investment in Mutual Funds	1	-	119,968,378	-	-	56,277,589	-
iii) Investment in Preference Shares of Bank and Financial Institutions	-	-	-	-	-	-	-
iv) Investment in Debentures	3	-	-	288,564,518	-	-	260,266,518
v) Investment in Bonds (Nepal Government/ NRB/ Guaranteed by Nepal Government)	-	-	-	-	-	-	-
vi) Fixed Deposits	3	-	-	3,700,574,200	-	-	3,745,045,600
vii) Others (to be specified)		-	-	-	-	-	-
Loans		-	-	-	-	-	-
Other Financial Assets	3	-	-	114,113,235	-	-	86,397,271
Cash and Cash Equivalents	1	-	-	145,744,832	-	-	175,773,574
Total Financial Assets		-	1,253,092,698	4,248,996,785	-	812,962,121	4,267,482,963
Borrowings		-	-	-	-	-	-
Other Financial Liabilities	3	-	-	197,915,910	-	-	212,553,341
Total Financial Liabilities		-	-	197,915,910	-	-	212,553,341

Level 1: Level 1 Hierarchy includes Financial Instruments measured using Quoted Prices.

Level 2: Fair Value of Financial Instruments that are not traded in an active market is determined using valuation techniques which maximises the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to determine Fair Value of an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

There is no transfer of Financial Instruments between different levels as mentioned above during the year.

(ii) Valuation Technique Used to Determine Fair Value

- Use of quoted market prices or dealer quotes for similar instruments
- Fair Value of remaining financial instruments is determined using discounted cash flow analysis

HIMALAYAN EVEREST INSURANCE LIMITED
Notes to the Financial Statements

As at Ashad End, 2082 (July 16, 2025)

(iii) Valuation Process

The finance and accounts department of the Company performs the valuation of financial assets and liabilities required for financial reporting purposes.

Discussion on Valuation processes and results are reviewed at least once in a year.

The main level 3 inputs are derived and evaluated as follows:

- a) Discount rate is arrived at considering the internal and external factors.
- b) Discounting has been applied where assets and liabilities are non-current, and the impact of the discounting is material

(iv) Fair Value of Financial Assets and Liabilities Measured at Amortised Cost

Particulars	Current Year		Previous Year	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Investments				
i) Investment in Preference Shares of Bank and Financial Institutions	-	-	-	-
ii) Investment in Debentures	288,564,518	288,564,518	260,266,518	260,266,518
iii) Investment in Bonds (Nepal Government/ NRB/ Guaranteed by Nepal Government)	-	-	-	-
iv) Fixed Deposit	3,700,574,200	3,700,574,200	3,745,045,600	3,745,045,600
v) Others (Unquoted Equity Shares)	-	-	-	-
Loans				
i) Loan to Employees	-	-	-	-
ii) Others (to be Specified)	-	-	-	-
Other Financial Assets	114,113,235	114,113,235	86,397,271	86,397,271
Total Financial Assets at Amortised Cost	4,103,251,953	4,103,251,953	4,091,709,389	4,091,709,389
Borrowings				
i) Bonds	-	-	-	-
ii) Debentures	-	-	-	-
iii) Term Loans - Bank and Financial Institution	-	-	-	-
iv) Bank Overdrafts	-	-	-	-
v) Others (to be Specified)	-	-	-	-
Other Financial Liabilities	197,915,910	197,915,910	212,553,341	212,553,341
Total Financial Liabilities at Amortised Cost	197,915,910	197,915,910	212,553,341	212,553,341

The fair values of the above financial instruments measured at amortised cost are calculated based on cash flows discounted using current discount rate.

The carrying amounts of cash and cash equivalents are considered to be the same as their fair values due to their short-term nature.

HIMALAYAN EVEREST INSURANCE LIMITED

Notes to the Financial Statements

As at Ashad End, 2082 (July 16, 2025)

46. Risk management framework

46.1 Governance framework

The primary objective of the Company's risk and financial management framework is to ensure that it will be above to continue as a going concern so that can continue to provide returns to the shareholders through sustainable achievement of financial performance objective. Key management recognizes the critical importance of having efficient and effective risk management systems in place.

The board of directors and senior management manages the risks through various committees and delegated authorities. As part of the important activity within the Company, the risks are reviewed on a regular basis and strategies are timely adopted to manage these risks. The risks are identified with clear understanding of the market environment, regulatory environment and economic changes.

46.2 Insurance risks

The principal risk the Company is subjected to under the insurance contract is that actual claims and benefits payments or the timing thereof may differ from expectations. This is influenced by the frequency of the claims, severity of claims, actual benefits paid and subsequent development of long-term claims. The objective of the Company is therefore to ensure that sufficient reserves are available to cover these liabilities.

The risk exposure is mitigated by diversification across portfolio of insurance contracts. The risk is also mitigated by careful selection and implementation of underwriting guidelines as well as use of reinsurance arrangements.

The Company considers insurance risk to be a combination of the following components:

- Product design risk
- Product pricing
- Underwriting risk
- Claim risk
- Reinsurance risk
- Reserving

a. Product design risk

The Company issues general insurance contracts such as fire, marine, motor, marine, engineering, micro, aviation, cattle and crop and miscellaneous. The significant risks arising under the general insurance portfolio are from changes in the climate leading to natural disasters, behavioral trends of peoples due the change in their lifestyles and steady escalation of costs in respect of motor industry.

The above risk exposure is mitigated by diversification across a large portfolio of insurance contracts and geographical areas. Variability of risk is improved by careful selection and implementation of underwriting strategies, which are designed to ensure that risks are diversified in the term of type of risk.

The Company's insurance risk based on the line of business concentration is as follows:

Particulars	For the year ended Ashadh 32, 2082 (July 16, 2025)		For the year ended Ashad 31, 2081 (July 15, 2024)	
	Gross written Premium	Concentration Percentage	Gross written Premium	Concentration Percentage
Fire	932,398,693	22%	680,356,188	18%
Motor	1,274,211,397	30%	957,192,953	25%
Marine	129,160,493	3%	82,056,489	2%
Engineering	870,422,089	20%	735,957,195	20%
Micro	600	0%	600	0%
Aviation	49,813,125	1%	329,303,834	9%
Cattle and crop	34,814,969	1%	38,494,365	1%
Miscellaneous	995,505,140	23%	938,632,945	25%
Total	4,286,326,506	100%	3,761,994,569	100%

HIMALAYAN EVEREST INSURANCE LIMITED
Notes to the Financial Statements

As at Ashad End, 2082 (July 16, 2025)

The pricing of an insurance product involves the estimation of claims, operational and financing costs and the income arising from investing the premium received. The pricing process typically comprises collecting data on the underlying risks to be covered, determining the pricing assumptions and the base rate, setting the final premium rate, and monitoring the review of the appropriateness of pricing.

The Company collects adequate data to validate the reasonableness of the underlying assumptions used for pricing. The base rate represents the amount required to meet the value of anticipated benefits, expenses, and margins for risks and profit. Data primarily relates to the company's own historical experience and that of the industry where relevant. These may be supplemented by other internal and external data and could include trends observed in claims costs and expenses.

Pricing is done by modelling all identified risks, using appropriate methodologies depending on the complexity of the risks and available data. Adequate buffers are kept in the premiums to cushion against the risk that actual experience may turn out to be worse than expected.

c. Underwriting risk

Underwriting involves measuring risk exposure and determining the premium that needs to be charged to undertake the insurance risk. Underwriting risks generally arise either from an inaccurate assessment of the risks entailed in writing and insurance policy or from factors wholly out of the underwriter's control.

The majority of the underwriting risk to which the Company is exposed is of a short-term nature, and generally does not exceed 12 months. The company's underwriting strategy aims to ensure that the underwritten risks are well diversified in terms of the type, amount of risk, and geography in order to ensure that the Company minimises the volatility of its insurance result.

The above risk exposure is mitigated by improving the knowledge and skills of the underwriting staff. Further, a statistical database is maintained to enable proper decisions to be taken during underwriting of insurance risks undertaken. Also, financial authority limits are in place for underwriting, clearly prescribing the limits to underwrite based on the sum insured and risk undertaken. Pricing is done by modelling all identified risks, using appropriate methodologies depending on the complexity of the risks and available data. Adequate buffers are kept in the premiums to cushion against the risk that actual experience may turn out to be worse than expected.

d. Reinsurance risk

Reinsurance risk refers to the inability of the Company to obtain insurance from reinsurers at the right time and at the appropriate cost.

The above risk exposure is mitigated by choosing globally highly trusted reinsurance companies for reinsurance placements. The company has reinsurance treaty with the following reinsurance companies:

NAME OF REINSURERS	RATING	ISSUING AGENCY
General Insurance Corporation of India, India	B++	AM Best
Oman Re	B+	AM Best
Kenya Re	B	AM Best
Asian Re	B+	AM Best
Cica Re	B+	AM Best

Odyssey Reinsurance	A+	AM Best

HIMALAYAN EVEREST INSURANCE LIMITED

Notes to the Financial Statements

As at Ashad End, 2082 (July 16, 2025)

e. Claim risk

Claim risk refers to the risk that the actual claims or the timing thereof may differ from expectation and sufficient reserves may not be available to cover these liabilities. The above risk exposure is mitigated by implementing strict claim review policies to assess all new and ongoing claims. Regular detailed review of claims handling procedure and frequent investigation of possible fraudulent claims are put in place to reduce the risk exposure of the Company. The Company further enforces a policy of actively managing and promptly pursuing claims in order to reduce its exposure to unpredictable future developments that may negatively impact the business. The Company seeks to reduce its claim risk through the use of experience actuaries who estimate actuarial indication of the required reserves to be made based on claims experience, business volume, anticipated change in the claim environment and claims cost.

i. Sensitivities

The Company's claim liabilities are sensitive to key assumptions as mentioned in the table below. The following analysis is performed for possible movements in key assumptions with all other assumptions held constant, showing the impact on gross and net liabilities, profit before tax and profit after tax. The correlation of assumptions will have a significant effect in determining the ultimate claims liabilities, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis.

Particulars	Changes in Assumptions	Current Year				Previous Year			
		Increase/ (Decrease) on Gross Liabilities	Increase/ (Decrease) on Net Liabilities	Increase/ (Decrease) Profit Before Tax	Increase/ (Decrease) Profit After Tax	Increase/ (Decrease) Gross Liabilities	Increase/ (Decrease) on Net Liabilities	Increase/ (Decrease) Profit Before Tax	Increase/ (Decrease) Profit After Tax

HIMALAYAN EVEREST INSURANCE LIMITED

Notes to the Financial Statements

As at Ashad End, 2082 (July 16, 2025)

47. Financial Risk Management

The Company's activities expose it to Credit Risk, Liquidity Risk & Market Risk.

i) Credit Risk

Credit risk is the risk of financial loss as a result of the default or failure of third parties to meet their payment obligations to the Company and includes the risk of failure of financial institutions with which the Company have placed deposits / investment to meet its contractual obligations. Thus, for an insurance contract, credit risk includes the risk that an insurer incurs a financial loss because a reinsurer defaults on its obligations under the reinsurance contract.

The Company's placement in debt instruments is primarily in fixed deposits with commercial banks, development banks and other financial institutions that are held at amortised cost of Rs. 3,700,574,200 (2080-81: Rs. 3,745,045,600) and in debentures issued by listed companies Rs. 288,564,518 (2080-81: Rs. 260,266,518) which are managed and monitored by the investment committee of the Company. The Company carries other financial assets, such as balances with banks, advance to employees and other receivables. Bank deposits in fixed and other short-term deposit accounts are held with commercial banks, development banks and other financial institutions having a strong financial position and considering the experience of the Company over time, the counter party risk attached to such assets is considered insignificant.

Advance to employees and other receivables are monitored on regular basis and is recovered on timely basis. Allowance for impairment is made for loss incurred assets if any. Credit risk to external reinsurers appears when insurance exposures are transferred by the Company to external reinsurance companies to mitigate insurance risks. Potential losses can arise due to non-recoverability of reinsurance receivables that are under reinsurance treaties in force. The Company has selected its reinsurers with a high credit rating and reviews their rating periodically. The information on the reinsurers is provided in 46.2 (d) above. The Company's exposures to reinsurance risk are placed with highly rated reinsurers and considering the experience of the Company over time, the counter party risk attached to insurance receivables is minimal except for receivable of Rs. 7,729,222 (2080-81: Rs. 28,115,937). The amount due from Aviation Assets Management Ltd which was provisioned has been written back by collecting final settlement realization after it's liquidation. The company also has receivable of Rs. 7,154,982 (2080-81: Rs. 7,154,982) recoverable from local insurance company and Rs. 574,240 recoverable from foreign reinsurance company under facultative arrangement which has not been recovered. Allowance for impairment for these amounts has been made in the financial statements. The Company does not have a policy of providing credit facilities against issued policy document as per regulatory restrictions. However, in respect of agriculture insurance, 20% of the premium amount is recovered at the time of issue of the policy and balance 80% is guaranteed by the Government of Nepal as subsidy to the farmers which it paid to the Company through the Nepal Insurance Authority of Nepal. Similarly, in respect of insurance for COVID-19 and certain property insurance, 50% of the premium amount is recovered at the time of issue of the policy and balance 50% if guaranteed by the Government of Nepal, which is paid to the Company through the Nepal Insurance Authority of Nepal. Accordingly, the counter party risk attached to the amount due from policyholders is minimal. The Company uses the incurred loss model for impairment of financial assets. The detail of allowance for financial assets recognised is as follows:

Particulars		
Balance of loss allowance as at Ashad 31, 2081	7,729,222	169,032,870
Add: Transferred from business acquisition	-	-
Add: Loss allowance recognised during the year	-	-
Less: Loss allowance written back during the year	-	(161,303,648)
Balance of loss allowance as at Ashadh 32, 2082	7,729,222	7,729,222

Loss allowance has been recognised for receivable from reinsurance Company and local insurance company.

The following policies and procedures are in place to mitigate the Company's exposure to credit risk:

a) Company has credit risk policy which sets out the assessment and determination of what constitutes credit risk for the Company. Compliance with the policy is monitored and exposures/ breaches are reported to the Company's risk committee. The policy is regularly reviewed for pertinence and for changes in the risk environment.

b) Reinsurance is placed with counterparties that have a good credit rating and concentration of risk is avoided by entering into agreement with more than one party. At each reporting date, management performs an assessment of creditworthiness of reinsurers and updates the reinsurance purchase strategy, ascertaining suitable allowance for impairment.

c) The company deals with only creditworthy counterparties and obtains sufficient collateral where appropriate, as a means of mitigating the risk of financial loss from defaults.

Expected Credit Losses for Financial Assets at Amortised Costs as at Ashadh 32, 2082

Particulars		Asset Group	Gross Carrying Amount	Expected probability of Default	Expected Credit Losses	Carrying Amount After Provision
Credit Risk has not significantly increased since initial recognition	Loss allowance measured at 12 months expected credit losses	Reinsurance Asset				
		Fixed Deposit				
		Debenture				
		Other Financial assets				
Credit Risk has significantly increased and not a credit impaired	Loss allowance measured at life-time expected credit losses	-	-	-	-	-
Credit Risk has significantly increased and credit impaired		-	-	-	-	-

ii) Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial instruments as they fall due. The Company maintains investment in accordance with the investment policy issued by the Nepal Insurance Authority of Nepal. The Company has also invested in highly marketable securities that can be liquidated in the event of unforeseen contingencies. Further, the investment committee reviews the liquidity level of investments and takes appropriate actions to improve the liquidity position.

Insurance receivables includes amount receivables from local insurance businesses under local facultative arrangement and from reinsurers under reinsurance arrangement for paid losses. These are recognised and measured at fair value of the considerations to be received. Insurance receivables also includes sundry debtors which are recognised when due and are initially measured at fair value on the consideration receivable. This receivable represents agriculture insurance policy, insurance for COVID-19 and certain property insurance which are subsidized by the government of Nepal to the extent of 50% to 80% of the premium invoiced amount. Collectability of premiums is reviewed on an ongoing basis.

Maturity of Financial Liabilities:

The table below summarises the Company's Financial Liabilities into Relevant Maturity Groupings based on their Contractual Maturities for all Financial Liabilities.

Particulars	Current Year			Previous Year		
	Upto 1 year	1 to 5 years	More than 5 years	Upto 1 year	1 year to 5 year	More than 5 year
Borrowings						
Other Financial Liabilities	197,475,910	440,000		212,113,341	440,000	-
Total Financial Liabilities	197,475,910	440,000		212,113,341	440,000	-

iii) Market Risk

a1) Foreign Currency Risk Exposure

Foreign exchange risk is the potential for the Company to experience volatility in the value of its assets, liabilities and solvency and to suffer actual financial losses as a result of changes in value between the currencies of its assets and liabilities and its reporting currency. The Company does not maintain foreign currency denominated assets in its investment portfolios and as such is not exposed to foreign exchange risk related to investments.

The Company has no significant concentration of currency risk. The amount with reinsurer is settled in Nepali Rupee.

b1) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The major interest rate risk that the Company is exposed to is the discount rate for determining insurance liabilities.

b2) Interest Rate Sensitivity

Profit or Loss is sensitive to changes in Interest Rate for Borrowings. A change in Market Interest Level by 1% which is reasonably possible based on Management's Assessment would have the following effect on the Profit After Tax.

Particulars	Current Year	Previous Year
Interest Rate - Increase By 1%*	-	-
Interest Rate - Decrease By 1%*	-	-

* Holding all other Variable Constant

c1) Equity Price Risk

Equity price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in equity prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or by factors affecting all similar financial instruments traded in the market.

The Company has invested in equity securities and the exposure is equity securities price risk from investments held by the Company and classified in the statement of financial position as fair value through OCI/ fair value through profit or loss.

c2) Sensitivity

The table below summarises the impact of increase/decrease of the index in the Company's equity and impact on OCI/ profit or loss for the period. The analysis is based on the assumption that the equity index had increased/ decreased by 1% with all other variables held constant, and that all the Company's equity instruments moved in line with the index.

Particulars	Current Year	Previous Year
Equity Index - Increase By 1%*	6,844,359	5,284,021
Equity Index - Decrease By 1%*	(6,844,359)	(5,284,021)

* Other components of equity would increase/decrease as a result of gains/ (losses) on equity securities classified as fair value through other comprehensive income.

48. Operational Risk

Operational Risk is the risk of direct or indirect loss, or damaged reputation resulting from inadequate or failed internal processes, people and systems or external events. When controls fail to perform, operational risks can cause damage to reputation, have legal or regulatory implications or can lead to financial loss. The Company cannot expect to eliminate all operational risks, but by initiating a rigorous control framework and by monitoring and responding to potential risks, the Company is able to manage the risks. Controls include effective segregation of duties, access controls, authorisation and reconciliation procedures, staff education and assessment processes, including the use of internal audit. Business risks such as changes in environment, technology and the industry are monitored through the Company's strategic planning and budgeting process.

49. Climate Related Risk

The Company acknowledges the increasing significance of climate change and its potential impacts on the insurance industry. Climate risk encompasses a spectrum of challenges, including physical risks arising from extreme weather events, as well as transition risks associated with the global shift towards a low-carbon economy.

a. Physical Risks:

The Company recognizes the potential for increased frequency and severity of extreme weather events, such as floods, storms, and other climatic disruptions. These events may pose a threat to the insured assets and impact on the overall claims experience. The Company has implemented active risk assessment and management practices to identify, assess, and mitigate the physical risks associated with climate change.

b. Transition Risks:

In response to the global transition towards a low-carbon economy, the Company is cognizant of the evolving regulatory landscape and market dynamics. Changes in regulations, policies, and market preferences related to climate change could affect the valuation of certain assets and liabilities, impact the Company's financial performance. The Company remains committed to staying informed about emerging developments and adapting business strategies accordingly.

c. Risk Mitigation Strategies:

As part of the Company's commitment to sustainable business practices, the Company is actively integrating climate risk considerations into its underwriting, investment, and risk management processes.

d. Disclosure of Financial Impact:

At present, the Company does not anticipate a material financial impact directly resulting from climate risk. However, the Company recognizes the dynamic nature of climate-related challenges and continues to assess and disclose any material changes that may arise in the future.

50. Capital Management

The Company's objectives when managing Capital are to:

- a) Safeguard their ability to continue as a going concern so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- b) Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

Regulatory minimum paid up capital

Non-Life insurance companies were required by the Directive of Nepal Insurance Authority to attain a stipulated minimum paid up capital of NPR 2.5 billion by mid-July 2023. As on the reporting date, the company's paid up capital is NPR 25,001,574.

Particulars	Current Year	Previous Year
(i) Dividends recognised		
Final cash dividend for the year ended Ashadh 31, 2081 of NPR 8.75/- (Ashadh 31, 2080 - NPR 6.37/-) per fully paid share	218,763,773	146,607,780
Final bonus Share for the year ended Ashadh 31, 2081 of Nil (Ashadh 31, 2080 - NPR 8.63/-) per fully paid share	-	198,622,400
(ii) Dividends not recognised at the end of the reporting period		
In addition to the above dividends, for the year ended the Board of Directors have recommended the payment of a final Cash Dividend of NPR 8/- per fully paid equity share (Including Tax). This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.	200,012,592	218,763,773

51. Earnings Per Share (EPS)

Particulars	Current Year	Previous Year
Profit For the Year	455,880,754	502,463,915
Less: Dividend on Preference Shares	-	-
Profit For the Year used for Calculating Basic Earning per Share	455,880,754	502,463,915
Add: Interest saving on Convertible Bonds	-	-

Year for Diluted Earning Per Share	25,001,574	25,001,574
Nominal Value of Equity Shares	100	100
Basic Earnings Per Share	18.23	20.10
Diluted Earnings Per Share	18.23	20.10
Proposed Bonus Shares		
Weighted Average Number of Equity Shares Outstanding During the		
Year for Restated Earning Per Share		
Nominal Value of Equity Shares		
Restated Basic Earnings Per Share		
Restated Diluted Earnings Per Share		

52. Operational Segment

Segment information is presented in respect of the Company's business segments. Management of the Company has identified portfolio as business segment and the Company's internal reporting structure is also based on portfolio. Performance is measured based on segment profit as management believes that it is most relevant in evaluating the results of segment relative to other entities that operate within these industries.

Segment asset is disclosed below based on total of all asset for each business segment.

The Company operates predominantly in Nepal and accordingly, the Management of the Company is of the view that the financial information by geographical segments of the Company's operation is not necessary to be presented. Business Segments of the Company's are:"

- Property
- Motor
- Marine
- Engineering
- Micro
- Aviation
- Cattle and Crop
- Miscellaneous

Disclosures on Quality of Assets and Capital Resources:

Quality of Assets

Asset Quality

The quality of an insurance company's assets is a critical measure of its financial stability and its ability to meet policyholder claims. HEI maintains a well-diversified portfolio of investments and other assets, emphasizing liquidity, prudent risk management, and compliance with regulatory requirements. Regular monitoring and risk assessments ensure that assets continue to perform reliably, supporting both operational needs and long-term commitments.

Asset Composition

HEI's total assets reached NPR 10.18 billion in 2081/82, reflecting steady growth over the past three years. Investments and reinsurance assets form the core of the asset base, collectively accounting for approximately 78% of total assets. Other asset categories include property and equipment, cash, insurance receivables, financial assets, and intangible assets. Key details are summarized below (in NPR):

Assets	2081/82	2080/81	2079/80
Goodwill & Intangible Assets	17,145,750	18,868,120	20,992,187
Property and Equipment	1,175,836,559	1,051,365,598	316,695,727
Deferred Tax Assets	-	12,531,846	90,362,723
Investment in Associates	-	210,161,858	-
Investments	5,242,231,416	4,818,274,239	4,654,708,234
Reinsurance Assets	2,697,992,261	2,847,849,366	3,168,415,309
Current Tax Assets	188,503,919	75,341,583	-
Insurance Receivables	523,215,128	457,156,412	1,154,516,677
Other Assets	76,107,083	85,042,482	48,959,553
Other Financial Assets	114,113,235	86,397,271	151,561,392
Cash and Cash Equivalent	145,744,832	175,773,574	207,456,354
Total Assets	10,180,890,183	9,838,762,349	9,813,668,156

Investments include fixed deposits, debentures, equities, and other instruments, selected to balance return generation with liquidity and risk mitigation. Reinsurance assets represent amounts recoverable from reinsurers against unexpired premiums, outstanding claims, and actuarial reserves. The company regularly evaluates its investment performance and maintains confidence in the stability and expected returns of its portfolio.

HEI's assets are primarily held in Nepal, with reinsurance receivables from international reinsurers. All assets remain largely unencumbered, ensuring operational flexibility and safeguarding policyholder interests.

Capital Resources

A strong capital base underpins HEI's capacity to manage risks, meet liabilities, and pursue growth opportunities. The company maintains a conservative capital policy to ensure solvency above regulatory minima, while also supporting operational efficiency and strategic investments.

Shareholders' Fund and Solvency

HEI's total equity grew to NPR 5.21 billion in 2081/82, up from NPR 4.93 billion in 2080/81. The composition of equity reflects a mix of share capital, reserves, retained earnings, and other equity contributions. Solvency remains robust, with the company maintaining a solvency margin of 438.10% in 2081/82, significantly higher than the minimum requirement of 130%. This demonstrates the company's ability to absorb potential losses and continue underwriting risks confidently.

Equity Component	2081/82	2080/81	2079/80
Share Capital	2,500,157,400	2,500,157,400	2,301,535,000
Special Reserves	1,913,190,116	1,667,570,965	1,410,503,655
Catastrophe Reserves	82,195,510	69,914,552	57,061,186
Retained Earnings	301,556,975	304,786,863	226,482,875
Other Equity	414,274,032	383,881,726	294,796,842
Total Equity	5,211,374,034	4,926,311,506	4,290,379,558

Return on Equity (ROE)

The company's ROE for 2081/82 stood at 8.75%, reflecting consistent profitability while balancing growth and risk management. ROE for the previous two years was 10.20% and 10.37%, respectively.

Dividend Policy

Based on its strong capital and solvency position, HEI has proposed an 8% cash dividend for 2081/82. Previous years' dividends included 8.75% cash in 2080/81, and a combination of 6.37% cash and 8.63% bonus shares in 2079/80. This demonstrates HEI's commitment to returning value to shareholders while maintaining financial stability.

अनुसूची- १५
(धितोपत्र दर्ता तथा निष्कासन नियमावली २०७३ को नियम २६ को उपनियम (२) सँग सम्बन्धित)
हिमालयन एभरेष्ट इन्स्योरेन्स लिमिटेड-आर्थिक वर्ष २०८१/८२ को वार्षिक प्रतिवेदन

- १) संचालक समितिको प्रतिवेदन: ३२औं वार्षिक साधारण सभाको प्रतिवेदन संलग्न छ।
- २) लेखापरिक्षको प्रतिवेदन: कम्पनीको आर्थिक वर्ष २०८१/०८२ को लेखा परिक्षको प्रतिवेदन संलग्न छ।
- ३) लेखा परिक्षण भएको वित्तीय विवरण : श्री नेपाल विमा प्राधिकरणबाट स्वीकृत भएको यस कम्पनीको आर्थिक वर्ष २०८१/०८२ को लेखापरिक्षण सम्पन्न वित्तीय विवरण संलग्न गरेका छौं।

४) कानूनी कारवाही सम्बन्धि विवरण:

- क) यस अवधिमा छिटफुट दावी भुक्तानी सम्बन्धि पुनरावेदन बाहेकमा कम्पनीको विरुद्ध कुनै मुद्दा दायर नभएको।
- ख) कम्पनी संस्थापक वा संचालकले वा संस्थापक वा संचालक विरुद्ध प्रचलित नियमको अवज्ञा वा फौजदारी अपराध गरेको सन्दर्भमा कुनै मुद्दा दायर नभएको।
- ग) कुनै संचालक वा संचालक विरुद्ध आर्थिक अपराध गरेको सम्बन्धमा कुनै मुद्दा दायर नभएको।

५) कम्पनीको शेयर कारोवार तथा प्रगतिको विश्लेषण:

- क) गत आर्थिक वर्षमा धितोपत्र बजारमा कम्पनीको शेयर कारोवार सामान्य रूपमा भएको देखिन्छ। धितोपत्र बजारमा भएका उतार चढावको अवस्था अनुसार यस कम्पनीको शेयर मूल्यमा पनि प्रभाव परेको व्यवस्थापनको विश्लेषण छ।
- ख) गत वर्षको प्रत्येक त्रैमासिक अवधिमा यस कम्पनीको शेयरको अधिकतम, न्यूनतम र अन्तिम मूल्यका साथै कूल कारोवार संख्या र कूल कारोवार दिन निम्नानुसार रहेको छ।

सर्वसाधारण शेयर कारोवार:

त्रैमासिक अवधि	अधिकतम मूल्य रु.	न्यूनतम मूल्य रु.	अन्तिम मूल्य रु.	कारोवार शेयर संख्या	कारोवार दिन
प्रथम	८१०.००	६१०.००	६७६.००	३८,७१,९८५	५७
दोश्रो	७२२.००	५९८.००	६१२.१०	११,६४,०७९	५५
तेस्रो	७१०.००	५८२.१०	५९१.१८	१४,५१,२८७	५६
चौथो	६३७.५०	५४७.४०	६१६.३६	११,७६,७६२	६३

संस्थापक शेयर कारोवार:

त्रैमासिक अवधि	अधिकतम मूल्य रु.	न्यूनतम मूल्य रु.	अन्तिम मूल्य रु.	कारोवार शेयर संख्या	कारोवार दिन
प्रथम	४३५.००	३४२.००	३७८.००	३,९६,५५७	५७
दोश्रो	५६३.००	३५४.००	४६९.००	६,२२,२४३	५५
तेस्रो	४८५.८	३५३.२०	३६३.६५	१२,६३,७७१	५६
चौथो	३८२.८०	३४७.००	३७५.०१	३,३५,७१९	६३

६) समस्या र चुनौती:

- क) वृद्धो मुद्रास्फीति र संचालन खर्चमा वृद्धि।
- ख) निर्जिवन विमा सम्बन्धि जनचेतनामा कमि।
- ग) विमा बजारमा वृद्धो प्रतिस्पर्धाको चुनौती।
- घ) अस्थिर आर्थिक तथा राजनीतिक वातावरणले व्यवसायमा पार्ने प्रभाव।
- ङ) महाभूकम्प, बाढी, पहिरो तथा दैवीप्रकोपले पर्न सक्ने महाविपत्तिको प्रभाव।

७) संस्थागत सुशासन:

- संस्थागत सुशासन कायम राख्न कम्पनी सदैव प्रतिवद्ध रहेको छ। साथै, संस्थागत सुशासन कायम राख्न कम्पनीले देहाय बमोजिमको व्यवस्था अवलम्बन गरेको छ।
- क) विमा ऐन, विमा नियमावली तथा विद्यमान कानून र नियमनकारी निकायको नियम तथा निर्देशनको पालना गरि संस्थागत सुशासन कायम राख्न संचालक समिति तथा व्यवस्थापन कटिबद्ध छ।
- ख) आन्तरिक नियन्त्रण प्रणाली निरन्तर व्यवस्थित गर्ने उद्देश्य अनुरूप विभिन्न कार्ययोजनाहरू कार्यान्वयनमा छन् साथै आवधिक आन्तरिक लेखा परिक्षण, प्रणाली परिक्षण गर्ने व्यवस्था जारी छ।

Grievance Handling Mechanism:

Himalayan Everest Insurance (HEI) is committed to ensuring that grievances and complaints from its stakeholders—including customers, investors, and partners—are addressed promptly, fairly, and transparently. A dedicated Nodal Officer has been appointed to manage the grievance handling process effectively.

Receipt of Grievance

Stakeholders may submit their grievances through multiple convenient channels:

- **In-Person:** At HEI branch offices and the head office.
- **Online:** Via HEI's official website grievance form.
- **Telephone:** Dedicated customer service helpline.
- **Letter:** Written complaints to the registered office address.
- **Email:** To the designated grievance email ID.

Nodal Officer reviews the complaint to determine its nature and scope. Relevant details are verified, and the grievance is forwarded to the concerned department—such as Claims, Underwriting, finance or Marketing—for further investigation.

If further investigation is required, the Nodal Officer ensures a fair and unbiased inquiry into the matter. Upon completion, a resolution is proposed and communicated to the stakeholder through appropriate channels (phone, email, or letter).

The grievance is formally closed once the stakeholder confirms satisfaction with the resolution.

If a grievance is not resolved within the expected timeframe, it may be escalated to -

- **Senior Management:** Direct intervention for high-priority or complex issues.

Roles and responsibilities**Chief Executive Officer (CEO):**

Oversees grievance handling policies, ensures instructions are provided for resolution, and communicates outcomes to stakeholders.

Senior Management / Department Heads:

Provide necessary facts, details, and support to investigate grievances effectively.

Grievance Officer / Nodal Officer:

Receives, assesses, investigates, and tracks grievances; proposes resolutions and ensures timely communication and record-keeping.

नेपाल बीमा प्राधिकरण NEPAL INSURANCE AUTHORITY

मिति: २०८२।०९।१३

वि. वि. शा. : १२५ (२०८२/०८३) च.नं. ३७६८

श्री हिमालयन एभरेष्ट इन्स्योरेन्स लिमिटेड,
बबरमहल, काठमाण्डौं ।

विषय: आ.व. २०८१।८२ को वित्तीय विवरणको स-शर्त स्वीकृति बारे ।

तहाँको मिति २०८२/०९/१३ (च.नं.७८४(२०८२/०८३) को पत्र साथ प्राधिकरणमा पेश भएको आ.व. २०८१।८२ को वित्तीय विवरण सम्बन्धमा लेखिदैछ ।

उपरोक्त सम्बन्धमा बीमक श्री हिमालयन एभरेष्ट इन्स्योरेन्स लिमिटेडबाट पेश भएको आ.व. २०८१।८२ को वित्तीय विवरण तथा अन्य कागजातहरु अध्ययन गर्दा बीमा ऐन, २०७९ को दफा ३८, ३९, ४० र ४१ तथा बीमकको वित्तीय विवरण सम्बन्धी निर्देशन, २०८० को दफा ११ बमोजिम बीमा कोष, अनिवार्य जगेडा कोष, महाविपत्ति कोष र दाबी भुक्तानी कोष तथा जगेडा कोष कायम गरेको देखिएकोले तहाँको आ.व.२०८१।८२ को वार्षिक वित्तीय विवरणलाई बीमा ऐन, २०७९ को दफा ८७ को उपदफा (८) तथा बीमकको वित्तीय विवरण सम्बन्धी निर्देशन, २०८० को दफा ७, ८ र ९ बमोजिम वार्षिक प्रतिवेदनमा समावेश गर्न, साधारण सभामा पेश गर्न तथा प्रकाशित गर्न देहायको निर्देशन, शर्त तथा आदेश सहित स्वीकृति प्रदान गरिएको व्यहोरा निर्णयानुसार जानकारी गराउदछौं ।

शर्तहरु:

१. बीमकको जोखिमाङ्कन तथा दाबी भुक्तानी प्रक्रियालाई थप प्रभावकारी गराउने ।
२. बीमकले पूनर्बीमक तथा बीमकसँग सम्बन्धित लेनादेना हिसाब राफसाफ गर्ने ।
३. बीमकले जोखिम व्यवस्थापनलाई थप प्रभावकारी बनाउने ।
४. बीमकले NFRS-17 Insurance Contracts लागु गर्न आवश्यक तयारी गर्ने ।
५. बीमकको आर्थिक वर्षको चौथो त्रैमासिक अवधिको त्रैमासिक वित्तीय विवरण र वार्षिक वित्तीय विवरणको Statement of Financial Position, Statement of Profit or loss तथा Statement of Other Comprehensive Income विवरणको विभिन्न शिर्षकहरुमा दश प्रतिशत भन्दा बढी रकमले फरक भएको देखिएकोले आगामी दिनमा सो कैफियतलाई सुधार गर्ने ।
६. बीमकले वार्षिक प्रतिवेदन तयार गर्दा मिति २०८१/०७/१३ गते प्राधिकरणबाट जारी परिपत्र (ने.बी.प्रा. ९५ (२०८१/०८२) च.नं. २०४०- वि.वि.शा. १) बमोजिमका बुँदाहरु समावेश गर्ने ।
७. बीमकको लेखापरीक्षकहरुले औल्याएका कैफियतहरु सुधार गर्न तथा त्यस्ता कैफियतहरु पुनः दोहोरिन नदिन आवश्यक व्यवस्था गर्ने ।
८. बीमकले प्राधिकरणबाट वित्तीय विवरण स्वीकृत भएको मितिले ६०(साठी) दिन भित्र साधारण सभा गर्ने ।

(सन्तोष कार्की)
चार्टर्ड एकाउन्टेन्ट

श्री नेपाल बिमा प्राधिकरणबाट आर्थिक वर्ष २०८१/०८२ को वित्तीय विवरण स्वीकृति प्रदान
हुँदाका शर्तहरूका सम्बन्धमा संचालक समितिको जवाफ:

- १) आन्तरिक नियन्त्रण प्रणालीका माध्यमबाट जोखिमांकन तथा दावी भुक्तानी प्रकृतिलाई अझ प्रभावकारी बनाईनेछ।
- २) विमक तथा पुनर्विमकसँगको हिसाब मिलान विवरण बमोजिम लेनादेना फरफारक गर्नका लागि आवश्यक कदम चाल्ने व्यवस्था गरिनेछ।
- ३) नेपाल बिमा प्राधिकरणबाट जारी जोखिम व्यवस्थापन सम्बन्धि मार्गदर्शनको अधिनमा रही जोखिम व्यवस्थापनको कार्य गरिनेछ।
- ४) **NFRS-17 Insurance Contracts** लागु गर्न परामर्शदाता छनोट सम्पन्न भई निजको नियुक्ति स्वीकृति नेपाल बिमा प्राधिकरणबाट प्राप्त भएको छ। **NFRS-17 Insurance Contracts** कार्यान्वयनको आवश्यक कार्यगत योजना तयार गरि लागु गरिनेछ।
- ५) आर्थिक वर्ष २०८१/८२ को चौथो त्रैमासिक अवधिको वित्तीय विवरण र वार्षिक वित्तीय विवरणको **Statement** या **Financial Position, Statement** या **Profit or Loss Statement** तथा **Other Comprehensive Income** विवरणको विभिन्न शिर्षकहरूमा दश प्रतिशत भन्दा बढी फरक पर्न गएको कारण र आधार सहितको जानकारी वार्षिक वित्तीय विवरणमा राख्ने व्यवस्था गरिएको छ। साथै, प्राधिकरणको निर्देशन बमोजिम आर्थिक वर्ष २०८२/८३ मा प्राप्त निर्देशन कार्यान्वयन गर्न आवश्यक कदम चाल्ने व्यवस्था गरिनेछ।
- ६) विमकको वार्षिक प्रतिवेदनमा प्राधिकरणबाट मिति २०८१/०७/१३ गते जारी परिपत्र (ने.वि.प्रा. १५ (२०८१/०८२) च नं. २०४०-वि.शा १) बमोजिमका बुँदाहरू समावेश गरिनेछ।
- ७) विमकको लेखापरिक्षकहरूले औल्याएका कैफियतहरूलाई दोहोरिन नदिन आन्तरिक नियन्त्रण प्रणालीलाई सुदृढ गर्ने व्यवस्था गरिनेछ।
- ८) प्राधिकरणबाट आर्थिक वर्ष २०८१/८२ को वित्तीय विवरण स्वीकृत भएको ६० दिन भित्र वार्षिक साधारण सभा सम्पन्न गरिनेछ।

Communication Mechanism for Interaction and Information Flow to Stakeholders:

Himalayan Everest Insurance (HEI) maintains a structured communication mechanism to ensure effective and transparent interaction with all stakeholders, including customers, employees, shareholders, regulators, and business partners. This framework fosters trust, collaboration, and accountability across the organization

Objectives of the Communication Mechanism

- **Transparency & Accountability:** Provide clear, accurate, and reliable information about organizational activities, performance, and decisions.
- **Timely Communication:** Ensure stakeholders receive information promptly to make informed decisions.
- **Two-way Engagement:** Facilitate feedback from stakeholders to enhance processes, products, and services.
- **Regulatory Compliance:** Ensure adherence to statutory requirements and industry standards.

Communication Channels

Stakeholder Group	Channels & Methods	Purpose / Use
Policyholders	Website, SMS/Email alerts, Social Media	Provide information on policies, renewals, claims updates, and engage directly with customers.
Employees & Internal Stakeholders	Emails & circulars, Meetings & workshops, Internal collaboration platforms (e.g., MS Teams), newsletters	Share organizational updates, procedural changes, gather feedback, and enhance professional skills.
Shareholders	Annual General Meetings, Reports (annual/Quarterly financial performance), Notices	Communicate financial performance, strategic decisions, and updates.
Regulatory Authorities & Compliance Bodies	Reports, Meetings, Official correspondence	Submit statutory reports, maintain compliance, and ensure regulatory alignment.
Business Partners & Reinsurers	Trainings, Coordination meetings, Workshops	Provide product updates, compliance guidance, and ensure adequate reinsurance coverage.

Publication of Statutory Notices

HEI publishes statutory notices in national newspapers and on its official website, including:

- Quarterly proactive disclosures as required by the Right to Information Act.
- Quarterly financial statements.
- Notices for Annual or Special General Meetings, including financial statements.
- Announcements regarding book closure, bonus shares, right shares, or new share issuance.
- Any other notices required by law or regulation.

Responsibility and Accountability

Role	Responsibilities
Information Officer	Primary contact for public information requests.
Company Secretary	Responsible for shareholder-related communication.
Nodal Officer	Handles general inquiries and internal information requests.

Stakeholders may approach the relevant officer to obtain legitimate information in a timely and transparent manner.

The HEI INSIGHTS

Monthly Newsletter

As part of its ongoing efforts to strengthen internal communication, promote knowledge sharing, and foster a learning and reading culture within the organization, Himalayan Everest Insurance Limited (HEI) introduced “HEI Insight”, the Company’s internal monthly newsletter.

HEI Insight is an initiative of the Branding and Corporate Communication Department and was officially launched in Poush 2081. During FY 81/82, a total of seven (7) issues of the newsletter were published and circulated internally.

The newsletter serves as an informative platform that captures and reflects the collective identity of the HEI family. It features ideas, articles, and creative write-ups contributed by employees across various departments, levels and provinces, thereby encouraging staff

participation and intellectual engagement.

HEI Insight also highlights key activities conducted within the organization, including training and development programs, partnerships, internal events, corporate initiatives, and other significant milestones. Through regular updates, the newsletter keeps employees informed about ongoing developments and achievements across the Company.

This initiative represents a continuous effort by the Company to cultivate learning habits, encourage reading culture, and enhance awareness of organizational activities among employees. By strengthening internal communication and engagement, HEI Insight contributes to building a more informed, connected, and knowledge-driven workforce, aligned with the Company’s values and long-term strategic objectives.
